Archaic Greece Nick Fisher, Hans van Wees, 1998-12-31 The

study of archaic Greece c 750-480 BC is being transformed by exciting discoveries and interpretations. In fourteen original studies from a distinguished international cast, this book explores many aspects of a rapidly changing Greek world. Detailed re-interpretation of archaeological material reveals diversity in patterns of settlement, sanctuaries and burial practices and shows motivations underlying the expanding exchange of goods and the settlement of new communities. Local studies of archaeology and iconography revise our image of the peculiarity of Spartan society and East Greek cult. Texts from Homer and Hesiod to a newly found poem of Simonides are given fresh interpretations. And there are new studies of developments in maritime warfare, the roles of literacy and law making in Crete, the emergence of a less violent Greek life style and the articulation of political thought.

The Epic Women of Homer Eirene S. Allen, 2025-03-30. Reexamines the women of Homer's Iliad and Odyssey, restoring their essential roles and challenging traditional heroic narratives. Our earliest written sources for Greek mythology, Homer's Iliad and Odyssey, feature women prominently as drivers of the narratives. Though they occupy a variety of roles and speak eloquently for themselves in every role, these women have been obscured by the assumption that each epic's central hero, Achilles and Odysseus respectively, is also its singular hero. And yet the story of the Iliad is not the story of Achilles; just as the story of the Odyssey is not the story of Odysseus alone. Contrary to centuries of reception, the epics are not only about fearless yet flawed men but rather explore and develop the contours of belonging and community in times of war and peace. *The Epic Women of Homer* untangles the women of the Iliad and the Odyssey from centuries of narrative constraints to recover their essential meaning and importance. In the process, *The Epic Women of Homer* challenges the commonplace assumption that the Homeric hero is an individual who fights for personal glory, a misconception further fuelled by a lack of understanding of the oral tradition out of which Homer's epics emerged, in which linguistic and thematic patterning exists at every level. Analysing Homer's goddesses and heroes through the lens of these patterns, their recurrence and variation reveal them to be preeminent in a wide range of skills, all of which are necessary, and yet the essence of each is in their relationships with others. *The Epic Women of Homer* re-establishes these goddesses and heroines to their esteemed positions in ancient Greece and reintroduces them to the modern world.

Death-Ritual and Social Structure in Classical Antiquity Ian Morris, 1992-10-22. In this innovative book, Dr Morris seeks to show the many ways in which the excavated remains of burials can and should be a major source of evidence for social historians of the ancient Graeco-Roman world. Burials have a far wider geographical and social range than the surviving literary texts, which were mainly written for a small elite. They provide us with unique insights into how Greeks and Romans constituted and interpreted their own communities. In particular, burials enable the historian to study social change. Ian Morris illustrates the great potential of the material in these respects with examples drawn from societies as diverse in time, space and political context as archaic Rhodes, classical Athens, early imperial Rome and the last days of the western Roman empire.

News and Society in the Greek Polis Sian Lewis, 1996. Sian Lewis explores the role of news and information in shaping Greek society from the sixth to the fourth centuries BC.

Applying ideas from the study of modern media to her analysis of the functions of gossip travel messengers inscriptions and inst

OCR Classical Civilisation AS and A Level Components 21 and 22 Robert Hancock-Jones, James Renshaw, Laura Swift, 2017-07-13 This textbook is endorsed by OCR and supports the specification for AS and A Level Classical Civilisation first teaching September 2017 It covers Components 21 and 22 from the Culture and the Arts Component Group Greek Theatre by James Renshaw and Laura Swift Imperial Image by Robert Hancock Jones Why was tragedy and comedy so central to Athenian life How did drama challenge Athenians to reflect on their way of living How did the emperor Augustus present himself as the restorer of Rome's greatness To what extent did he provide an example to later political figures as a promoter of his regime This book guides AS and A Level students to a greater understanding of these issues The Greek Theatre chapter explores the festival context in which tragedies and comedies were performed and then analyses three plays Oedipus the King by Sophocles Bacchae by Euripides and Frogs by Aristophanes The Imperial Image chapter analyses the self presentation of Rome's most dynamic emperor who claimed to have found Rome a city of bricks but left it a city of marble The ideal preparation for the final examinations all content is presented by experts and experienced teachers in a clear and accessible narrative Ancient literary and visual sources are described and analysed with supporting images Helpful student features include study questions quotations from contemporary scholars further reading and boxes focusing in on key people events and terms Practice questions and exam guidance prepare students for assessment A Companion Website is available at www.bloomsbury.com/class/civ/as/a/level

A History of the Greek City States, 700-338 B. C. Raphael Sealey, 2023-09-01 This book introduces the reader to the serious study of Greek history concentrating more on problems than on narrative The topics selected have been prominent in modern research and references to important discussions of these have been provided Outlined are controversial issues of which differing views can be defended Mr Sealey's preference is for interpretations which see Greek history as the interaction of personalities rather than for those which see it as a struggle for economic classes or of abstract ideas Sealey assumes that the Greek cities of the archaic and classical periods did not inherit any political institutions from the Bronze Age that the extensive invasions that brought Mycenaean civilization to an end destroyed political habits as effectively as stone palaces Accordingly he believes that the Greeks of the historic period were engaged in the fundamental enterprise of building organized society out of nothing The first chapters of this work deal with the steps taken by the early tyrants in Sparta and Athens toward constructing stable organs of authority and of political expression In later chapters interest shifts to relations that developed between the states and especially to the development of lasting alliances Attention is given to the Peloponnesian League to the Persian Wars to the Delian League and to the Second Athenian Sea League of the fourth century This book introduces the reader to the serious study of Greek history concentrating more on problems than on narrative The topics selected have been prominent in modern research and references to important discussions of these have been provided Outlin

Burial and Ancient Society Ian Morris, 1987

This study of the changing relationships between burial rituals and social structure in Early Iron Age Greece will be required reading for all archaeologists working with burial evidence in whatever period This book differs from many topical studies of state formation in that unique and particular developments are given as much weight as those factors which are common to all early states The ancient literary evidence and the relevant historical and anthropological comparisons are extensively drawn on in an attempt to explain the transition to the city state a development which was to have decisive effects for the subsequent development of European society *The Making of the Ancient Greek Economy* Alain Bresson, 2019-01-08 A revolutionary account of the ancient Greek economy This comprehensive introduction to the ancient Greek economy revolutionizes our understanding of the subject and its possibilities Alain Bresson is one of the world's leading authorities in the field and he is helping to redefine it Here he combines a thorough knowledge of ancient sources with innovative new approaches grounded in recent economic historiography to provide a detailed picture of the Greek economy between the last century of the Archaic Age and the closing of the Hellenistic period Focusing on the city state which he sees as the most important economic institution in the Greek world Bresson addresses all of the city states rather than only Athens An expanded and updated English edition of an acclaimed work originally published in French the book offers a groundbreaking new theoretical framework for studying the economy of ancient Greece presents a masterful survey and analysis of the most important economic institutions resources and other factors and addresses some major historiographical debates Among the many topics covered are climate demography transportation agricultural production market institutions money and credit taxes exchange long distance trade and economic growth The result is an unparalleled demonstration that unlike just a generation ago it is possible today to study the ancient Greek economy as an economy and not merely as a secondary aspect of social or political history This is essential reading for students historians of antiquity and economic historians of all periods

The Sixteenth Century Hebrew Book Marvin J. Heller, 2022-12-05 *"The" Fourth, Fifth and Sixth Books* Hérodotos, 1895 **A Companion to Greek Architecture** Margaret M. Miles, 2020-05-05 A Companion to Greek Architecture provides an expansive overview of the topic including design engineering and construction as well as theory reception and lasting impact Covers both sacred and secular structures and complexes with particular attention to architectural decoration such as sculpture interior design floor mosaics and wall painting Makes use of new research from computer driven technologies the study of inscriptions and archaeological evidence and recently excavated buildings Brings together original scholarship from an esteemed group of archaeologists and art historians Presents the most up to date English language coverage of Greek architecture in several decades while also sketching out important areas and structures in need of further research **History of Ancient Art** Charles Eliot Norton, 1891 *Social Aspects of Greek Life in the Sixth Century B.C.* Lida Roberts Brandt, 1921 *Herodotus the Fourth, Fifth and Sixth Books with Introduction, Notes, Appendices, Indices, Maps* by Reginald Walter Macan Herodotus, 1895 *A Companion to Sport and Spectacle in Greek and*

Roman Antiquity Paul Christesen, Donald G. Kyle, 2014-01-07 A Companion to Sport and Spectacle in Greek and Roman Antiquity presents a series of essays that apply a socio historical perspective to myriad aspects of ancient sport and spectacle Covers the Bronze Age to the Byzantine Empire Includes contributions from a range of international scholars with various Classical antiquity specialties Goes beyond the usual concentrations on Olympia and Rome to examine sport in cities and territories throughout the Mediterranean basin Features a variety of illustrations maps end of chapter references internal cross referencing and a detailed index to increase accessibility and assist researchers

Eros and Greek Athletics

Thomas Francis Scanlon, 2002 Scanlon s overview of Greek athletics explores when and how athletics was linked with religion upbringing gender sexuality and social values in an evolution from Homer until the Roman period
