Sustainability Challenges and Solutions at the Base of the Pyramid Prabhu Kandachar, Minna Halme, 2017-09-08 Around the turn of the millennium it had become painfully evident that development aid charity or global business as usual were not going to be the mechanisms to alleviate global poverty Today there is little dispute that poverty remains the most pressing global problem calling for innovative solutions One recent strategy is the Base of the Pyramid BoP concept developed by Prahalad and Hart which relies on entrepreneurial activity tapping into the previously ignored markets of the economically most disadvantaged It is a process requiring innovations in several disciplines technological social and business This book covers a number of areas First much of the current BoP discussion emphasises targeting products to the needs of the poor But do we actually know what the real needs of the poor are This book takes a bottom up human centred approach and examines examples that truly engage the poor in BoP product and service development What types of needs assessment methodologies are indicated considering the cultural differences in BoP countries Are the existing methodologies adequate Do they need to be redefined and redeveloped Second the book considers how we can balance poverty alleviation and stimulate economic growth without stressing the ecosystem Tragically the poor are hardest hit by the adverse effects of environmental deterioration such as water shortages climate change or the destruction of habitats While the economic welfare of the poor is critical the BoP approach must balance its inherent paradox of encouraging greater consumption while avoiding further pressures on environmental sustainability The link between the BoP approach and sustainable development is a key feature of this book Third it looks at innovation and asks what kinds of bottom up innovation open source technological social and business

support BoP initiatives and sustainable development Fourth the book deals with the relationship between development assistance and BoP Is a BoP strategy the antithesis to development aid or can these two co exist or even complement each other Finally the book raises questions about the relationship between corporate responsibility and BoP Is BoP a new form of corporate neo colonialism or a new form of corporate responsibility Although the BoP concept has unleashed an extensive and generally enthusiastic response from academics businesses NGOs and governments the knowledge domain around this concept is still in the early stages of development This book addresses that need with a focus on the needs of the end users the poor as a starting point for BoP products and innovations With contributions from both supporters and critics it provides a treasure trove of global knowledge on how the concept has developed what its successes and failures have been and what promise it holds as a long term strategy for alleviating poverty and tackling global sustainability Healthy Work Namir Khan,Nina Nakajima,Willem H. Vanderburg,2004 The latest in a series focused on improving health conditions this volume addresses work environments bringing together diverse sources of literature that support preventive approaches to work design and organization This reference provides an overview of relevant literature to engineers managers accountants occupational health and safety specialists and industrial hygienists so that they and other professionals can understand what has caused our workplaces to become primary sources of physical and mental illness By focusing on diagnostic and prescriptive approaches managers can implement designs and decisions that prevent or greatly reduce undesired and harmful effects Other titles in the series include Healthy Cities Sustainable Production Sustainable Energy Family Disintegration Anton Purcell,2002 The contemporary family is being distracted disturbed and distraught by societal pressures from every direction The nuclear family concept believed crucial to child rearing is becoming pass according to census data Or has the wave of disruption to families crested It is hoped that this bibliography will serve as a useful tool to researchers seeking further information on families and the pressures being exerted upon them in the 21st century Arms Diffusion Thomas W. Zarzecki,2018-12-20 Weapons proliferation is one of the most pressing global concerns following the end of the Cold War Despite the absence of an overarching superpower conflict armaments and related technologies have continued to spread throughout the international system This has been particularly true in areas like East Asia and the Middle East where the traditional two party arms races are not readily apparent This text addresses these concerns and shortcomings using data on fourteen specific military technological innovations that diffused throughout the international system from 1960 to 1997 **Book Review Index Cumulation** Dana Ferguson,2005-09 Book Review Index provides quick access to reviews of books periodicals books on tape and electronic media representing a wide range of popular academic and professional interests The up to date coverage wide scope and inclusion of citations for both newly published and older materials make Book Review Index an exceptionally useful reference tool More than 600 publications are indexed including journals and national general interest publications and newspapers Book Review Index is available in a three issue

Parliament. House of Commons. Business and Enterprise Committee, 2009 Regional Development Agencies and the Local Democracy Economic Development and Construction Bill Fourth Report of Session 2008 2009 **Social Partnership and Governance Under Crises** Nelson, Carol, 2019-05-15 Social dialogue is critical for defining relations within and between different constituencies and bringing divergent interests towards a consensus To bring understanding to the management of these dynamics of convergence and divergence analyzing network relations that underlie social processes and structures of governance is necessary for growth Social Partnership and Governance Under Crises is a collection of innovative research that focuses on the development of network relations while furthering the studies on governance of the public sector under crisis conditions While stressing topics that include labor studies political economy and public administration this book is ideal for public policy practitioners public administrators government officials development agencies academicians researchers and students **The 21st-Century Community College: A Strategic Guild To Maximizing Labor Market Responsiveness, Vol. 2, September 2004** ,2004 *Proceedings of the 2023 2nd International Conference on Public Service, Economic Management and Sustainable Development (PESD 2023)* Zhikai Wang, Qiujing Wu, Songsong Liu, Guoliang Wang, Jia Li, 2024-01-09 This is an open access book 2023 2nd International Conference on Public Service Economic Management and Sustainable Development PESD 2023 will be held from Oct 27 to 29 in Xiamen China It dedicates to create a platform for academic communications between specialists and scholars in the fields of Public Service Economic Management and Sustainable Development PESD 2023 is the Public Service Economic Management and Sustainable Development conference aimed at presenting current research being carried out Economic development provides the basic material basis for public services and public services create a good social foundation for economic development At the same time social and economic aspects need to jointly promote sustainable development The idea of the conference is for the scientists scholars engineers and students from Universities all around the world and the industry to present ongoing research activities and hence to foster research relations between the Universities and the industry This conference provides opportunities for the delegates to exchange new ideas and application experiences face to face establish business or research relations and find global partners for future collaboration Trade Unions and Democracy Geoffrey Wood, 2017-09-29 Trade Unions and Democracy explores the role of trade unions as products of and agents for democracy As civil society agents unions may promote democracy within the wider society especially in the case of authoritarian regimes or other rigid political systems by acting as watchdogs and protecting hard won democratic gains Established democratic institutions in many advanced societies are facing new challenges The problem with using trade unions for this purpose is that they remain locked in a cycle of political marginalization and decline Beyond this there are

ironically serious questions about whether unions themselves internally function as democracies Certainly there are tensions between rank and file membership and an authoritarian leadership with this infighting having possible effects on strategic deals or alliances and member accountability and actions On the other hand trade unions continue to represent a significant component of society within most industrialized countries and in many case they have a demonstrated capacity for working with other elements of civil society Looking forward trade unions may be able to play a vital role in channeling and focusing spontaneous popular upsurges In the process they may revitalize themselves through use of greater internal democracy and become geared toward more diverse constituencies The question is will they fulfill this promise or continue to suffer from internal breakups and external breakdowns Can trade unions save themselves and democracy or will both deteriorate in time Trade Unions and Democracy brings together a distinguished panel of leading and emerging scholars in the field and provides a critical assessment of the current role of trade unions in society It explores their capacity to affect political policies to ensure greater accountability and fairness It also explores the nature of and extent to which internal representative democracy actually operates within trade unions themselves Mark Harcourt is a professor in the Department of Strategic Management and Leadership at Waikato University in New Zealand [The Bibliographic Index](#) ,2005
