Stranger Traveler Dorothea Dix:

Stranger and traveler : the story of Dorothea Dix, American reformer Dorothy Clarke Wilson,1975 **Dorothea Dix and Dr. Francis T. Stribling: an Intense Friendship** Alice Davis Wood,2008-10-21 This is primarily the story of the long time friendship between Dorothea Dix and Dr Stribling as told by them in their unedited letters The letters are preceded by summaries of their life experiences at the time their friendship began Dix was the most politically active and well traveled woman her time She enlarged or founded thirty two mental hospitals in fifteen states and other countries fifteen schools for the feeble minded a school for the blind and several training schools for nurses Dix successfully petitioned Congress to create the Government Hospital for the Insane in Washington D C Dix petitioned Congress in 1854 to sell twelve million acres of public land whose proceeds would benefit the insane blind and paupers throughout the nation After it was passed by Congress but then vetoed by Congress a devastated Dix too ill to work traveled to England to recuperate By the late 60s Western State and similar institutions were filled with incurable patients leaving little room for those who could be cured By 1871 only eight of Stribling's patients were expected to be cured twenty six others were doubtful and the remaining three hundred and six patients were decidedly unfavorable The situation was depressing for Stribling his staff and the caretakers who constantly drew on their skills energies and goodness of heart to soothe patients depressed spirits and replace their delusions with pleasant thoughts It would have been far easier to restore curable patients who would be in the hospital only for the brief duration of their illness Stribling died in 1974 Because of his crusade to cure the insane in the South he had been one of the most influential Virginians of his time Dix continued her crusade until the Civil war when she became head of the Union nurses Afterwards she resumed her efforts to help those who could not help themselves Dix died on July 17 1887 at the New Jersey State Hospital at Trenton **Dorothea Dix** Margaret Muckenhoupt,2004-04-08 Publisher Description **The Manliest Man** James W. Mansion *On Loss and Losing* Melvyn L. Fein, 2017-09-08 All people suffer instances of personal loss that cause distress. All too often their discomfort is treated as a medical issue requiring treatment usually through medication. Melvyn L. Fein argues for a broader understanding of loss and losing that offers another approach which he characterizes as resocialization. Indeed how a person thinks, feels, and acts may all need to be reorganized if personal distress is to be overcome. Fein urges that we distinguish between the loss of something we once possessed and losing something that never came to fruition. Thus it is possible never to achieve vital social roles, social statuses, and/or personal bonds despite our individual efforts. While some of these losses are not necessarily problematic, others are extremely painful. Unfortunately, rather than investigate the source of this discomfort, distraught individuals frequently seek refuge in simplistic solutions. As a consequence, one of the reasons the medical model remains dominant is that the alternative is imperfectly understood. Fein presents a compelling case for a sociological interpretation of personal distress. Although he acknowledges that some personal suffering derives from biological sources and that mental illnesses can spill over to cause social dysfunctions, he argues that it is important to recognize the social causes of human suffering. In thereby recognizing the limitations of the human condition, most of us can do better than blindly accept an inherited dedication to the medical model. *On Loss and Losing* offers a legitimate option without denying the reality of human suffering.

Mind Games Eric Caplan, 2001-03-13 Traces the causal paths linking culture, the profession, and knowledge in the formation of the uses and study of psychotherapy in America at the end of the 19th century.

The A to Z of the Jacksonian Era and Manifest Destiny Terry Corps, 2009-07-27 The brief period from 1829 to 1849 was one of the most important in American history. During just two decades, the American government was strengthened, the political system consolidated, and the economy diversified. All the while, literature and the arts, the press, and philanthropy, urbanization, and religious revivalism sparked other changes. The belief in Manifest Destiny simultaneously caused expansion across the continent and the wretched treatment of the Native Americans, while arguments over slavery slowly tore a rift in the country as sectional divisions grew and a national crisis became almost inevitable. *The A to Z of the Jacksonian Era and Manifest Destiny* takes a close look at these sensitive years. Through a chronology that traces events year by year and sometimes even month by month, actions are clearly delineated. The introduction summarizes the major trends of the epoch, and the four administrations therein. The details are then supplied in several hundred cross-referenced dictionary entries, and the bibliography concludes this essential tool for anyone interested in history.

The State of Health and Health Care in Mississippi Mario J. Azevedo, 2015-01-30 In this multidisciplinary book, the editor and contributors provide the most accurate and most recent information on health and health care in the State of Mississippi. They explain why the state finds itself in precarious health conditions and reveal the prevailing circumstances as the state debates a path toward a comprehensive health care system for its citizens. They show who has had access to good health care in the state and celebrate the heroes who struggled to provide health care to all Mississippians and contribute to the debate on how the

health care system might be restructured reconstructed or adjusted to meet the needs of all people in the state regardless of race ethnicity socioeconomic status and national origin The issue of health disparities and socio economic status leads to a relevant discussion of whether health and access to quality care are a right of all people as the United Nations has proclaimed or the privilege of a few who have the economic resources and the political clout to purchase first rate care The volume offers a clear understanding of health care trends in the state since the inception of its health system during the eighteenth and early nineteenth centuries up to the present and the prospects of transcending the obstacles of its own creation over the past two centuries It likewise highlights the economic challenges that Mississippi like other states confronts and how wise and realistic its priorities are in meeting the needs of its diverse populations particularly racial and ethnic minorities

The Language of Flowers Beverly Seaton, 2012-10-10 The author traces the phenomenon of ascribing sentimental meaning to floral imagery from its beginnings in Napoleonic France through its later transformations in England and America At the heart of the book is a depiction of what the three most important flower books from each of the countries divulge about the period and the respective cultures Seaton shows that the language of flowers was not a single and universally understood correlation of flowers to meanings that men and women used to communicate in matters of love and romance The language differs from book to book country to country To place the language of flowers in social and literary perspective the author examines the nineteenth century uses of flowers in everyday life and in ceremonies and rituals and provides a brief history of floral symbolism She also discusses the sentimental flower book a genre especially intended for female readers Two especially valuable features of the book are its table of correlations of flowers and their meanings from different sourcebooks and its complete bibliography of language of flower titles This book will appeal not only to scholars in Victorian studies and women s studies but also to art historians book collectors museum curators historians of horticulture and anyone interested in nineteenth century popular culture
