**The Enlightened Social Worker** Donald Forrester, 2024-03-27 While social work theory tends to emphasise helping individuals and challenging social injustice the reality of practice is characterised by challenge and conflict This text offers a

new concept of social work that explains the nature of these conflicts and moves beyond them with an inspiring and practical vision of what social work is and should be. Placing rights at the heart of practice, this introduction to social work will be useful to practitioners and students with a substantive contribution to the theoretical literature that emphasises the role of social work when rights may be in conflict, enabling students and workers to become more confident in dealing with the uncomfortable realities of practice.

**Strengthening the Retention of Child Protection Workers** Kenneth

Burns, 2012-12 This book examines a key issue in the field of human and social services: how to retain workers in child protection and welfare organisations. Research over the last decade has highlighted the turnover of these workers as being a pressing and perennial issue that impacts upon service users, staff, welfare resources and the reputation of this sector. This book presents the findings of a study examining social workers' retention in child protection and welfare. The findings from this study highlight how workers' retention is influenced by exchanges, relationships with colleagues and managers, and this book presents a unique career preference typology which expands our understanding of how workers make decisions to stay or leave based upon their pre-conceptions of career pathways post qualification. The book also examines findings associated with the employment mobility of these workers within child protection and tracks their next post after leaving, which provides some surprising findings regarding how we understand and measure turnover for these workers. The book also examines rich qualitative data from these workers' experiences of being a social worker in child protection, associated with job satisfaction, commitment to child protection and welfare work, making a difference, quality of supervision, autonomy and exchange relationships with peers, all of which emerged as important factors in social workers' decisions to stay or leave. The implications of this study's findings for theory are also explored. Kenneth Burns is deputy course director of the Master of Social Work and a research associate with the Institute for Social Science in the 21st Century at University College Cork, Ireland.

Global Social Work in a Political Context Iain Ferguson, Vasilios Ioakimidis, Michael Lavalette, 2018-01-10 How is social work shaped by global issues and international problems, and how should it address them? This book employs a radical perspective to examine international social work. Globalisation has opened up many issues for social work, including how to address global inequalities, the impact of global economic problems and trends towards neoliberalism. By examining the origins of modern social work,

globally The chapters in this book were originally published as a special issue of the European Journal of Social Work

**Radical Social Work in Practice** Iain Ferguson, Rona Woodward, 2009-05-14 APPROVED BY AUTHOR Radical social work is a tradition often identified exclusively with the movement which developed in the UK in the 1970s However this much needed new textbook the first student text devoted to radical social work demonstrates that the relevance of radical approaches to contemporary social work practice have never been stronger Challenges to a neoliberal approach to social work have been gaining ground academically and with practitioners This book provides a true vision of the radical tradition and shows how it can be developed in contemporary social work Using case studies and a problem based learning approach to illustrate the type of dilemmas faced by workers in their day to day practice the book sets out the ways in which a radical social work approach can inform constructive responses It emphasises the need to understand the diverse lives of service users encouraging readers to share experience and knowledge and to discuss past and present events to build confidence in tackling injustice at individual and societal levels As many social workers are becoming disillusioned and dissatisfied with the bureaucracy and regulation in the profession this book promotes a practice that is rooted in a commitment to positive change and to social justice that will offer a breath of fresh air to students and practitioners alike
