Practical Social Work Ethics Lorraine Green, Malcolm Carey, 2017-03-02 This is the first text of its kind to deal exclusively with applied social work ethics. It focuses on an eclectic mix of difficult moral questions or issues encountered in much modern day practice. It is therefore not theoretically driven with some practical elements attached but is instead a practice based book where any theory introduced is linked to tangible practice situations. It is also thought provoking, controversial in parts and always engaging. The book is divided into three key sections each introduced by the editors: Past and Present Moral Practices with Children and Families; Ethical Tensions; Ambivalent Ethics; and Adult Social Work Contesting Modernisation. Each section covers a range of topics and poses difficult questions which link to ethical dilemmas or anxieties. These are attached to themes such as whether culturally sensitive social work is always a good thing; the implications of secrets and silence within intergenerational families; or the use of Controlled Treatment Orders or medical and social models within mental health social work. Other chapters ask whether the many forms of user/carer participation within social work education or practice are ethically viable; explore the moral paradoxes which emerge when vested financial interest sometimes appear to eclipse users' interests; examine the implications of avoiding or uncritically deploying touch in social work care; or consider the many moral
