An introduction provides information and statistics about the causes of school violence. Chapter One considers government legislation and resulting initiatives to reduce youth violence and improve classroom discipline. Chapter Two covers strategies for building a school safety program and offers recommended and tested approaches for creating safety initiatives. Chapter Three provides additional information about school-wide strategies and presents model programs that can be implemented at the elementary, middle, and high school levels. Chapter Four examines character building educational programs and discusses training for teachers and parents. Chapter Five is a directory of organizations, alliances, centers, professional development groups, publications, and websites dealing with school safety.
