Strange Rain:

Reading for Speed & Content (Gr. 3-4) , **Weird Washington** Jeff Davis, Al Eufrazio, 2008 Each fun and intriguing volume offers more than 250 illustrated pages of places where tourists usually don't venture. These unique travel guides are chock full of information about oddball curiosities, ghostly places, local legends, and peculiar roadside attractions. **Rain** Cynthia Barnett, 2016-04-05 Rain is elemental, mysterious, precious, destructive. It is the subject of countless poems and paintings, the top of the weather report, the source of the world's water. Yet this is the first book to tell the story of rain. Cynthia Barnett's *Rain* begins four billion years ago with the torrents that filled the oceans and builds to the storms of climate change. It weaves together science, the true shape of a raindrop, the mysteries of frog and fish rains, with the human story of our ambition to control rain, from ancient rain dances to the 2,203 miles of levees that attempt to straitjacket the Mississippi River. It offers a glimpse of our founding forecaster, Thomas Jefferson, who measured every drizzle long before modern meteorology. Two centuries later, rainy skies would help inspire Morrissey's mopes and Kurt Cobain's grunge. *Rain* is also a travelogue, taking readers to Scotland to tell the surprising story of the mackintosh raincoat and to India where villagers extract the scent of rain from the monsoon-drenched earth and turn it into perfume. Now, after thousands of years spent praying for rain or worshipping it, burning witches at the stake to stop rain or sacrificing small children to bring it, mocking rain with irrigated agriculture and cities built in floodplains, even trying to blast rain out of the sky with mortars meant for war, humanity has finally managed to change the rain. Only not in ways we intended. As climate change upends rainfall patterns and unleashes increasingly severe storms and drought, Barnett shows rain to be a unifying force in a fractured world. Too much and not nearly enough, rain is a conversation we share, and this is a book for everyone who has ever experienced it. **Deadly Rains** Diane Compagno, 2002-03 Reports of strange deaths in a remote area of Utah trigger an investigation by the CDC. Carol McCoy finds that a strange substance falling along with the rain is killing animals and humans. Not only does death follow this strange phenomenon, but wherever the rain falls, the landscape changes. It is up to Carol to discover the secrets of the rain and determine how to stop it before it destroys the human race. **Galaxy 313** Linda L. Nielsen PhD, 2017-12-04 Threads of starlight weave life together in a rich saga of multidimensional tales. They are the light between shadows, which is where these earth stories have been awaiting their unveiling. That time is now, whatever now, in which they happen into your world. *Galaxy 313: Book One* of the mystical fiction series *Hearts Beat Wisdom* introduces the principal characters and provides an overview of events thus far. These timeless tales for ages 8 through adult open a path to enlighten the heart and soul of humanity during this time of transformation. The light of love shining within each person must unite as One with Divine Presence to restore balance and harmony to self, the earth, and all life. Niko of Quintaris, an adventurous young man who breaks with Quintaris tradition in following his heart, Kuma, Wisdom Keeper and Star Spinner on *Galaxy 313*, a rare breed of guide and teacher, Sefron, a light being from *Galaxy 313* who assumes visible forms primarily as an

elf who is Niko's mentor on earth Annalisa the fairy princess who is given to outbursts of worry about her mission of going to earth to remember who she is Humbugs interdimensional way showers through frequencies who fill crystals with dream images to assist those on their path of awakening In the heart of a giant crystal cluster on Galaxy 313's Brightest Star nestled the round furry creature yawning and puffing up in a big Humbug stretch He could feel a special day stirring deep within himself on Crystal Mountain and beyond Look he announced in a soft compelling hum to all who could hear him Open your eyes and listen with your heart Feel beyond disorder's illusion Embrace the love that awaits all life Also by Linda L Nielsen PhD Microtonal Healing Spirit of the Healing Voice 2004 Camarillo CA DeVorss Publications Received the 2005 Visionary Award in Alternative Healing
