Expert Faculty      **A Critical Dictionary of Sociology** Raymond Boudon,Francois Bourricaud,2002-09-10 Unlike most other  
sociology or social science dictionaries in this translation of the Critical Dictionary of Sociology taken from the second French  
edition of the Dictionary and edited by the English sociologist Peter Hamilton the critical value of this distinctive work is at  
last made available for a wider audience Each entry grapples directly with an issue whether theoretical epistemological  
philosophical political or empirical and provides a strong statement of what the authors think about it The discussions are  
considered but argumentative By reaffirming that a non marxist style of critique is still possible Boudon and Bourricaud have  
presented a distinctive approach to the key issues which confront the societies of the Twentieth and Twenty First centuries  
For some this work will be a textbook for others an indispensable sourcebook of sociological concepts and for most a way of  
opening our eyes to new dimensions in our understanding of the great ideas and theories of sociology      **Social**  
**Stratification** David B. Grusky,2018-05-04 The book covers the research on economic inequality including the social  
construction of racial categories the uneven and stalled gender revolution and the role of new educational forms and

and scholarly contribution to Political Science reference collections and reading lists The Bookwatch All of the essays  
included in the present volume were written between 1995 and 2001 This attests to the timeliness and relevance of Dennis H  
Wrong s writings He notes that the mid twentieth century disposition to believe that politics fundamentally consisted of  
clashes between totalistic worldviews such as communism socialism capitalism fascism nationalism internationalism and a

cluster of isms may have been historically transitional But politics now appears more nuanced if no less troubled following the collapse of the Soviet bloc between 1989 and 1991 Multiculturalism and identity politics as well as communitarianism flourished in the 1990s The volume is divided into five parts Capitalism Inequalities and Alternatives Multiculturalism and Identity Politics Communitarianism Theory and Theorists and Autobiographical Reminiscences This concluding part indicates how Wrong's work includes self reflections as well as reflections an examination of how figures such as C Wright Mills and Raymond Aron Amitai Etzioni and Digby Baltzell played a role in shaping his own thought and how these changed over the course of the past century This is the third collection of the essays and articles of Dennis H Wrong published by Transaction As was the case with his earlier volumes Reflections on a Politically Skeptical Era is characterized by a deep attention to the actual social history of our times and how this plays out in academic pursuits especially within sociology Whether the works were published in academic journals or more popular media they reflect a quality of literary manners that is rare among social science writings but a reflection that never sacrifices a sense of principle and probity in the process Dennis H Wrong is the author of several books including two essay collections containing articles first published in cultural intellectual political and scholarly journals in the United States Canada and Britain several of which he has served as an editor or editor in chief He has taught sociology at Princeton Rutgers Brown the University of Toronto the New School for Social Research Graduate Faculty and for most of his career at New York University He is currently retired and lives in Princeton

**Social Stratification and Mobility in the USSR** Murray Yanowitch, Wesley A Fisher, 2019-01-15 This title was first published in 1973 The selections from Soviet sociological literature presented in this volume are significant from at least three standpoints First they reveal the extent to which the issue of social and economic inequality has become a subject for legitimate public discussion in the Soviet Union Second these selections offer the reader a means of appraising the quality of work in what under Soviet conditions is the formative period of a new intellectual discipline Third the selections provide abundant empirical evidence bearing on the forms and degrees of inequality currently found in Soviet society

*Inside the College Gates* Jenny M. Stuber,2011-07-16 To date scholars in higher education have examined the ways in which students experiences in the classroom and the human capital they attain impact social class inequalities In this book Jenny Stuber argues that the experiential core of college life the social and extra curricular worlds of higher education operates as a setting in which social class inequalities manifest and get reproduced As college students form friendships and get involved in activities like Greek life study abroad and student government they acquire the social and cultural resources that give them access to valuable social and occupational opportunities beyond the college gates Yet students social class backgrounds also impact how they experience the experiential core of college life structuring their abilities to navigate their campus s social and extra

curricular worlds Stuber shows that upper middle class students typically arrive on campus with sophisticated maps and navigational devices to guide their journeys while working class students are typically less well equipped for the journey She demonstrates as well that students social interactions friendships and extra curricular involvements also shape and are shaped by their social class worldviews the ideas they have about their own and others class identities and their beliefs about where they and others fit within the class system By focusing on student social class worldviews this book provides insight into how identities and consciousness are shaped within educational settings Ultimately this examination of what happens inside the college gates shows how which higher education serves as an avenue for social reproduction while also providing opportunities for the contestation of class inequalities
