Jon Miller

Social Control Of Religious Zeal A Study:

The Social Control of Religious Zeal Jon Miller, 1994 How has the organization of the Christian missionary movement managed to persist for almost two centuries Jon Miller covers the activities of the Evangelical Missionary Society of Basel Switzerland from 1828 to 1918 as it struggled to bring its Pietist religious beliefs to the people of the Gold Coast of West Africa The mission gave different social classes an opportunity to interact in a way that would have been unlikely in Europe Many of the missionaries became socially mobile over the generations through their evangelical work In matters of governance Pietist beliefs called for concentrated power at the center That discipline channeled the zeal of the missionaries but it alienated ordinary members and suppressed their initiative while at the same time allowing creativity among eccentric nonconformists Miller interprets these contradictions explores their consequences at home and abroad and explains how the mission persisted despite the personal pain its members experienced The mission remains active and influential in Africa to this day This study of the passage of an organization through time will interest organizational sociologists sociologists of religion and students of social theory and social change *Research in the Social Scientific Study of Religion* Ralph L. Piedmont, David O. Moberg, 2003-10-01 Various articles are presented covering psychological sociological and cross cultural topics or relevance to religious spiritual researchers and academics *The Routledge Handbook of Research Methods in the Study of Religion* Steven Engler, Michael Stausberg, 2013-06-17 This is the first comprehensive survey in English of research methods in the field of religious studies It is designed to enable non specialists and students at upper undergraduate and graduate levels to understand the variety of research methods used in the field The aim is to create awareness of the relevant methods currently available and to stimulate an active interest in exploring unfamiliar methods encouraging their use in research and enabling students and scholars to evaluate academic work with reference to methodological issues A distinguished team of contributors cover a broad spectrum of topics from research ethics hermeneutics and interviewing to Internet research and video analysis Each chapter covers practical issues and challenges the theoretical basis of the respective method and the way it has been used in religious studies illustrated by case studies *The Reports of Theophilus Opoku* Michelle Gilbert, Paul Jenkins, 2024-03-21 Theophilus Opoku a 19th century pastor in the Gold Coast wrote 37 reports to the Basel Mission between 1868 and 1908 In this volume Gilbert and Jenkins introduce and annotate his detailed and vivid reports which provide rare insight into conversion rites everyday life and conflict in the kingdom of Akuapem **Slavery in the Global Diaspora of Africa** Paul E. Lovejoy, 2019-03-07 The collective significance of the themes that are explored in *Slavery in the Global Diaspora of Africa* bridge the Atlantic and thereby provide insights into historical debates that address the ways in which parts of Africa fitted into the modern world that emerged in the Atlantic basin The study explores the conceptual problems of studying slavery in Africa and the broader Atlantic world from a perspective that focuses on Africa and the historical context that accounts for this influence Paul Lovejoy focuses on the parameters of the enforced migration

of enslaved Africans including the impact on civilian populations in Africa constraints on migration and the importance of women and children in the movement of people who were enslaved The prevalence of slavery in Africa and the transformations of social and political formations of societies and political structures during the era of trans Atlantic migration inform the book s research The analysis places Africa specifically western Africa at the center of historical change not on the frontier or periphery of western Europe or the Americas and provides a global perspective that reconsiders historical reconstruction of the Atlantic world that challenges the distortions of Eurocentrism and national histories Slavery in the Global Diaspora of Africa will be of interest to scholars and students of colonial history African history Diaspora Studies the Black Atlantic and the history of slavery

Handbook of Research Design and Social Measurement Delbert C. Miller, Neil J. Salkind, 2002-01-16 If a student researcher had only one handbook on their bookshelf Miller and Salkind s Handbook would certainly have to be it With the updated material the addition of the section on ethical issues

which is so well done that I'm recommending it to the departmental representative to the university IRB and a new Part 4 on Qualitative Methods the new Handbook is an indispensable resource for researchers Dan Cover Department of Sociology Furman University I have observed that most instructors want to teach methodology their way to imbue the course with their own approach Miller Salkind allows one to do this easily The book is both conceptually strong e.g. very good coverage of epistemology research design and statistics and at the same time provides a wealth of practical knowledge scales indices professional organizations computer applications etc In addition it covers the waterfront of methodology Michael L Vasu Director of Information Technology North Carolina State University A unique and excellent reference tool for all social science researchers and a good textbook for graduate students and senior year undergraduate classes These students are about to enter the real life of research and need a handy and comprehensive tool as a starting point that offers shortcuts for getting into real research projects For a small project the book offers enough information to get the project started For big projects the book is ideal for information on where to look for things and examples Jianhong Liu Department of Sociology Rhode Island College The book considered a necessity by many social science researchers and their students has been revised and updated while retaining the features that made it so useful The emphasis in this new edition is on the tools graduate students and more advanced researchers need to conduct high quality research Features Benefits Provides step by step instruction for students research training by beginning with how to find a creative idea a middle range theory and initial hypothesis and proceeds through design proposal collection and analysis of data followed by writing reporting and publication Section on scales and indices are organized so that readers can quickly locate and find the type of scale or index in which they may be interested All sections are now followed by useful and well considered reference sections so that readers can read more about each topic Includes updated coverage on new scales internal and external validity and new analytic techniques with extensive references on each Presents extensive coverage of how to prepare manuscripts for publication including a list of all journals covered by Sociological Abstracts along with the editorial office address and URL for each entry Discusses the importance of policy research with presentation and discussion of specific models as an adjunct to both applied and basic research techniques Provides extensive coverage of funding opportunities including those offered by the National Institutes of Health the National Science Foundation and a directory of private funding sources including relevant contact information New to this edition New Part 4 by John Creswell and Ray Maletta provides a comprehensive introduction to qualitative methods including a review of existing computer applications for collecting and analyzing data New and more current reviews and commentaries have replaced dated or no longer relevant excerpts Thousands of new references on the assessment of important sociological variables as well as references to such topics as statistical analysis computer applications and specific topics Thoroughly updated information on the use of computers and online research techniques including beginning and intermediate material about the Internet and its use by the modern research scientist

Introduction to the Sociology of Missions Robert L. Montgomery, 1999-11-30 While much work has been done to apply anthropological insights to the study of missions the sociological perspective has been generally neglected by missiologists This volume defines the sociology of missions as a discrete subdiscipline within the sociology of religion and provides a working set of conceptual resources for those involved in mission work to use in furthering their understanding of their task The author reviews the major areas of sociology that are most relevant to missions and presents his findings as a basis for discussion and a stimulus to further exploration of relevant sociological concepts and theories One of his main goals is to increase dialogue between missiologists and sociologists of religion by providing the former with a sociological perspective and the latter with a deeper understanding of the missionary enterprise

From Mission to Modernity Paul Sedra, 2011-03-30 In this pioneering account of Egyptian educational history Paul Sedra describes how the Egyptian state under Muhammad Ali Pasha sought to forge a new relationship with children during the nineteenth century Through the introduction of modern forms of education brought to Egypt by evangelical missions the state aimed to ensure children's loyal service to the state whether through conscription or forced labour However these schemes of educational reform most prominently Joseph Lancaster's monitorial system led to unforeseen consequences as students in Egypt's new modern schools resisted efforts to control their behaviour in creative and complex ways and these acts of resistance themselves led to new forms of political identity Tracing the development of a distinctly Egyptian modernity From Mission to Modernity is indispensable for all those interested in Egyptian history and the history of modern education and reform

Pietism and Community in Europe and North America, 1650-1850, 2010-10-25 Pietist movements challenged traditional forms of religious community group formation and ecclesiology Where many older accounts have emphasized the individual and subjective nature of Pietists to the exclusion of community one of the hallmarks of Pietism has been the creation of groups and experimentation with new forms of religious association and sociality The essays presented here reflect the diverse ways in which Pietists struggled with the tension between the separation from the world and the formation of new communities from the seventeenth to the nineteenth century in Europe and North America Presenting a range of methodological perspectives the authors explore the processes of community formation the function of communicative networks and the diversity of Pietist communities within the context of early modern religious and cultural history Religious History and Culture Series Volume 4 Subseries Editors Joris van Eijnatten Fred van Lieburg

Gender and Conversion Narratives in the Nineteenth Century Kirsten Rüther, Angelika Schaser, 2016-03-03 Addressing an important social and political issue

which is still much debated today this volume explores the connections between religious conversions and gendered identity against the backdrop of a world undergoing significant social transformations Adopting a collaborative approach to their research the authors explore the connections and differences in conversion experiences tracing the local and regional rootedness of individual conversions as reflected in conversion narratives in three different locations Germany and German missions in South Africa and colonial Australia at a time of massive social changes in the 1860s Beginning with the representation of religious experiences in so called conversion narratives the authors explore the social embeddedness of religious conversions and inquire how people related to their social surroundings and in particular to gender order and gender practices before during and after their conversion With a concluding reflective essay on comparative methods of history writing and transnational perspectives on conversion this book offers a fresh perspective on historical debates about religious change gender and social relations

Preserving Order Amid Chaos John Rhodes Paige, 2000-11-01 To say that education in Africa is under stress is all too obvious News reports from that continent seem to describe only war and violence poverty and malnutrition corruption and mismanagement or natural disasters that destroy or threaten already frail infrastructures most news from Africa is bad news When an education system survives in a country like Uganda long subjected to the whims of despotic leadership it warrants an investigation This book tells the story of four senior secondary schools during a time of war and intractable social conflict examining a complex topic through multiple perspectives such as documentary history oral history ethnography and organization theory The author develops a broad picture of the Amin Obote years and the accompanying political and social chaos in Uganda while at the same time filling in the crucial details essential for developing an understanding of school survival in the Kaborole District The author's intensive field work gives this study a unique dimension by preserving a record of African voices students teachers parents alumni board members community leaders a rich tableau of the local conditions
