## **The Lê Code Law In Traditional Vietnam:**

**The Lê Code** Ngọc Huy Nguyễn, Văn Tài Tạ, Văn Liêm Trần, 1987 Preface by Oliver Oldman Director of East Asian Legal Studies at Harvard Law School The L Code Law in Traditional Vietnam is the first English translation of the penal code produced by Vietnam's Lê Dynasty 1428-1788 The code itself was the culmination of a long process of political, social, and legal development that extended into the period of the succeeding Nguyễn Dynasty and in many respects into the twentieth century. As is the case with cultures of other countries in East Asia, Vietnam has been widely influenced by China. However, even though Vietnam was dominated by China from the second century B.C. through the tenth century A.D., the spirit and culture of the Vietnamese people never disappeared. Like the traditional codes of Korea and Japan, the L Code incorporated many provisions from the Chinese Tang Code, but the Vietnamese code contains original features which reflect the distinct socio-cultural and political realities of Vietnamese society. Thus, The L Code is a valuable instrument for gauging the extent of Chinese influence in Vietnam and the limits of that influence, as well. In order to emphasize the Vietnamese innovations, many of which were extremely modern even by Western standards, and to point out the similarities between the L Code and its Chinese models, the authors have compared the Vietnamese code with several of its Chinese predecessors. They have enriched the text with substantial legal and historical annotations, not only on the Lê period but also on the dynasties immediately preceding and following it. The product is at the same time a work of history and a comparative study of the traditional Chinese and Vietnamese law. Only after their exile in 1975 have the authors, lawyers in Vietnam and experts in Sino-Vietnamese law, been able to devote the time and energy necessary to translate this work. They have used legal analysis, historical, political, and social inquiry in order to compile a study of East Asian law that is more extensive in legal and historical details than any other Western language translation of an East Asian law code.

**The Making of Intellectual Property Law in Vietnam** Tran Kien, 2025-09-03 This book is about the making of intellectual property law in Vietnam across colonial and socialist space and time from 1864 to 1994. It provides a completely new, provoking narrative disproving previously published scholarship which claimed that there was no intellectual property law in Vietnam during the colonial and socialist periods. In doing so, the book engages with an emerging field of historiographical inquiry into the intellectual property law history in Vietnam and worldwide, which investigates how and why the scholarship about the history of intellectual property law has been construed and framed as such within a specific period and space. This book is comprised of three knowledge components. The first involves the reconstruction of the lost intellectual property law from 1864 to 1994 in Vietnam, doctrinally. Relying on newly discovered archives in Vietnam and worldwide, it unravels a corpus of statutory and regulatory provisions and interesting, at times contradictory, juridical decisions that governed and interpreted copyright, patent, and trademark. The second is the historiographical inquiry of the making of the intellectual property law history scholarship in Vietnam. This will answer the questions of how and why the particular histories had been construed and

framed as such at a particular time This involves the debate about sociopolitical ideologies underlying the meaning and application of the laws most notably colonialism and socialism Finally the third engages with the theory of legal transplantation It addresses a hypothetical question of colonial laboratory as a form of legal transplantation a new concept that this book offers to the global scholarship It demonstrates that the colonial empire had tried to use Vietnam as a laboratory for its legal reform and then transplanted the successful and feasible results back to the empire This book explains the distinctively ideological principles underlying the understanding and application of the law *The A to Z of Vietnam* Bruce M. Lockhart, William J. Duiker, 2010-04-14 Vietnam became part of French Indochina in 1887 and did not regain its independence again until after the Vietnam War However despite a relatively peaceful two decades the country experienced little economic growth because of conservative leadership policies In an effort to change this stagnation Vietnamese authorities have committed to economic liberalization and enacted structural reforms needed to modernize the economy and to produce more competitive export driven industries The A to Z of Vietnam focuses on the recent changes and leadership of Vietnam while giving due attention to the earlier kingdoms the period of French Indochina the wars for liberation the Vietnam War and much more Hundreds of cross referenced A to Z dictionary entries are included on political economic social and cultural aspects as well as the major cities and geographic features This book also contains a chronology and introduction that traces Vietnam s history as well as a bibliography **Vietnamese Law in English** Barbara G. James, 1993

*The Cambridge Companion to Comparative Law* Mauro Bussani, Ugo Mattei, 2012-08-16 The book delves into the deeper structures of the world s legal systems where law meets culture politics and socio economic factors **Vietnam** D.R. SarDesai, 2005-02-04 Updated to include recent events and new insights SarDesai argues that the quest for national identity is a recurring theme throughout two millennia of Vietnamese history and this nationalism fuels Vietnamese struggles against France the United States and China Sources of Vietnamese Tradition George Edson Dutton, Jayne Susan Werner, John K. Whitmore, 2012 Sources of Vietnamese Tradition provides an essential guide to two thousand years of Vietnamese history and a comprehensive overview of the society and state of Vietnam Strategic selections illuminate key figures issues and events while building a thematic portrait of the country s developing territory politics culture and relations with neighbors The volume showcases Vietnam s remarkable independence in the face of Chinese and other external pressures and respects the complexity of the Vietnamese experience both past and present The anthology begins with selections that cover more than a millennium of Chinese dominance over Vietnam 111 B C E 939 C E and follows with texts that illuminate four centuries of independence ensured by the Ly Tran and Ho dynasties 1009 1407 The earlier cultivation of Buddhism and Southeast Asian political practices by the monarchy gave way to two centuries of Confucian influence and bureaucratic governance 1407 1600 based on Chinese models and three centuries of political competition between the north and the south resolving in the latter s favor 1600 1885 Concluding with the colonial era and the modern age the volume recounts the ravages of war and

the creation of a united independent Vietnam in 1975 Each chapter features readings that reveal the views customs outside influences on and religious and philosophical beliefs of a rapidly changing people and culture Descriptions of land society economy and governance underscore the role of the past in the formation of contemporary Vietnam and its relationships with neighboring countries and the West
