Heather, 1999 Between 376 and 476 the Roman Empire in western Europe was dismantled by aggressive outsiders barbarians as the Romans labelled them Chief among these were the Visigoths a new force of previously separate Gothic and other groups from south west France initially settled by the Romans but subsequently from the middle of the fifth century achieving total independence from the failing Roman Empire and extending their power from the Loire to the Straits of Gibraltar These studies draw on literary and archaeological evidence to address important questions thrown up by the history of the Visigoths and of the kingdom they generated the historical processes which led to their initial creation the emergence of the Visigothic kingdom in the fifth century and the government society culture and economy of the mature kingdom of the sixth and seventh centuries A valuable feature of the collection reflecting the switch of the centre of the Visigothic kingdom from France to Spain from the beginning of the sixth century is the inclusion in English of current Spanish scholarship Dr PETER HEATHER teaches in the Department of History at University College London Contributors Dennis H Green Peter Heather Ana Jimenez Garnica Giorgio Ausenda Ian Nicholas Wood Isabel Velazquez Felix Retamero Pablo C Diaz Mayke de Jong Gisela Ripoll Lopez Andreas Schwarcz **Communal Rituals of the Nyakyusa** Monica Wilson, 2018-09-03 Originally published in 1959 this book includes detailed accounts of Nyakyusa traditions of origin cosmology and moral values often in direct quotations from informants while part of the book is devoted to a description of Christian missions the growth of African churches and the conflict between pagan and Christian ethics and practices The analysis of the effects of changes in the social and economic structure on the one hand and religious beliefs and practices on the other makes this a study of enduring relevance *Time*

and Social Structure and Other Essays Meyere Fortes, 2021-01-14 The papers reprinted in this volume have been selected with two considerations in mind they record ethnographical observations from my field work among the Tallensi and in Ashanti that are not easily accessible elsewhere but continue to be useful for comparative studies and as background to current research in Ghana and they represent applications of methods of analysis and schemes of interpretation that were emerging in British structural anthropology at the time of their publication The Monographs on Social Anthropology were established in 1940 and aim to publish results of modern anthropological research of primary interest to specialists **The Eastern Anthropologist**, 1998 *Social Order and Political Change* Duane Champagne, 1992-07-01 Under what conditions can democratic governments be formed and become stable The author addresses this question in a unique way that brings sociological and political theory to bear on the study of traditional societies long the preserve of historians and anthropologists By examining in detail the history of four American Indian societies the Cherokee the Choctaw the Chickasaw and the Creek the author documents a general theory of politics and constitutional government The four societies present an opportunity to study the process of democratic institution building in a controlled comparative historical context The societies were subject to similar geopolitical relations with the United States they were incorporated into the same sequence of world economic system relations initially fur trade and then the cotton market they experienced the emergence of class structures and they all produced some form of constitutional democracy The Cherokee however adopted a stable constitutional government earlier and with less coercion than the other three nations Why was this so With the aid of comparative analysis the author finds the answer in the Cherokee differentiation of politics from the nationally and religiously ordered clan system This set of institutional relations allowed the Cherokee to maintain a strong sense of social solidarity while tolerating conflict increased political differentiation and formation of a political nationality The other three societies were either less differentiated or less socially unified They formed their constitutional governments thirty to forty years later than the Cherokee and with more internal political coercion and in the Creek case with less political stability The formation and stabilization of democratic state governments is a major issue in such contemporary phenomena as political change in Third World nations and the transformation of the governments of Eastern Europe The four case studies presented in this book form the basis of a new and powerful theoretical argument for understanding historical patterns of democratic change political stability and the relations of political power **Research Grants Index** National Institutes of Health (U.S.). Division of Research Grants, 1964 *Jewish Hearts* Betty N. Hoffman, 2012-02-01 This ethnographic study compares and contrasts the changing ethnic identity of those Russian Jews who settled in Hartford Connecticut between 1881 and 1930 with that of the Soviet Jews who remained in Russia after the Revolution became Soviet citizens and emigrated after 1975 Although both groups were labeled Jews their internal definitions of what constituted being Jewish and their personal experiences were radically different Using both archival and contemporary oral histories Betty N Hoffman traces the stories

of real people whose lives and choices were affected by both their ethnic identity and the larger movements around them as they made new homes in the United States

Fieldwork Robert Lawless,Vinson H. Sutlive,Mario D. Zamora,2021-10-14 Featuring a mix of American and Third World anthropologies FIELDWORK concentrates on the experiences of investigators studying the inner workings of society by entering into the life of its members There is an obvious paradox here anthropologists are both observers and participants Despite attempts to remain objective the fieldworker comes to think and act as a member of the target culture Without this personal involvement ethnographic study becomes sterile but because of it detached scientific objectivity is impossible However disciplined subjectivity is attainable through clarification of the human variations in fieldwork This book explores the fascinating variations ranging from a chapter by the dean of the American anthropology Charles Wagley in which he relates his experiences in the 1930s among the Indians in the highlands of Guatemala to one on recent fieldwork in an Arizona school district Each chapter offers a unique perspective on the important issues of fieldworker identity and its development in traditional and modern fieldwork Perspectives on Human Sexuality Anne Bolin,Patricia
