

August Comte(1798-1857)

- He was considered the founder of sociology. He had once been personal secretary to Saint-Simon. Comte coined the term sociology. Previously, he had called the discipline “positive philosophy” (social physics), both to stress its scientific nature and to distinguish it from traditional philosophy. The aim of sociology, as he saw it, was to find the “invariable laws” of sociology upon which a new order could be based.

Ilm al umran is an independent science This science has its own peculiar object that is human civilization and social organization The discussion of this topic is something new extraordinary and highly useful Penetrating research has shown the way to it Ibn Khaldun This book probes the nature scope and methods of ilm al umran the new science of human social organization as it is developed in Ibn Khaldun s 14th century masterpiece the Mugaddimah It explores his ideas and observations on society culture socialization social control the state asabiyah social solidarity history as a cyclical movement urbanization and the typology of badawa primitive life and hadara civilized life or urbanism Through a comparative perspective this study illustrates that Khaldun s ideas about society have conceptually preceded those of Machiavelli Vico and Turgot as well as those of Montesqueau Comte Durkheim Gumplovicz Spengler Tonnies and even Marx Society State and Urbanism demonstrates that Ibn Khaldun s thought is relevant to contemporary sociological theory and that his very language differs little from that of classical and modern sociologists *The Emergence of Sociological Theory* Jonathan H. Turner, Leonard Beeghley, Charles H. Powers, 2011-11-29 Now published by SAGE this scholarly text covers the first one hundred years of sociological theorizing from 1830 1930 focusing primarily on Comte Spencer Marx Weber Simmel Durkheim and Mead The text provides an in depth examination of these early sociological theorists with biographical background analysis of key works major influences critical insights and also answers the question What do these ideas tell us about the basic forces that shape the social world Posing this question for each theorist adds a unique perspective to the text and distinguishes it from other sociological theory books In addition it also includes material on the enduring models and principles of the theorists work that continue to inform sociological theory today *Liberalism and American Education in the Eighteenth Century* Allen Oscar Hansen, 1926 **The Passionate Society** Lisa Hill, 2006-10-12 Adam Ferguson 1723 1816 was a major figure of the Scottish Enlightenment whose thought was in many respects original and distinctive This book is a study of his ideas and of the intellectual forces that shaped them Though somewhat overlooked in the nineteenth century Ferguson was rescued from obscurity in the first half of the twentieth century by scholars interested in the origins of sociology and early critiques of modernity Ferguson s interest in the mechanics of social life and especially social change led him to many groundbreaking insights In fact he is sometimes identified as the Father of Modern Sociology In addition to exploring whether or not he merits this title this study examines the whole of Ferguson s thought as a system and includes his moral and faculty psychology historiography theology politics and social science Ferguson is distinguished by his deep appreciation of the complexity of the human condition his study of society is based on the belief that it is not only reason but the unseen unplanned sub rational and visceral forces that keep the human universe in motion Ferguson s appreciation of this fact and his ability to make social science of it is his major achievement **The History and Prospects of the Social Sciences**

The Scottish Enlightenment and Hegel's Account of 'Civil Society' N. Waszek, 2012-12-06 The present study which investigates the influence of the Scottish Enlightenment on Hegel s account of civil society or *biirgerliche Gesellschaft* is based on my PhD thesis submitted to the University of Cambridge in September 1983 Its publication provides me with a welcome opportunity to acknowledge the help and encouragement I have received over the years from scholars friends and relations At the Ruhr University of Bochum where I began my studies I am indebted to Professor Otto Poggeler Director of the Hegel Archives to the other past and

present members of staff at the Hegel Archives and to Professors Jiirgen Gebhardt Jiirgen von Kempster Heinz Kimmerle and Leo Kofler It was my time at Bochum under the guidance of these scholars that kindled my love for the study of Hegel which proved to be a lasting romance In Scotland where I continued my studies and spent two fruitful and happy years I am indebted to George Elder Davie and Richard Gunn who first introduced me to the Scottish Enlightenment and to Professors R H Campbell and T D Campbell who supervised my research in that field At Cambridge where most of this study was prepared my greatest debt is to Duncan Forbes I am grateful for his supervision of my research but also beyond the scope of my research for what I have learned genuinely learned from the man
