The Law Of Watercourses Vol 1:

Governing International Watercourses Susanne Schmeier, 2013 In this contribution to the academic and policy debates surrounding the management and governance of shared natural resources the focus is placed on River Basin Organizations as the key institutions for managing internationally shared water resources The book includes advice to policy makers based on worldwide analysis and three detailed case studies from three continents the Senegal West Africa Mekong South east Asia and Danube Europe rivers *Catalogue of the Law Library of the Louisiana Bar Association to June, 1911* Louisiana Bar Association. Library, New Orleans, Stephen A. Mascaró, 1911 **The Law of International Watercourses** Stephen C. McCaffrey, 2019-02-21 The Law of International Watercourses is an authoritative guide to the rules of international law governing the navigational and non navigational uses of international rivers lakes and groundwater The continued growth of the world's population places increasing demands on Earth's finite supplies of fresh water Because two or more States share many of the world's most important drainage basins including the Danube the Ganges the Indus the Jordan the Mekong the Nile the Rhine and the Tigris Euphrates competition for increasingly scarce fresh water resources will only increase Agreements between the States sharing international watercourses are negotiated and disputes over shared water are resolved against the backdrop of the rules of international law governing the use of this precious resource The basic legal rules governing the use of shared freshwater for purposes other than navigation are reflected in the 1997 UN Convention on the Law of the Non Navigational Uses of International Watercourses This book devotes a chapter to the 1997 Convention but also examines the factual and legal context in which the Convention should be understood considers the more important rules of the Convention in some depth and discusses specific issues that could not be addressed in a framework instrument of that kind The book reviews the major cases and controversies concerning international watercourses as a background against which to consider the basic substantive and procedural rights and obligations of States in the field The third edition covers the implications of the 1997 Convention coming into force in August 2014 and the compatibility of the 1997 and 1992 Conventions This edition also updates the entire book adds new material to many of the chapters and adds a number of new case studies including Pulp Mills on the River Uruguay Argentina v Uruguay and Certain Activities carried out by Nicaragua in the Border Area Costa Rica v Nicaragua amongst others *Catalogue of the Law Library of the Supreme Court of Ohio* Ohio. Supreme Court. Law Library, Frank Nellis Beebe, 1894 Recueil Des Cours, Collected Courses 2001 Académie de Droit International de la Haye, 2002-06-30 The Academy is an institution for the study and teaching of Public and Private International Law and related subjects Its purpose is to encourage a thorough and impartial examination of the problems arising from international relations in the field of law The courses deal with the theoretical and practical aspects of the subject including legislation and case law All courses at the Academy are in principle published in the language in which they were delivered in the Collected Courses of the Hague Academy of International Law The contents of this volume consist
