Dandaneau, 2001-01-24 For use as a primary or supplemental text for Introductory Sociology Social Theory and senior capstone courses An unabashedly critical text for those who want to connect their students personal experiences with what is happening at the societal global level today The emphasis is on teaching the sociological imagination i e to instill in students a unique and radical form of consciousness that will allow them to conceptualize today s chief global and individual problems

and the relations between them Dandaneau adopts a perspective like that of C Wright Mills and argues that the sociological imagination is the most needed type of consciousness in the world today The author encourages students to think through a wide variety of topics from ecological crises to panic disorder from hyperreality to the sociology of disability from Generation X to Generation Next As Dandaneau says The point is not so much to learn the truth but to learn how to think about essential issues and troubles as sociologists themselves try to do to become a participant with others in facing down the challenges of our present epoch It is an elegant and profound meditation on thinking sociologically Written with a rare panache one seldom finds in sociology it s the product of a view of contemporary social life that is profoundly troubling What this adds up to is a distinctive sociological and moral voice Peter Kivisto Augustana College Rock Island Illinois *The Sociology of Community Connections* John G. Bruhn, 2011-07-18 Many of our current social problems have been attributed to the breakdown or loss of community as a place and to the fragmentation of connections due to an extreme value of individualism in the Western world particularly in the United States Not all scholars and researchers agree that individualism and technology are the primary culprits in the loss of community as it existed in the middle decade of the 20th century Nonetheless people exist in groups and connections are vital to their existence and in the daily performance of activities The second edition of the Sociology of Community Connections will identify and help students understand community connectedness in the present and future

But Don't Call Me White Silvia Cristina Bettez, 2012-01-01 Highlighting the words and experiences of 16 mixed race women who have one white parent and one parent who is a person of color Silvia Bettez exposes hidden nuances of privilege and oppression related to multiple positionalities associated with race class gender and sexuality These women are secret agent insiders to cultural Whiteness who provide unique insights and perspectives that emerge through their mixed race lenses Much of what the participants share is never revealed in mixed White of color company Although critical of racial

power politics and hierarchies these women were invested in cross cultural connections and revealed key insights that can aid all in understanding how to better communicate across lines of cultural difference This book is an invaluable resource for a wide range of activists scholars and general readers including sociologists sociologists of education feminists anti oppression social justice scholars critical multicultural educators and qualitative researchers who are interested in mixed race issues cross cultural communication social justice work or who simply wish to minimize racial conflict and other forms of oppression Theoretically grounded and with vivid detail this book amplifies the voices of mixed race women to trouble and expand our understandings of race gender hybridity and education Silvia Bettez fills a stark gap in the research literature and sets the bar high for what comes next Kevin Kumashiro editor of Troubling Intersections of Race and Sexuality Queer Students of Color and Anti Oppressive Education In But Don t Call Me White Silvia Bettez accomplishes the difficult task of presenting complex theories in accessible ways while introducing the reader to the intersectional nature of identities in the 21st century Through the voices of her participants Bettez illuminates aspects of gender race sexuality and social class that cannot be discerned when examined in isolation and she does so in an engaging manner In addition to presenting a model of excellent qualitative research the book makes a valuable contribution to mixed race studies gender studies and education Kristen A Renn Associate Professor at Michigan State University Silvia Bettez has given us a window into lives that are marked by borders of our own racist creations Yet these women soar and inspire They are insightful and beautiful They teach us the limits of racism and the power of a future where race is *mezcla* not marker George W Noblit Joseph R Neikirk Distinguished Professor of Sociology of Education University of North Carolina at Chapel Hill Silvia Cristina Bettez teaches about issues of social justice and is an Assistant Professor of Cultural Foundations in the School of Education at the University of North Carolina at Greensboro *Attracting and Keeping the Best Teachers* Anna Sullivan, Bruce Johnson, Michele Simons, 2019-08-26 This book challenges dominant thinking about early career teachers and their work It offers an in depth and critical analysis of policies concerning the work of early career teachers and how they are supported during this critical period when they are highly vulnerable to leaving the profession Moreover the book provides examples from actual practice that illustrate how to help early career teachers make a successful transition into the profession These practices promote early career teachers development and help the profession as a whole to capitalize on the new knowledge and skills that these teachers bring to their classrooms and their students The book is divided into two main parts Part 1 deals with the difficult to define process of retaining early career teachers and its respective chapters consider this broad issue from an international perspective They explore how policies and practices have an impact on what happens in schools and what it means to be a teacher and to teach In turn Part 2 focuses on the need to reconsider the policies and practices that create the problem of early career teachers and offers alternative ways forward Each chapter addresses a specific aspect of the early career teacher retention issue contributing to a greater understanding of how we can rethink the work of

early career teachers so that they can more successfully transition into the profession The Socially Just School John Smyth, Barry Down, Peter McInerney, 2014-07-08 This book explores schools and how they can function as social institutions that advance the interests and life chances of all young people especially those who are already the most marginalized and at an educational disadvantage Social justice is a key theme as the book examines the needs of youth the concept of school culture school community relations socially critical pedagogy curriculum and leadership and a socially critical approach to work The Socially Just School is based upon four decades of intensive writing and researching of young lives This work presents an alternative to the damaging school reform in which schools are made to serve the interests of the economy education systems the military corporate or national interests Readers will discover the hallmarks of socially just schools They educationally engage young people regardless of class race family or neighbourhood location and they engage them around their own educational aspirations They regard all young people as being morally entitled to a rewarding and satisfying experience of school not only those whose backgrounds happen to fit with the values of schools They treat young people as having strengths and being at promise rather than being at risk and with deficits or as bundles of pathologies to be remedied or fixed They are active listeners to the lives and cultures of their students and communities and they construct learning experiences that are embedded in young lives This highly readable book will appeal to students and scholars in education and sociology as well as to teachers and school administrators with an interest in social justice **Wealth, Whiteness, and the Matrix of Privilege** Jessica Holden Sherwood, 2012-07-10 Exclusive social clubs are traditionally an important site for the consolidation of upper class power Wealth Whiteness and the Matrix of Privilege shows that while the particulars of admission have changed these clubs remain socially significant incubators Having interviewed typically inaccessible members of exclusive clubs in the Northeast Jessica Holden Sherwood reports and analyzes what they have to say about who is in who is out and why The members talk frankly about their exclusiveness based on money and style but they are quick to point out that ethnically based exclusion is a thing of the past Club members also address the status of their women members which is at times distinctly second class The talk of country club members is shown to draw on elements in popular discourse And even if it is not their intention as club members exclude and account for their exclusion they contribute to reproducing class race and gender inequalities **Feminist Fieldwork Analysis** Sherryl Kleinman, 2007-04-20 Advice for researchers who want to translate a feminist sensibility into qualitative analysis Each chapter provides a guiding feminist principle studies that show the principle in action and analytic questions that researchers can keep in mind in the field or at the desk Taking Up Space Pattie Thomas, Ph.D., 2005-10-01 Taking Up Space is a sociological memoir about being fat and the physical emotional and economic costs of trying to pass for thin in a culture that stigmatizes fat people Making her own life a case study medical sociologist Pattie Thomas Ph D with the help of her co author and husband Carl Wilkerson M B A outlines how stigma limit and shape the life chances of all people and are supported within culture Through narrative text
