The Latest Avant Garde

John Picchione

The Latest Avant Garde:

The Last Avant-Garde David Lehman, 1999-11-09 A landmark work of cultural history that tells the story of how four young poets John Ashbery Frank O Hara James Schuyler and Kenneth Koch reinvented literature and turned New York into the art capital of the world Greenwich Village New York circa 1951 Every night at a rundown tavern with a magnificent bar called the Cedar Tavern an extraordinary group of painters writers poets and hangers on arrive to drink argue tell jokes fight start affairs and bang out a powerful new aesthetic Their style is playful irreverent tradition shattering and brilliant Out of these friendships and these conversations will come the works of art and poetry that will define New York City as the capital of world culture abstract expressionism and the New York School of Poetry A richly detailed portrait of one of the great movements in American arts and letters The Last Avant Garde covers the years 1948 1966 and focuses on four fast friends the poets Frank O Hara James Schuyler John Ashbery and Kenneth Koch Lehman brings to vivid life the extraordinary creative ferment of the time and place the relationship of great friendship to art and the powerful influence that a group of visual artists especially Jane Freilicher Larry Rivers and Fairfield Porter had on the literary efforts of the New York School The Last Avant Garde is both a definitive and lively view of a quintessentially American aesthetic and an exploration of the dynamics of creativity

The Last Soviet Avant-Garde Graham Roberts, 1997-06-05 A comprehensive study of the OBERIU group of avant garde Soviet writers

The New Avant-garde in Italy John Picchione, 2004-01-01 The debate on literature and the arts provoked by the Italian neoavant garde neoavanguardia is undoubtedly one of the most animated and controversial the country has witnessed from World War II to the present Comprising the period between the late 1950s and the late 1960s the phenomenon of the neoavanguardia involved key writers critics and artists both as insiders Sanguineti Balestrini Guglielmi Eco and others and adversaries such as Pasolini Calvino and Moravia In The New Avant Garde in Italy the first book in English to document the movement John Picchione's objective is twofold to provide a comprehensive analysis of the theoretical tenets that inform the works of the neoavanguardia and to show how they are applied to the poetic practices of its authors The neoavanguardia cannot Picchione argues be defined as a movement with a unified program expressed in the form of manifestos or shared theoretical principles It experiences irreconcilable internal conflicts that are explored as a split between two main blocs one that is tied to the project of modernity the other to post modern aesthetic postures This study suggests that some of the contentious views proposed by the neoavanguardia anticipated a wide range of issues that continue to be significant and pressing to this day

Globalizing the Avant-Garde David Ayers, Joana Cunha Leal, Benedikt Hjartarson, Margarida Brito Alves, 2024-12-16 How has the process of globalization shaped artistic practices on the one hand and art history and theory on the other The contributions in this volume approach this question from a range of perspectives taking into account the role of travel for example or practitioners increasing knowledge of other cultures art's increasing awareness of itself as existing on a global level literary translation the advance of technology and the ever

changing grand narratives of art history As well as reflections on European avant gardes and neo avant gardes the collection features discussions of Japan Latin America Africa Asia and the Pacific As a whole the volume engages with broader current discourses about cultural globalization and features input from leading scholars around the world as well as some important novel interventions by early career researchers The authors not only make a major contribution to the evolution of avant garde studies but also offer valuable original points of view to art history and to the cultural theory of globalization more broadly

After the Avant-garde Randall Halle,Reinhild Steingröver,2008 Filmmaking in Germany and Austria has changed dramatically with digitalization and the use of video and the Internet Introducing the work of filmmakers this volume offers an assessments of the intent and effect of their productions and describes overall trends

The Age of the Avant-Garde Hilton Kramer,2011-12-31 Hilton Kramer well known as perhaps the most perceptive courageous and influential art critic in America is also the founder and co editor with Roger Kimball of The New Criterion This comprehensive book collects a sizable selection of his early essays and reviews published in Artforum Commentary Arts Magazine The New York Review of Books and The Times and thus constituted his first complete statement about art and the art world The principal focus is on the artists and movements of the last hundred years the Age of the Avant Garde that begins in the nineteenth century with Realism and Impressionism Most of the major artists of this rich period from Monet and Degas to Jackson Pollock and Claes Oldenburg are discussed and often drastically reevaluated A brilliant introductory essay traces the rise and fall of the avant garde as a historical phenomenon and examines some of the cultural problems which the collapse of the avant garde poses for the future of art In addition there are chapters on art critics museums the relation of avant garde art to radical politics and on the growth of photography as a fine art This collection is not intended to be the last word on one of the greatest as well as one of the most complex periods in the history of the artistic imagination The essays and reviews gathered here were written in response to particular occasions and for specific deadlines in the conviction that a start in the arduous task of critical revaluation needed to be made not because a critical theory prescribed it but because our experience compelled it

European Avant-garde Dietrich (editor) Scheunemann,2000 This collection of critical essays is designed to lay the foundations for a new theory of the European avant garde It starts from the assumption that not one all embracing intention of all avant garde movements i e the intention of reintegrating art into the practice of life Peter B rger but the challenge of new cultural technologies in particular photography and cinema constitutes the main driving force of the formation and further development of the avant garde This approach permits to establish a theoretical framework that takes into account the diversity of artistic aims and directions of the various art movements and encourages a wide and open exploration of the multifaceted and often contradictory nature of the great variety of avant gardist innovations Following the theoretical foundation of the new approach individual contributions concentrate on a diverse range of avant gardist concepts trends and manifestations from cubist painting and the literary work of Apollinaire and Gertrude Stein to

the screeching voices of futurism dadaist photomontage and film surrealist photographs and sculptures and neo avant gardist theories as developed by the French group OuLiPo The volume closes with new insights gained from placing the avant garde in the contexts of literary institutions and psychoanalytical and sociological concepts The main body of the volume is based on presentations and discussions of a three day research seminar held at Yale University New Haven in February 2000 The research group formed on this occasion will continue with its efforts to elaborate a new theory of the avant garde in the coming years

The Idea of the Avant Garde Marc James Léger, 2019-10-15 The concept of the avant garde is highly contested whether one consigns it to history or claims it for present day or future uses The first volume of *The Idea of the Avant Garde And What It Means Today* provided a lively forum on the kinds of radical art theory and partisan practices that are possible in today's world of global art markets and creative industry entrepreneurialism This second volume presents the work of another 50 artists and writers exploring the diverse ways that avant gardism develops reflexive and experimental combinations of aesthetic and political praxis The manifest strategies temporalities and genealogies of avant garde art and politics are expressed through an international intergenerational and interdisciplinary convocation of ideas that covers the fields of film video architecture visual art art activism literature poetry theatre performance intermedia and music

A Cultural History of the Avant-Garde in the Nordic Countries 1950-1975, 2016-03-17 *A Cultural History of the Avant Garde in the Nordic Countries 1950 1975* is the first publication to deal with the postwar avant garde in the Nordic countries The essays cover a wide range of avant garde manifestations in arts and culture literature the visual arts architecture and design film radio television and the performative arts It is the first major historical work to consider the Nordic avant garde in a transnational perspective that includes all the arts and to discuss the role of the avant garde not only within the aesthetic field but in a broader cultural and political context The cultural politics institutions and new cultural geographies after World War II new technologies and media performative strategies interventions into everyday life and tensions between market and counterculture

Neo-Avant-Garde, 2016-08-01 The neo avant garde of the 1950s 60s and 70s is due for a thoroughgoing reassessment This collection of essays represents the first full scale attempt to deal with the concept from an interdisciplinary standpoint A number of essays in this book concentrate on fine art particularly painting and sculpture thereby adding significantly to the growing art historical literature in the field but a number of the contributions also focus on poetry performance theatre film architecture and music Given that there are also major essays here dealing with geographical blindspots in current neo avant garde studies with thematic issues such as art's entanglement with gender mass culture and politics with key neo avant garde publications and with the purely theoretical problems attaching to the theorisation of the topic this collection offers a multi dimensional approach to the subject which is noticeably lacking elsewhere Taken together these essays represent a consolidated attempt at re thinking the cultural logic of the immediate post World War II period
