The Story of Ribbleshead Viaduct William Reginald Mitchell, Peter Fox, 1990 **High Arches** W. R. Mitchell, The Story of British Railways Barrington Tatford, 1946 **The Empathy Gap** William Collins, 2021

From the ebook Preface This book majors on the presentation of empirical evidence in the form of data The most digestible form for communicating such material is through the use of Tables and Figures generally graphs Consequently the book has a great many Tables and Figures and the latter are often in colour Viewing on a device capable of rendering colours is therefore recommended although monochrome will be adequate in most cases The Empathy Gap proposes the thesis that men and boys are extensively disadvantaged across many areas of life including in education healthcare genital integrity criminal justice domestic abuse working hours taxation pensions paternity homelessness suicide sexual offences and access to their own children after parental separation The claim is justified in the book by empirical evidence mostly but not exclusively from the UK involving nearly 1 000 references 179 Figures and 49 Tables To most people of both sexes this will appear to be a perverse perspective as disadvantage has become the province of women girls and minorities not males Yet the empirical case supporting the disadvantages suffered by men and boys is undeniable to the objective mind But if this is so why is the popular perception that males are privileged whereas disadvantage is the province of the opposite sex Why do the male disadvantages go largely unremarked by both sexes if they are so pervasive Presenting the case for widespread and substantial male disadvantage is also a challenge to the usual hegemonic paradigm of feminist theory These issues are addressed within The Empathy Gap by presenting an entirely different orientation on the social psychology of relations between the sexes Out goes the idea of an oppressive patriarchy Instead a man's participation in the human pair bond is seen to be altruistic a phenomenon arising originally from evolution and enacted in the individual via the emotional psyche This is the origin of an asymmetry in the perception of the sexes which normalises the preferencing of females and therefore inevitably disadvantages males as a corollary The successful evolved strategy involves male utility and relative male disposability the latter being facilitated by a muted empathy for males by both sexes the empathy gap Rather than working to overcome this male disposability as a true egalitarian movement would have done feminism has fed upon it and amplified it The feminist project relies upon the true state of affairs remaining unacknowledged and the empathy gap is instrumental in its own invisibility In respect of this theory the author makes no claim for originality The ideas presented have been circulating within the sub culture for decades However the focus of the book is to show how these ideas are manifest in practice

The Settle-Carlisle Railway Paul Salvesson, 2019-09-23 The line from Settle to Carlisle is one of the world's great rail journeys It carves its way through the magnificent landscape of the Yorkshire Dales where it becomes the highest main line in England descending to Cumbria's lush green Eden Valley with its view of the Pennines and Lakeland fells But the story of the line is even more enthralling From its earliest history the line fostered controversy it probably should never have

been built arising only from a political dispute between two of the largest and most powerful railway companies in the 1860s Its construction through some of the most wild and inhospitable terrain in England was a herculean task Tragic accidents affected those who built worked and travelled the line After surviving the Breeching cuts of the 1960s the line faced almost certain closure in the 1980s only to be saved by an expected last minute reprieve This book describes the history behind the inception and creation of the line the challenges of constructing the 72 mile railway and its seventeen viaducts and fourteen tunnels threat of closure in the mid 1980s and the campaign to save it and finally the line today and its future **Christmas**
