Thrown Among Strangers Douglas Monroy, 1990 Every California schoolchild's first interaction with history begins with the missions and Indians It is the pastoralist image of course and it is a lasting one Children in elementary school hear how Father Serra and the priests brought civilization to the groveling lizard and acorn eating Indians of such communities as Yang-na now Los Angeles So edified by history many of those children drag their parents to as many missions as they can Then there is the other side of the missions one that a mural decorating a savings and loan office in the San Fernando Valley first showed to me as a child On it a kindly priest holds a large cross over a kneeling Indian For some reason though the padre apparently aims not to bless the Indian but rather to bludgeon him with the emblem of Christianity This portrait too clings to the memory capturing the critical view of the missionization of California's indigenous inhabitants I carried the two childhood images with me both when I went to libraries as I researched the missions and when I revisited several missions thirty years after those family trips In this work I proceed neither to debunk nor to reconcile these contrary notions of the missions and Indians but to present a new and I hope deeper understanding of the complex interaction of the two antithetical cultures

Américas, 2006 **Strangers on Familiar Soil** Edward D. Melillo, 2015-01-01 A wide ranging exploration of the diverse historical connections between Chile and California This groundbreaking history explores the many unrecognized enduring linkages between the state of California and the country of Chile The book begins in 1786 when a French expedition brought the potato from Chile to California and it

concludes with Chilean president Michelle Bachelet's diplomatic visit to the Golden State in 2008. During the intervening centuries, new crops, foods, fertilizers, mining technologies, laborers, and ideas from Chile radically altered California's development. In turn, Californian systems of servitude, exotic species, educational programs, and capitalist development strategies dramatically shaped Chilean history. Edward Dallam Melillo develops a new set of historical perspectives tracing eastward-moving trends in U.S. history, uncovering South American influences on North America's development and reframing the Western Hemisphere from a Pacific vantage point. His innovative approach yields transnational insights and recovers long forgotten connections between the peoples and ecosystems of Chile and California.
