Strange Fits Of Passion A Novel:

STRANGE FITS OF PASSION: A NOVEL. ANITA. SHREVE, 1999 **Strange Fits of Passion** Adela Pinch, 1996 This book contends that when late eighteenth and early nineteenth century writers sought to explain the origins of emotions they often discovered that their feelings may not really have been their own It explores the paradoxes of representing feelings in philosophy aesthetic theory gender ideology literature and popular sentimentality and it argues that this period's obsession with sentimental wayward emotion was inseparable from the dilemmas resulting from attempts to locate the origins of feelings in experience The book shows how these epistemological dilemmas became gendered by studying a series of extravagantly affective scenes Hume's extraordinary confession of his own melancholy in the *Treatise of Human Nature* Charlotte Smith's insistence that she really feels the gloomy feelings portrayed in her *Elegiac Sonnets* Wordsworth's witnessing of a woman poet reading and weeping tearful exchanges between fathers and daughters in the gothic novel the climactic debate over the strengths of men's and women's feelings in Jane Austen's *Persuasion* and the poetic and public mourning of a dead princess in 1817 Strange Fits of Passion Anita Shreve, 1992 The reader is left to uncover the truth in this labyrinth of a tale a riveting story told within the framework of one reporter's notes and a woman's letters from prison Everyone believes that Maureen and Harrold English two successful New York City journalists have a happy stable marriage It's the early 70s and no one discusses or even suspects domestic abuse But after Maureen suffers another brutal beating she flees New York with her infant daughter and seeks refuge in a small coastal town in Maine The weeks pass slowly and just as Maureen begins to heal physically and emotionally Harrold finds her bringing the story to a violent unforgettable end

Eighteenth-Century Authorship and the Play of Fiction Emily Hodgson Anderson, 2009-05-15 This study looks at developments in eighteenth century drama that influenced the rise of the novel it begins by asking why women writers of this period experimented so frequently with both novels and plays Here Eliza Haywood Frances Burney Elizabeth Inchbald Maria Edgeworth and Jane Austen explore theatrical frames from the playhouse to the social conventions of masquerade to the fictional frame of the novel itself that encourage audiences to dismiss what they contain as feigned Yet such frames also as a result create a safe space for self expression These authors explore such payoffs both within their work through descriptions of heroines who disguise themselves to express themselves and through it Reading the act of authorship as itself a form of performance Anderson contextualizes the convention of fictionality that accompanied the development of the novel she notes that as the novel like the theater of the earlier eighteenth century came to highlight its fabricated nature authors could use it as a covert yet cathartic space Fiction for these authors like theatrical performance for the actor thus functions as an act of both disclosure and disguise or finally presents self expression as the ability to oscillate between the two in the play of fiction

Mind over Matter Sarah Eron, 2021-04-01 How do we understand memory in the early novel Departing from traditional empiricist conceptualizations of remembering Mind over Matter uncovers a social model of memory in Enlightenment fiction that is fluid and evolving one that has the capacity to alter personal histories Memories are not merely imprints of first hand experience stored in the mind but composite stories transacted through dialogue and reading Through new readings of works by Daniel Defoe Frances Burney Laurence Sterne Jane Austen and others Sarah Eron tracks the fictional qualities of memory as a force that much like the Romantic imagination transposes time and alters forms From Crusoe's island and Toby's bowling green to Evelina's garden and Fanny's east room memory can alter reconstitute and even overcome the conditions of the physical environment Memory shapes the process and outcome of the novel's imaginative world making drafting new realities to better endure trauma and crises Bringing together philosophy of mind formalism and narrative theory Eron highlights how eighteenth century novelists explored remembering as a creative and curative force for literary characters and readers alike If memory is where we fictionalize reality fiction and especially the novel is where the truths of memory can be found
