vankmajer Aardman and Laika Studios ParaNorman and the Boxtrolls Even live action blockbusters such as the Star Wars saga utilize puppetry for costume applications as noted within the text The use of puppets not only helps create a wonderful world and memorable characters but is also one of the purest extensions of an artist Key Features Includes interviews with past and present practitioners of model animation as well as computer animation Reviews of classic and recent entries in both fields Comparison of what is better in stop motion versus computer animation A detailed history of animation and stop motion films Pushkin's Rhyming J. Time of Troubles Iurii Vladimirovich Got'e, 2014-07-14 Among the few diaries available from inside early Soviet Russia none approaches Iurii V Got'e's in sustained length of coverage and depth of vivid detail Got'e was a member of the Moscow intellectual elite a complex and unusually observant man who was a professor at Moscow University and one of the most prominent historians of Russia at the time the revolution broke out Beginning his first entry with the words *Finis Russiae* he describes his life in revolution-torn Moscow from July 8 1917 through July 23 1922 nearly the entire period of the Russian Revolution and Civil War up to the advent of the New Economic Policy This remarkable chronicle published here for the first time describes the hardships undergone by Got'e's family and friends and the gradual takeover of the academic and professional sectors of Russia by the new regime Got'e was in his mid-forties when he wrote the diary At first he felt that Bolshevism meant complete doom for Russia but eventually his ardent patriotism led him to accept the Bolsheviks' role in preserving the integrity of the Russian state The diary was discovered in 1982 in the Hoover Institution Archives in the papers of Frank Golder to whom Got'e himself had entrusted it in 1922 It is translated literally and unabridged with annotations by Terence Emmons The introduction by Professor Emmons places the diary clearly in the context of Got'e's life and scholarly career Originally published in 1988 The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Designing Russian Cinema Eleanor Rees, 2022-12-15 This book highlights the significant role that production artists played when Russian cinema was still in its infancy It uncovers Russian cinema's connections with other art forms examining how production artists drew on both aesthetic traditions and modernist experiments in architecture painting and theatre as they explored the new medium of cinema and its potential to engender new models of perception and forms of audience engagement Drawing on set design sketches archival documents and film makers' memoirs Eleanor Rees reveals how less canonical films such as *Behind the Screen* Kulisy ekrana 1919 and *Palace and Fortress* Dvorets i krepost 1923 were

remarkable from a design perspective and also provides new readings of well known films such as *Children of the Age* (Deti veka) 1915 and *Strike* (Stachka) 1925. Rees brings to light information on significant but understudied figures such as Vladimir Egorov and Sergei Kozlovskii and highlights the involvement of well known figures such as Lev Kuleshov and Aleksandr Rodchenko. Unlike the majority of late Imperial directors and camera operators, many early Russian production artists continued to work in cinema in the Soviet era and to draw on practices forged before the 1917 Revolution. In spanning the entire silent era, this book highlights the often overlooked continuities between the late Imperial and early Soviet periods of cinema, thus questioning traditional historical periodisations.
