Sir John Soane? Influence on Architecture from 1791 Oliver Bradbury, 2017-07-05 Sir John Soane's Influence on Architecture from 1791 A Continuing Legacy is the first in

depth study of this eighteenth century British architect's impact on the work of others extending globally and still indeed the case over 200 years later Author Oliver Bradbury presents a compelling argument that the influence of Soane 1753-1837 has persevered through the centuries rather than waning around the time of his death Through examinations of internationally renowned architects from Benjamin Henry Latrobe to Philip Johnson as well as a number of not so well known Soanean disciples Bradbury posits that Soane is perhaps second only to Palladio in terms of the longevity of his influence on architecture through the course of more than two centuries from the early 1790s to today concluding with the recent return to pure revivalism Previous investigations have been limited to focusing on Soane's late Georgian and then post modern influence this is the first in depth study of his impact over the course of two centuries Through this survey Bradbury demonstrates that Soane's influence has been truly international in the pre modern era reaching throughout the British Isles and beyond to North America and even colonial Australia Through his inclusion of select detailed case studies Bradbury contends that Soane's is a continuing not negated legacy in architecture

study that sheds a fascinating new light on Sir John Soane 1753 1837 and his world renowned collection Sir John Soane s architecture has enjoyed a revival of interest over the last seventy years yet Soane as a collector the strategy behind and motivation for Soane s bequest to the nation has remained largely unexplored While Soane referred to the display of objects in his house and museum as studies for my own mind he never explained what he meant by this and the ambiguity surrounding his motivation remains perennially fascinating This book sheds light on a side of Soane s personality unfamiliar to most students of his life and work by examining key strands in his collection and what they reveal about Soane and the psychology of collecting Topics include the display of antiquities his fascination with ruins both literal and figurative his singular response to Gothic architecture and his investment in modern British painting and sculpture These aspects are bookended by an introductory biographical chapter that highlights the ways in which his family and career informed his collecting habits as well as an epilogue that analyses the challenges of turning a private house and collection into a public museum

How architectural drawings emerged as aesthetic objects promoted by a network of galleries collectors and institutions and how this changed the understanding of architecture Prior to the 1970s buildings were commonly understood to be the goal of architectural practice architectural drawings were seen simply as a means to an end But just as the boundaries of architecture itself were shifting at the end of the twentieth century the perception of architectural drawings was also shifting they began to be seen as autonomous objects outside the process of building In *Drawing on Architecture* Jordan Kauffman offers an account of how architectural drawings promoted by a network of galleries and collectors exhibitions and events emerged as aesthetic objects and ultimately attained status as important cultural and historical artifacts and how this was both emblematic of changes in architecture and a catalyst for these changes Kauffman traces moments of critical importance to the evolution of the perception of architectural drawings beginning with exhibitions that featured architectural drawings displayed in ways that did not elucidate buildings but treated them as meaningful objects in their own right When architectural drawings were seen as having intrinsic value they became collectible and Kauffman chronicles early collectors galleries and sales He discusses three key exhibitions at the Leo Castelli Gallery in New York other galleries around the world that specialized in architectural drawings the founding of architecture museums that understood and collected drawings as important cultural and historical artifacts and the effect of the new significance of architectural drawings on architecture and architectural history *Drawing on* interviews with more than forty people directly involved with the events described and on extensive archival research Kauffman shows how architectural drawings became the driving force in architectural debate in an era of change **Cultures of Collecting** Roger Cardinal, 2004-09-02 This book traces the psychology history and theory of the compulsion to collect focusing not just on the normative collections of the Western canon but also on collections that reflect a fascination with the Other and the marginal the ephemeral exotic or just plain curious There are essays on the Neoclassical architect Sir John Soane Sigmund Freud and Kurt Schwitters one of the masters of collage Others examine imperialist encounters with remote cultures the conquistadors in America in the sixteenth century and the British in the Pacific in the eighteenth and the more recent collectors of popular culture be they of Swatch watches Elvis Presley memorabilia or of packaging and advertising With essays by Jean Baudrillard Thomas DaCosta Kaufmann Nicholas Thomas Mieke Bal John Forrester John Windsor Naomi Schor Susan Stewart Anthony Alan Shelton John Elsner Roger Cardinal and an interview with Robert Opie *Lonely Planet Pocket London* Lonely Planet, *Architect* ,1873
