

sion, orthodoxy and other inhibiting factors, it appears that more Indian women are holding high-decision making and executive positions in politics, the civil service, academic fields, etc., as compared to their counterparts in the western world, despite the impression given by the western countries that their women enjoy more liberty with less traditional barriers and moreover, western countries offer enormous educational and employment opportunities. If this observation is to some extent true, and is shared by others, it is perhaps interesting and worth while taking up such a study to compare the number of women occupying decision-making positions in the western, developed countries as against in India. This should not be confused with the fact that the percentage of women working in secondary and tertiary sectors in the West is more than that of their counterparts in India.

The author has described extensively the patriarchal structures of the social system in India. The book has contained an extensive bibliography, extracts/notes from various sources which would be very useful to research-

ers working in the field of women and role conflicts. The discussion and description of historical, cultural and social determinants is very lengthy and so takes a great proportion of the book. It is not very clear whether such a discussion has really contributed to the case studies which the author has undertaken at the end. At the same time, such descriptions make the book an interesting reading. Coming to the author's description of the role conflicts of studying and working Indian women based on the case studies, one tends to think that such role conflicts are also faced by studying and working women in all countries in one way or the other. The role conflicts are not something affecting the Indian women only. It might take different forms and proportions for women belonging to different countries/societies.

SOCIAL SERVICES IN INTERNATIONAL PERSPECTIVE: THE EMERGENCE OF THE SIXTH SYSTEM, by Alfred J. Kahn and Sheila B. Kamerman. (New Brunswick, N.J.: Transaction Books, 1980). (HV/41/K14/1980) (pap.)

This book is the latest in a series of books by Alfred J. Kahn and Sheila B. Kamerman in their long-range effort at examining social services from national and international perspectives. *Social Services in the United States: Policies and Programs* (Philadelphia, PA: Temple University Press, 1976) and *Not For The Poor Alone: European Social Services* (Philadelphia, PA: Temple University Press, 1975) are two volumes in this series (the latter was later published by Harper & Row).

This volume was originally printed as *Social Services in International Perspective* (Washington, D.C.: Government Printing Office, 1977).

and represented a study sponsored by the Social and Rehabilitation Services of the Department of Health and Human Services marking a "new dimension in international cooperation" (stated Robert Fulton, SRS Administrator, at the beginning of this book). The study examined the experiences of eight selected countries, Canada, the United Kingdom, France, the Federal Republic of Germany, Poland, Yugoslavia, Israel, and the United States, in the social services area. Kahn and Kamerman are realistic in their appraisal of the value of studying what other countries are doing in the social services. They state in the "Preface" that they "do not believe that comparative reports sell

Comparing the Policy of Aboriginal Assimilation Andrew Armitage, 2011-11-01 The aboriginal people of Australia Canada and New Zealand became minorities in their own countries in the nineteenth century The expanding British Empire had its own vision for the future of these peoples which was expressed in 1837 by the Select Committee on Aborigines of the House of Commons It was a vision of the steps necessary for them to become civilized Christian and citizens in a word assimilated This book provides the first systematic and comparative treatment of the social policy of assimilation that was followed in these three countries The recommendations of the 1837 committee were broadly followed by each of the three countries but there were major differences in the means that were used Australia began with a denial of the aboriginal presence Canada began establishing a register of all status Indians and New Zealand began by giving all Maori British citizenship The policy of assimilation is traced through five principal phases a period of initial contact when the power relationships necessary to carry out the policy were established a period in which the policy was passive and in which the aboriginal people were expected to die out or merge with the immigrant populations a period of aggressive policy in which specific social policies were introduced to suppress aboriginal institutions a period of integration in which it was thought that the policy could be achieved through disregarding the aboriginal existence and the present period in which the policy is being reversed as aboriginal people re establish control of their own social policy As well as providing comprehensive and comparative data on the conduct of the policy of assimilation the book provides a series of accounts of the reasons given for the policy in each period These lead to an analysis of the origins of the policy within the immigrant societies of the British Commonwealth and of the reasons for its persistence In the end the policy of assimilation is shown to be primarily an expression of the racist and colonial nature of the immigrant societies Today the aboriginal

societies are reasserting themselves and there are some grounds for hope that a plural form of social policy can be brought into effect which accommodates the need to respect differences between the aboriginal and immigrant societies

Privatization in Four European Countries Ralph M. Kramer, 2019-07-04 This book has a dual focus on how four countries use voluntary non profit organizations to provide services to the physically mentally and sensorially handicapped and on the changing role of the voluntary or third sector in welfare states At the same time it is also a comparative study of privatization in the special sense of using nongovernmental organizations to implement public policy Most comparative studies of the welfare state have neglected this form of indirect public administration because researchers have usually conceived of government as monolithic and consequently overlook the frequent separation of financing from the delivery of public services
