## **The Liberal Cage:**

**The Liberal Cage** Harry Clifton, 1988      *Islam after Liberalism* Faisal Devji, Zaheer Kazmi, 2017-12-01 Forged in the age of empire the relationship between Islam and liberalism has taken on a sense of urgency today when global conflicts are seen as pitting one against the other More than describing a civilizational fault line between the Muslim world and the West however this relationship also offers the potential for consensus and the possibility of moral and political engagement or compatibility The existence or extent of this correspondence tends to preoccupy academic as much as popular accounts of such a relationship This volume looks however to the way in which Muslim politics and society are defined beyond and indeed after it Reappraising the first wave of Islamic liberalism during the nineteenth century the book describes the long and intertwined histories of these categories across a large geographical expanse By drawing upon the contributions of scholars from a variety of disciplines including philosophy theology sociology politics and history it explores how liberalism has been criticised and refashioned by Muslim thinkers and movements to assume a reality beyond the abstractions that define its compatibility with Islam      **Tomorrow Is the Question** Benjamin Piekut, 2014-04-09 Essays investigating and sparking new questions in experimental music      **John Cage** Sara Haefeli, 2017-12-06 This annotated bibliography uncovers the wealth of resources available on the life and music of John Cage one of the most influential and fascinating composers of the twentieth century The guide will focus on documentary studies archival resources scholarly research and autobiographical materials and place the composer and his work in a larger context of postmodern philosophy art and theater movements and contemporary politics It will support emerging scholarship and inquiry for future research on Cage with carefully selected sources and useful annotations      *Cages of Reason* Bernard S. Silberman, 1993-06 Blending political historical and sociological analysis Bernard S Silberman offers a provocative explanation for the bureaucratic development of the modern state The study of modern state bureaucracy has its origins in Max Weber's analysis of the modes of social domination which Silberman takes as his starting point Whereas Weber contends that the administration of all modern nation states would eventually converge in one form characterized by rationality and legal authority Silberman argues that the process of bureaucratic rationalization took in fact two courses One path is characterized by permeable organizational boundaries and the allocation of information by professionals The other features well defined boundaries and the allocation of information by organizational rules Through case studies of France Japan the United States and Great Britain Silberman demonstrates that this divergence stems from differences in leadership structure and in levels of uncertainty about leadership succession in the nineteenth century Silberman concludes that the rise of bureaucratic rationality was primarily a response to political problems rather than social and economic concerns *Cages of Reason* demonstrates how rationalization can have occurred over a wide range of cultures at various levels of economic development It will be of considerable interest to readers in a number of disciplines political science sociology history and public administration Silberman has produced an invaluable densely packed

work that those with deep knowledge of public administrative development will find extremely rewarding David H Rosenbloom American Political Science Review An erudite incisive and vibrant book the product of intensive study and careful reflection Given its innovative theoretical framework and the wealth of historical materials contained in it this study will generate debate and stimulate research in sociology political science and organizational theory It is undoubtedly the best book on the comparative evolution of the modern state published in the last decade Mauro F Guillen Contemporary Sociology

**The Cambridge Companion to John Cage** David Nicholls,2002-08-01 John Cage 1912 1992 was without doubt one of the most important and influential figures in twentieth century music Pupil of Schoenberg Henry Cowell Marcel Duchamp and Daisetz Teitaro Suzuki among others he spent much of his career in pursuit of an unusual goal giving up control so that sounds can be sounds as he put it This book celebrates the richness and diversity of Cage s achievements the development of the prepared piano and of the percussion orchestra the adoption of chance and of indeterminacy the employment of electronic resources and of graphic notation and the questioning of the most fundamental tenets of Western art music Besides composing around 300 works he was also a prolific performer writer poet and visual artist Written by a team of experts this Companion discusses Cage s background his work and its performance and reception providing in sum a fully rounded portrait of a fascinating figure **Cage and Singing Birds** George Gardner,1905 **John Cage's Concert for**

**Piano and Orchestra** Martin Iddon,Philip Thomas,2020-05-14 Looking at one of the twentieth century s most notorious musical masterpieces John Cage s Concert for Piano and Orchestra examines Cage s compositional process its infamous performance history and its influence on philosophical ideas of what music actually is **Allying beyond Social Divides** Yasmine Berriane,Marie Duboc,2020-11-25 This book offers a fresh look at the role of coalitions in contentious politics in North Africa and the Middle East based on conceptual reflexions and empirical case studies by researchers who have conducted extensive fieldwork in the region Coalitions of actors that have traditionally not been allies have become a key feature of the protest movements that have emerged across North Africa and the Middle East since 2011 But what happens when Islamists ally with Leftists workers with student unions and young engineers with local tribesmen How do coalitions form across ideological generational professional ethnic and class divides Are such collaborations transformative The authors seek to show that it is important to go beyond analyses that focus mainly on identifying the factors that led to a coalition s success or failure coalitions are moments of transformative encounter that can lead to changes affecting relations with political authorities ideological learnings repertoires of action and understandings of the notion of right Instead of analyzing coalitions and social divides as two opposite processes this book further argues that studying the alliance of social groups goes hand in hand with exploring processes of differentiation that are engineered by both political regimes and social actors Focusing on the role of coalitions in contentious politics before and after the Arab uprisings this book proposes a sociology of coalitions in the Middle East based on key empirical examples to analyze the transformations that emerged out of such

alliances at the levels of repertoires of action forms of organization relations to political authorities and ideological learnings  
The chapters in this book were originally published as a special issue of the journal *Mediterranean Politics*     *A Peculiar  
People* Rodney R. Clapp, 1996-11-12 Rodney Clapp asks and answers the question How can the church provide a significant  
alternative to the culture in which it is embedded
