The Past as Text Gabrielle M. Spiegel, 1999-11-08 This study of familiar medieval histories and chronicles argues that the historian should be aware of the discursive nature literary modes and ideological investments of such texts as well as the social circumstances to which they were applied and by which they were generated Postmodernism has challenged historians to look at historical texts in a new way and to be skeptical of the claim that one can confidently retrieve fact from historical writings In *The Past as Text* historian Gabrielle M Spiegel sets out to read medieval histories and chronicles in light of the critical theoretical problems raised by postmodernism At the same time she urges a method of analysis that enables the reader to recognize these texts simultaneously as artifice and as works deeply embedded in a historically determinate knowable social world Beginning with a theoretical basis for the study of medieval historiography Spiegel demonstrates her theory in practice offering readings of medieval histories and chronicles as literary social and political constructions The study insightfully concludes that historians should be equally aware of the discursive nature literary modes and ideological investments of such texts and the social circumstances to which they were applied and by which they were generated Arguing for the social logic of the text Spiegel provides historians with a way to retrieve the social significance and conceptual claims produced by these medieval or any historical writings

Keyness in Texts Marina Bondi, Mike Scott, 2010-01-01 This is corpus linguistics with a text linguistic focus The volume concerns lexical inequality the fact that some words and phrases share the quality of being key and thereby reflect or promote important themes in some textual contexts while others do not The patterning of words which differ in their centrality to text meaning is of increasing interest to corpus linguistics At the same time software resources are yielding increasingly more detailed ways of identifying and studying the linkages between key words and phrases in text databases This volume brings together work from some of the leading researchers in this field It presents thirteen studies organized in three sections the first containing a series of studies exploring the nature of keyness itself then a set of five studies looking at keyness in specific discourse contexts and then three studies with an educational focus Edited by two central figures in the development of keyword analysis and with contributions from leading specialists in the field this unique collection brings together a wide range of insights into how keyword analysis can contribute both to linguistic and cultural analysis and to language education It deserves a place on the bookshelves of anyone with an interest in these areas Christopher Tribble King's College London This is a fascinating volume addressing both methodological and theoretical questions in the study of keywords It pushes forward the exploration of the nature of keyness and the interpretation of keywords in their textual contexts An inspiring contribution to a central area of corpus linguistics Michaela Mahlberg University of Nottingham

The Branding of Right-Wing Activism Khadijah Costley White, 2018-08-02 From the start of Barack Obama's presidency in 2009 conservative populist groups began fomenting political fractiousness dissent and surprising electoral success The Tea Party was one of the major characters driving this story But as Khadijah Costley White argues in this book the Tea Party's ascent to major political phenomenon can be attributed to the way in which partisan and non partisan news outlets branded the Party as a pot stirrer in political conflicts over race class and gender In other words the news media played a major role in developing cultivating and promoting populism's brand particularly within the news spaces of commentary and opinion Through the language of political marketing branding and promotion the news media not only reported on the Tea Party but also acted as its political strategist and brand consultant Moreover the conservative press acted more as a political party than a news medium deliberately promoting the Tea Party and aiding in organizing headlining and galvanizing a conservative political base around specific Tea Party candidates values and events In a media environment in which everyone has the opportunity to tune out tune in and speak back *The Branding of Right Wing Activism* ultimately shows that distinctions between citizens journalists activists politicians celebrities and consumers are more symbolic than concrete

applications that can be developed and utilized for this purpose Because in most cases there is no one solution to stop the spreading of pandemic diseases and the integration of several tools and tactics are needed Many successful applications of AI ML IoT and drone technologies already exist including systems that analyze past data to predict and conclude some useful information for controlling the spread of COVID 19 infections using minimum resources The AI and ML approach can be helpful to design different models to give a predictive solution for mitigating infection and preventing larger outbreaks This book Examines the use of artificial intelligence AI machine learning ML Internet of Things IoT and drone technologies as a helpful predictive solution for controlling infection of COVID 19 Covers recent research related to the COVID 19 pandemic and includes the analysis implementation usage and proposed ideas and models with architecture to handle a pandemic outbreak Examines the performance implementation architecture and techniques of different analytical and statistical models related to COVID 19 Includes different case studies on COVID 19 Dr Chhabi Rani Panigrahi is Assistant Professor in the Department of Computer Science at Rama Devi Women s University Bhubaneswar India Dr Bibudhendu Pati is Associate Professor and Head of the Department of Computer Science at Rama Devi Women s University Bhubaneswar India Dr Mamata Rath is Assistant Professor in the School of Management Information Technology at Birla Global University Bhubaneswar India Prof Rajkumar Buyya is a Redmond Barry Distinguished Professor and Director of the Cloud Computing and Distributed Systems CLOUDS Laboratory at the University of Melbourne Australia

Sins against Science Lynda Walsh, 2016-09-14 Recounts the fake news stories written from 1830 to 1880 about scientific and technological discoveries and the effect these hoaxes had on readers and their trust in science Lynda Walsh explores a provocative era in American history the proliferation of fake news stories about scientific and technological discoveries from 1830 to 1880 These hoaxes which fooled thousands of readers offer a first hand look at an intriguing guerilla tactic in the historical struggle between arts and sciences in America Focusing on the hoaxes of Richard Adams Locke Edgar Allan Poe Mark Twain and Dan De Quille the author combines rhetorical hermeneutics linguistic pragmatics and reader response theory to answer three primary questions How did the hoaxes work What were the hoaxers trying to accomplish And what is a hoax Its careful examination of contemporary reader reactions to the hoaxes provides concrete evidence for what people actually believed thus attesting very specifically to the nineteenth century assumptions about the real world that were being called into question by the hoaxes impressively wide range of historical and theoretical resources are brought to bear on these acts of reading All of this is woven into a rich and nuanced account of what we stand to gain in terms of understanding the past by taking seriously a handful of little known jests The Edgar Allen Poe Review I found the book to be quite informative not only as a technical exploration concerned with how readers interact with texts that promulgate hoaxes but also as a work providing helpful glimpses of the emerging roles of science and media in this period Thomas M Lessl The University of Georgia As Walsh points out there is no extended analysis of hoaxes in the rhetoric of science and her book shows how important hoaxes are in

understanding the history of professionalized science as it emerged in the United States The relationship of science and the the public is of utmost importance in science studies and the author has identified a key source of historical information about this relationship Ellen Barton coeditor of Discourse Studies in Composition
