The Oxford Handbook of Quantitative Methods, Vol. 2: Statistical Analysis Todd D. Little, 2013-02-01 Research today demands the application of sophisticated and powerful research tools Fulfilling this need The Oxford Handbook of Quantitative Methods is the complete tool box to deliver the most valid and generalizable answers to today's complex research questions It is a one stop source for learning and reviewing current best practices in quantitative methods as practiced in the social behavioral and educational sciences Comprising two volumes this handbook covers a wealth of topics related to quantitative research methods It begins with essential philosophical and ethical issues related to science and quantitative research It then addresses core measurement topics before delving into the design of studies Principal issues related to modern estimation and mathematical modeling are also detailed Topics in the handbook then segway into the realm of statistical inference and modeling with chapters dedicated to classical approaches as well as modern latent variable approaches Numerous chapters associated with longitudinal data and more specialized techniques round out this broad selection of topics Comprehensive authoritative and user friendly this two volume set will be an indispensable resource for serious researchers across the social behavioral and educational sciences

Applied Latent Class Analysis Jacques A. Hagenars, Allan L. McCutcheon, 2002-06-24 Applied Latent Class Analysis introduces several innovations in latent class analysis to a wider audience of researchers Many of the world's leading innovators in the field of latent class analysis contributed essays to this volume each presenting a key innovation to the basic latent class model and illustrating how it can prove useful in situations typically encountered in actual research

Higher Education: Handbook of Theory and Research John C. Smart, 2007-05-16 Published annually since 1985 the Handbook series provides a compendium of thorough and integrative literature reviews on a diverse array of topics of interest to the higher education scholarly and policy communities Each chapter provides a comprehensive review of research findings on a selected topic critiques the research literature in terms of its conceptual and methodological rigor and sets forth an agenda for future research intended to advance knowledge on the chosen topic The Handbook focuses on twelve general areas that encompass the salient dimensions of scholarly and policy inquiries undertaken in the international higher education community The series is fortunate to have attracted annual contributions from distinguished scholars throughout the world

Content Analysis Klaus Krippendorff, 2018-05-09 What matters in people's social lives What motivates and inspires our society How do we enact what we know Since the first edition published in 1980 Content Analysis has helped shape and define the field In the highly anticipated Fourth Edition award winning scholar and author Klaus Krippendorff introduces readers to the most current method of analyzing the textual fabric of contemporary society Students and scholars will learn to treat data not as physical events but as communications that are created and disseminated to be seen read interpreted enacted and reflected upon according to the meanings they have for their recipients Interpreting communications as texts in the contexts of their social uses distinguishes content

analysis from other empirical methods of inquiry Organized into three parts Content Analysis first examines the conceptual aspects of content analysis then discusses components such as unitizing and sampling and concludes by showing readers how to trace the analytical paths and apply evaluative techniques The Fourth Edition has been completely revised to offer readers the most current techniques and research on content analysis including new information on reliability and social media Readers will also gain practical advice and experience for teaching academic and commercial researchers how to conduct content analysis

Determinants of Growth Spells Mr.Charalambos G. Tsangarides,2012-09-01 Do growth spells in Africa end because of bad realizations of the same factors that influence growth spells in the rest of the world or because of different factors altogether To answer this question we examine determinants of growth spells in Africa and the rest of the world using Bayesian Mode Averaging techniques for proportional hazards models We define growth spells as periods of sustained growth episodes between growth accelerations and decelerations and then relate the probability that a growth spell ends to various determinants including exogenous shocks physical and human capital macroeconomic policy and sociopolitical factors Our analysis suggests that determinants of growth spells in Africa are different from those in the rest of the world The majority of the identified robust determinants have a distinct impact in only one of the two samples initial income terms of trade exchange rate undervaluation and inflation influence spells only in the world sample while openness and droughts seem to only affect Africa In addition a few common determinants proxies for human and physical capital and changes in the world interest rate have very different marginal effects in the two samples

Shifting Trajectories in Globalization, Labor, and the Transformation of Work Jonathan Westover,2018-10-01 In today s shifting global economy and the emergence of technology and service oriented knowledge organization requiring enhanced levels of organizational flexibility and innovation how do we maximize the human capital potential of workers to enhance their ability to perform and add value in a hyper intensive competitive global marketplace What are the methods and strategies for effectively motivating employees and increasing the job satisfaction of workers What are the important drivers of worker satisfaction What are the important individual organizational and social outcomes of various job satisfaction levels What are the individual organizational and societal differences in job satisfaction levels and its determinants These are just some of the pressing questions facing the organizations of today which this volume discusses

The Social Logic of Politics Alan S. Zuckerman,2005 Re establishes the connection between social life and political behavior

Meritocracy and Economic Inequality Kenneth Arrow,Samuel Bowles,Steven N. Durlauf,2018-06-26 Most Americans strongly favor equality of opportunity if not outcome but many are weary of poverty s seeming immunity to public policy This helps to explain the recent attention paid to cultural and genetic explanations of persistent poverty including claims that economic inequality is a function of intellectual ability as

well as more subtle depictions of the United States as a meritocracy where barriers to achievement are personal either voluntary or inherited rather than systemic This volume of original essays by luminaries in the economic social and biological sciences however confirms mounting evidence that the connection between intelligence and inequality is surprisingly weak and demonstrates that targeted educational and economic reforms can reduce the income gap and improve the country's aggregate productivity and economic well being It also offers a novel agenda of equal access to valuable associations Amartya Sen John Roemer Robert M Hauser Glenn Loury Orley Ashenfelter and others sift and analyze the latest arguments and quantitative findings on equality in order to explain how merit is and should be defined how economic rewards are distributed and how patterns of economic success persist across generations Moving well beyond exploration they draw specific conclusions that are bold yet empirically grounded finding that schooling improves occupational success in ways unrelated to cognitive ability that IQ is not a strong independent predictor of economic success and that people's associations their neighborhoods working groups and other social ties significantly explain many of the poverty traps we observe The optimistic message of this beautifully edited book is that important violations of equality of opportunity do exist but can be attenuated by policies that will serve the general economy Policy makers will read with interest concrete suggestions for crafting economically beneficial anti discrimination measures enhancing educational and associational opportunity and centering economic reforms in community based institutions Here is an example of some of our most brilliant social thinkers using the most advanced techniques that their disciplines have to offer to tackle an issue of great social importance The SAGE Encyclopedia of Social Science Research Methods Michael Lewis-Beck, Alan E Bryman, Tim Futing Liao, 2004 This defining work will be valuable to readers and researchers in social sciences and humanities at all academic levels As a teaching resource it will be useful to instructors and students alike and will become a standard reference source Essential for general and academic collections CHOICE Appreciative users of this volume will be students faculty and researchers in academic special and large public libraries for whom it is recommended LIBRARY JOURNALSAGE Reference is proud to announce The SAGE Encyclopedia of Social Science Research Methods a three volume resource that is a first of its kind developed by the leading publisher of social science research methods books and journals This unique multi volume reference set offers readers an all encompassing education in the ways of social science researchers Written to be accessible to general readers entries do not require any advanced knowledge or experience to understand the purposes and basic principles of any of the methods The Encyclopedia features two major types of entries definitions consisting of a paragraph or two provide a quick explanation of a methodological term and topical treatments or essays discussing the nature history application example and implication of using a certain method Also included are suggested readings and references for future study To help provide a more complete explanation than is often achieved within the scope of a single article key terms and concepts appear in SMALL CAPITAL LETTERS to refer readers to related terms explained elsewhere In addition to

epistemological issues that influence the nature of research questions and assumptions The SAGE Encyclopedia of Social Science Research Methods tackles topics not normally viewed as part of social science research methodology from philosophical issues such as poststructuralism to advanced statistical techniques In covering the full range of qualitative and quantitative data analyses this key reference offers an integrated approach that allows the reader to choose the most appropriate and robust techniques to apply to each situation Many entries treat traditional topics in a novel way stimulating both interest and new perspectives One example is the entry Econometrics by Professor Damodar Gujarati Following a process which many educators preach but seldom practice Gujarati walks the reader twice through the research process from economic theory to data and models to analysis once in principle and a second time with an example In using the ordinary process of economic research to achieve an extraordinary impact he leaves the reader thinking not only about methods and models but also the fundamental purpose of econometrics Topics Covered Analysis of Variance Association and Correlation Basic Qualitative Research Basic Statistics Causal Modeling Structural Equations Discourse Conversation Analysis Econometrics Epistemology Ethnography Evaluation Event History Analysis Experimental Design Factor Analysis Related Techniques Feminist Methodology Generalized Linear Models Historical Comparative Interviewing in Qualitative Research Latent Variable Model Life History Biography Loglinear Models Categorical Dependent Variables Longitudinal Analysis Mathematics and Formal Models Measurement Level Measurement Testing Classification Multiple Regression Multilevel Analysis Qualitative Data Analysis Sampling in Surveys Sampling in Qualitative Research Scaling Significance Testing Simple Regression Survey Design Time Series Key Features Over 900 entries arranged A to Z Each entry is written by a leading authority in the field covering both quantitative and qualitative methods Covers all disciplines within the social sciences Contains both concise definitions and in depth essays Three volumes and more than 1500 pages

The Standard of Living and Revolutions in Imperial Russia, 1700-1917 Boris Mironov, 2012-05-31 This is the first full scale anthropometric history of Imperial Russia 1700 1917 It mobilizes an immense volume of archival material to chart the growth weight and other anthropometric indicators of the male and female populations in order to chart how the standard of living in Russia changed over slightly more than two centuries It draws on a wide range of data statistics on agricultural production taxation prices and wages nutrition and demography to draw conclusions on the dynamics in the standard of living over this long period of time The economic social and political interpretation of these findings make it possible to reconsider the prevailing views in the historiography and to offer a new perspective on Imperial Russia

Mechanism Design for Total Quality Management: Using the Bootstrap Algorithm for Changing the Control Game Petter Ogland,2017-11-10 This PhD thesis contributes to the theory of information infrastructures by explaining how to use game theory and genetic algorithms for turning the pseudo code of the bootstrap algorithm into proper code The study is the first known study to analyse the bootstrap algorithm from an action research perspective and it has become an important reference for further research on how to bootstrap information infrastructures **The UK Social Policy Process** Catherine Bochel,2018-06-26 The UK Social Policy Process examines the wide range of factors that influence social policies and their outcomes Devolution modernisation reform of the public services emphasises on public participation and on what works in the delivery of welfare are all impacting on and shaping social policy Combining coverage of theoretical perspectives with discussion of institutional change this book provides a timely examination of the policy process and social policy from agenda setting to implementation and evaluation **Ethnography** Alan Bryman,2001-12-14 This set covers all the current issues and thinking in the burgeoning field of ethnography It makes available in one major reference work the seminal articles and sections of books that define the subjects today and draws together a comprehensive range of topics both anthropological and sociological selections classic and less well known selections Negotiating Partnerships with Older People Brendan McCormack,2017-07-12 This title was first published in 2001 Much discussion takes place concerning the nature of the relationship between nurses and older people in hospital and there have been many concerns expressed in United Kingdom policy documents about the quality of care for older people in hospitals Autonomy is considered to be one of the central ethical principles of health care practice and as such is a significantly relevant concept for nurses This book presents the results of a study undertaken with nurses who work with older people in hospitals Issues arising from the study include the effects of institutional constraints on autonomy A framework for person centred practice has been developed from this work that emphasizes the values of the individual and their needs wants and desires The role of the nurse in facilitating practice that respects an individual s values is outlined and the importance of nurses in negotiating relationships with older people is also emphasized *A Stakeholder Approach to Corporate Social Responsibility* Philip Kotler,François Maon,2016-03-16 Corporate social responsibility has grown into a global phenomenon that encompasses businesses

consumers governments and civil society and many organizations have adopted its discourse Yet corporate social responsibility remains an uncertain and poorly defined ambition with few absolutes First the issues that organizations must address can easily be interpreted to include virtually everyone and everything Second with their unique often particular characteristics different stakeholder groups tend to focus only on specific issues that they believe are the most appropriate and relevant in organizations corporate social responsibility programs Thus beliefs about what constitutes a socially responsible and sustainable organization depend on the perspective of the stakeholder Third in any organization the beliefs of organizational members about their organization s social responsibilities vary according to their function and department as well as their own managerial fields of knowledge A Stakeholder Approach to Corporate Social Responsibility provides a comprehensive collection of cutting edge theories and research that can lead to a more multifaceted understanding of corporate social responsibility in its various forms the pressures and conflicts that result from these different understandings and some potential solutions for reconciling them

Spatio-temporal Analysis and Optimization of Land Use/Cover Change Biao Liu,Bo Huang,Wenting Zhang,2017-08-07 This book proposes a method to solve land use problems and has made some significant contributions to the land use analysis and optimization study fields Firstly three spatio temporal logit models for land use change analysis namely geographically and temporally weighted logit model GTWLM spatio temporal panel logit model ST PLM and generalized spatio temporal logit model GSTLM are proposed GTWLM which considers spatio temporal non stationarity includes temporal data in a spatio temporal framework by proposing a spatiotemporal distance ST PLM incorporates the spatio temporal correlation and individual effect in one model By integrating GTWLM and ST PLM the GSTLM explores spatio temporal non stationarity and correlations simultaneously whilst considering their individual effects to construct an integrated model Secondly a MOO based two level spatial planning of land use is proposed The spatial planning aims at managing and coordinating the land use at different geographic extents and involves spatial layouts and structures of land use at different levels In spatial planning GIS and Remote Sensing are used to evaluate analyze and measure environmental economic and social issues The quantitative relationships between these objectives and spatial land use allocation are then used as rules in the MOO process to simulate environmental conditions under different spatial land use allocation scenarios The book features a case study of Shenzhen city the most important Special Economic Zone in China This book will be of interest to academics and professionals in the fields of urban planning land resource management remote sensing and geographic information systems

Older People and Migration Susan Lawrence,Sandra Torres,2017-10-02 With neo liberal resource rationing and the onus of cost shifting from the state to individuals families and communities migration issues can add a further layer of complexity to the question of caring for the elderly By presenting examples from a variety of contexts and countries this book will stimulate readers into considering new approaches to their own local situation in an attempt to find sustainable social work responses and in helping to build intergenerational solidarity

and social capital Contributions to the book focus on patterns of migration older migrants migrating families and migrant carers Facilitating and supporting social solidarity both locally and internationally requires social workers to understand the different contexts for elderly social work both within their own country and internationally Central to this area of work is the promotion of values that respect differences and uphold the principles of human rights and social justice This book highlights the need to consider migration as a driver for social change offering the opportunity for new forms of social solidarity that can adapt and support people inter generationally and sustainably in later life This book was originally published as a special issue of the European Journal of Social Work
