Social Theory, Social Policy And Ageing: A Critical Introduction Biggs, Simon, Estes, Carroll, Phillipson, Chris, 2003-11-01 This work covers theoretical developments and issues influencing the study of adult ageing It explores contemporary trends in social policy drawing on the experience of ageing in the USA Europe and an increasingly global environment Feminist perspectives on ageing are also covered

Social Theory and Aging Jason L. Powell, 2006 This book explores both conceptual and theoretical issues that impinge on understanding aging in post modern society It analyses how knowledge formation of aging with particular reference to old age in contemporary western society is socially constituted and positioned by powerful taken for granted assumptions These assumptions have provided a power knowledge base for bio medical disciplines legitimacy of political economic discourses and practices of professional experts The book is in two parts the first part introduces modernist scientific models and theories of gerontology and questions their importance in mapping out the assumptions of aging and how they impinge on identity performance in society through disciplinary matrix of biology psychology and social conceptualizations of gerontology the second part focus upon postmodern constructions aging through the articulation and development of novel epistemologies postmodernism and aging body discourse and power knowledge and aging in the risk society The book addresses a key question can meta theories provide an effective analysis of aging which is radically different from modernist grand narratives as epitomized by not only bio medical models of aging but also of mainstream social theories of gerontology

Social Policy and Aging Carroll L. Estes, 2001-03-30 This groundbreaking book provides a comprehensive treatment of the political economy of aging From the founder and key thinker in the field comes a work that aims to contribute to the understanding of old age and aging in the context of problems and issues of the larger social order in America Since Carroll Estes first writing on the political economy of aging in 1979 there has been growing recognition and incorporation of her critical perspective as one of the major paradigms in the field of aging The only comprehensive book length treatment of the subject Social Policy and Aging addresses the globalization of capital and developments in health care restructuring Combining social gerontological theory and major theoretical advances in work on the welfare state this text keeps readers abreast of the new development within the discipline Students and researchers alike will appreciate this critical perspective widely acknowledged as one of the major paradigms in the field of aging

Handbook of Theories of Aging Merril Silverstein, Vern L. Bengtson, Vern L. Bengtson, PhD, Norella Putney, Daphna Gans, 2008-10-27 The field of gerontology has often been criticized for being data rich but theory poor The editors of this book address this issue by stressing the importance of theory in gerontology While the previous edition focused on multidisciplinary approaches to aging theory this new edition provides cross disciplinary integrative explanations of aging theory The contributors of this text have reached beyond traditional disciplinary boundaries to partner with researchers in adjacent fields in studying aging and age related phenomena This edition of the Handbook consists of 39 chapters written by

67 internationally recognized experts in the field of aging It is organized in seven sections reflecting the major theoretical developments in gerontology over the past 10 years Special Features Comprehensive coverage of aging theory focusing on the biological psychological and social aspects of aging A section dedicated to discussing how aging theory informs public policy A concluding chapter summarizing the major themes of aging and offering predictions about the future of theory development Required reading for graduate students and post doctoral fellows this textbook represents the current status of theoretical development in the study of aging *Aging A-Z* Carroll L. Estes, with Nicholas B. DiCarlo, 2019-04-10 This provocative intellectually charged treatise serves as a concise introduction to emancipatory gerontology examining multiple dimensions of persistent and hotly debated topics around aging the life course the roles of power politics and partisanship culture economics and communications Critical perspectives are presented as definitions for reader understanding with links to concepts of identity knowledge construction social networks social movements and inequalities With today's intensifying concentration of wealth and corporatization precarity is the fate for growing numbers of the world's population Intersectionality as an analytic concept offers a new appreciation of how social advantage and disadvantage accumulate and how constructions of race ethnicity class ability and gender influence aging The book's entries offer a bibliographic compendium crediting the salience of early pioneering theorists and locating these within the cutting edge of research social behavioral policy and gene environment sciences that currently advances our understandings of human development trauma and resilience Accompanying these foundations are theories of resistance for advancing human rights and the dignity of marginalized populations *The Routledge Handbook of Social Work Theory* Malcolm Payne, Emma Reith-Hall, 2019-06-25 The Routledge Handbook of Social Work Theory provides an interdisciplinary and international introduction to social work theory It presents an analytical review of the wide array of theoretical ideas that influence social work on a global scale It sets the agenda for future trends within social work theory Separated into four parts this handbook examines important themes within the discourses on social work theory as well as offering a critical evaluation of how theoretical ideas influence social work as a profession and in practice It includes a diverse range of interdisciplinary topics covering the aims and nature of social work social work values and ethics social work practice theories and the use of theory in different fields of practice The contributors show how and why theory is so important to social work and analyze the impact these concepts have made on social intervention Bringing together an international team of leading academics within the social work field and newer contributors close to practice this handbook is essential reading for all those studying social work as well as practitioners policymakers and those involved in the associated fields of health and social care **New Perspectives on Health and Social Care** Jason Powell, 2023-02-22 The relationship between health social care and the teaching of disciplines such as sociology social work and social policy are increasing in many regions worldwide This book explores the relationship between wider social theory and social welfare though an understanding of how power and resistance impinges on how helping

professions operate in health and social spaces in the twenty first century The book presents a critical analysis of major Foucauldian theories and social issues in the construction and practice of health and social welfare It discusses important theoretical and substantive contributions to current debates and presents an engaging comprehensive and innovative perspective to address both how power and resistance shape the way we live and how the way we live shapes the way in which we understand social relations among professionals policy makers and user groups in comparative contexts The purpose of this book is to critically inform debates concerning the abstract and empirical features of health and social care examined through the lens of innovative theoretical perspectives emanating from Foucauldian theories *Handbook of Sociology of Aging* Richard A. Settersten, Jr., Jacqueline L. Angel, 2011-05-11 The Handbook of Sociology of Aging is the most comprehensive engaging and up to date treatment of developments within the field over the past 30 years The volume represents an indispensable source of the freshest and highest standard scholarship for scholars policy makers and aging professionals alike The Handbook of Sociology of Aging contains 45 far reaching chapters authored by nearly 80 of the most renowned experts on the most pressing topics related to aging today With its recurring attention to the social forces that shape human aging and the social consequences and policy implications of it the contents will be of interest to everyone who cares about what aging means for individuals families and societies The chapters of the Handbook of Sociology of Aging illustrate the field s extraordinary breadth and depth which has never before been represented in a single volume Its contributions address topics that range from foundational matters such as classic and contemporary theories and methods to topics of longstanding and emergent interest such as social diversity and inequalities social relationships social institutions economies and governments social vulnerabilities public health and care arrangements The volume closes with a set of personal essays by senior scholars who share their experiences and hopes for the field and an essay by the editors that provides a roadmap for the decade ahead The Handbook of Sociology of Aging showcases the very best that sociology has to offer the study of human aging
