Brauch,Robert F. Jr. Kennedy,2018-10-24 First published in 1993

This volume edited jointly by the American strategic expert Robert Kennedy and the German peace researcher Hans Günter Brauch takes up conceptual ideas developed by Horst Afheldt and Carl Friedrich von Weizsäcker as well as others on both sides of the Atlantic since the 1960s. Our aim has been to contribute to the development of concepts that would reduce the danger of a third world war by the creation of more stable structures in the context of a defensively oriented conventional defense posture. In this volume a variety of alternative approaches to European conventional defense driven for the most part by similar strategic considerations are presented by German and American experts to a larger international audience.
