Story Shaped World:

The Story-Shaped World Brian Wicker, 2014-01-13 Story telling since its earliest beginnings has drawn its power not simply from the intrinsic fascination of a skilful narrative but from the fact that human beings are compelled to make fictions if they are to explain and come to terms with the world they experience This holds true as Mr Wicker shows in the course of a profound and wide ranging enquiry for the complex and often sophisticated novels and anti novels of our own day just as much as for such traditional forms as myth and fairy tale The world remains story shaped **Evoking Story for**

Transformation Lyn Nixon, 2025-08-21 Lyn Nixon takes a fresh approach to the question of whether New Testament authors quote the Old Testament without regard to the original Old Testament meaning that is out of context Her action model uses Speech Act Theory to examine the way authors and readers together contribute to the communication of meaning In her model for meaning to be successfully communicated the reader must experience the transformation intended by the author Lyn Nixon applies her theoretical model to two examples of New Testament quotation where previous scholars have claimed the author quotes the Old Testament in a way that does not correspond to the original meaning Her case studies the use of Ps 115 1 LXX in 2 Cor 4 13 and of Ps 110 1 MT by various New Testament speakers and authors provide new insights into ways that the Old Testament meaning including its transformative intention resonates in the quoting of New Testament texts

The Faith of Jesus Christ Richard B. Hays, 2002 In this important study Hays argues against the mainstream that any attempt to account for the nature and method of Paul s theological language must first reckon with the centrality of narrative elements in his thought Through an in depth investigation of Galatians 3 1 4 11 Hays shows that the framework of Paul s thought is neither a system of doctrines nor his personal religious experience but the sacred story of Jesus Christ *On Sympathy* Sophie Ratcliffe, 2008-05-15 What happens when we engage with fictional characters How do our imaginative engagements bear on our actions in the wider world Moving between the literary and the philosophical Sophie Ratcliffe considers the ways in which readers feel when they read and how they understand ideas of feeling *On Sympathy* uses dramatic monologues based on *The Tempest* as its focus and broaches questions about fictional belief morality and the dynamics between readers writers and fictional characters The book challenges conventionally accepted ideas of literary identification and sympathy and asks why the idea of sympathy has been seen as so important to liberal humanist theories of literary value Individual chapters on Robert Browning W H Auden and Samuel Beckett who all drew on Shakespeare s late play offer new readings of some major works while the book s epilogue tackles questions of contemporary sympathy Ranging from the nineteenth century to the present day this important new study sets out to clarify and challenge current assumptions about reading and sympathetic belief shedding new light on the idea and ideal of sympathy the workings of affect and allusion and the ethics of reading **The Book of the Torah, Second Edition** Thomas W. Mann, 2013-10-23 The first five books of the Bible contain many of its most famous stories populated by vivid characters altogether human in their

triumphs and failings and an equally complicated deity Many works of Western art and literature appeal to these stories from Michelangelo's painting of Adam and Eve to a novel like William Faulkner's *The three great Abrahamic religions* Judaism Christianity and Islam are rooted here So is much of Western political theory and constitutional polity for a good half of these books contains legislation torah of various kinds as indicated by the ancient title the book of the Torah Law and narrative together render the character of the ancient covenant community known as Israel as well as the God who rules over that community In this revised and expanded version of his popular book of 1988 Mann engages literary criticism and theology in attending both to the composite nature of the Torah or Pentateuch and to its final canonical shape Mann's study provides a lucid introduction to the heart of the Hebrew Bible suitable for students and general readers but also of interest to biblical scholars

Lord Dunsany, H.P. Lovecraft, and Ray Bradbury William F. Touponce, 2013-10-10 In his classic study *Supernatural Horror in Literature* H P Lovecraft discusses the emergence of what he called spectral literature literature that involves the gothic themes of the supernatural found in the past but also considers modern society and humanity Beyond indicating how authors of such works derived pleasure from a sense of cosmic atmosphere Lovecraft did not elaborate on what he meant by the term spectral as a form of haunted literature concerned with modernity In *Lord Dunsany H P Lovecraft and Ray Bradbury Spectral Journeys* William F Touponce examines what these three masters of weird fiction reveal about modernity and the condition of being modern in their tales In this study Touponce confirms that these three authors viewed storytelling as a kind of journey into the spectral Furthermore he explains how each identifies modernity with capitalism in various ways and shows a concern with surpassing the limits of realism which they see as tied to the representation of bourgeois society The collected writings of Lord Dunsany H P Lovecraft and Ray Bradbury span the length of the tumultuous twentieth century with hundreds of stories By comparing these authors Touponce also traces the development of supernatural fiction since the early 1900s Reading about how these works were tied to various stages of capitalism one can see the connection between supernatural literature and society This study will appeal to fans of the three authors discussed here as well as to scholars and others interested in the connection between literature and society criticism of supernatural fiction the nature of storytelling and the meaning and experience of modernity
