Strange Memories:

Memory Bennett Davlin, 2007-01-02 If your memories aren't your own then whose are they One man is about to find out as he accidentally ingests a mysterious drug that throws him into a hallucination so vivid that it seems real Now Dr Taylor Briggs will embark on a journey to unlock the mysteries of his own mind and to find the killer of the innocent victims whose last moments are being played out in his head in a stunning psychological thriller that explores memory its crucial role in our consciousness and its power to deceive Also a major motion picture starring Billy Zane Dennis Hopper and Ann Margaret

False Memories Gabrielle Mallarmé, 2005-03 Praise for False Memories It was rich Like eating a large slice of cheese cake with blueberry topping I finished reading it today did what it was suppose to do kept my interest created a deeper mystery surrounding the artist brought up controversy cleared a few questions and much much more This will be a book not just for collectors but for anyone wanting to know a little about the psyche of a painter Brilliant Lynn Vermillion False memories is a psychologist's term for memories cleverly and conveniently created by the subconscious mind Since the theory of reincarnation is not widely accepted we tend to explain away memories of previous lives as false memories Contemporary American painter Anton Brzezinski would be the first to agree that his own memories of previous lives are productions of his prodigious imagination but Brzezinski's memories of his own experiences need no exaggeration to make them fascinating In False Memories Adventures of the Living Dali with the exception of the pseudo author Gabrielle Mallarmé people who appear as characters in this book are not fictitious This is a work of fiction but even the wildest incidents described here really occurred
