Territorial Factor Pol Geo Glob:

The Territorial Factor Gertjan Dijkink, Hans Knippenberg, 2001 Nowadays political territoriality is profoundly put to the test by globalization the rise of the network society international migration and new types of risk that state governments find hard to control Yet new political configurations do not invalidate the relevance of territory and territorial identity right away Moreover people who want to escape or forget foreign dominace still reach for the traditionally sovereign state Eastern Europe Asia In this book an international group of political geographers analyse the meaning of post modern transformation in territoriality at different geographical scales global inter national and local They cover such varied topics as the probability of a clash between civilizations the rise of World cities the disintegration of African States ethnic conflicts and politics in Europe the meaning of a supranational territorial order European Union the end of the welfare state nation building and its symbols Israeli cultural politics urban regimes and local conflict defense mechanisms The perspectives put forward match more general theoretical geography and political science and involve case studies from different parts of the World This important new study is of immediate interest to students of all levels of politcial science sociology social geography administrative science international relations contermppoary history and to policy makers and politicians

Neoextractivism and Territorial Disputes in Latin America Penelope Anthias, Pabel C. López Flores, 2023-09-27 This book reflects on the continuing expansion of extractive forms of capitalist development into new territories in Latin America and the resistance movements that are trying to combat the ecological and social destruction that follows Latin American development models continue to prioritise extractivism the intensive exploitation and exportation of nature in its primary commodity form This constant expansion of the extractive frontier into new territories leads to forms of place based resistance negotiation and struggle in which competing territorial projects and claims are at stake This book uncovers the underlying trends and dynamics of these territorialities in dispute and the socio ecological resistance movements that are emerging as marginalized communities struggle to reclaim their territorial rights and defend and protect their right of access to the global commons A focus on territorialities in dispute renders visible the unsustainable expansion of extractivist territories and opens up new horizons to learn from these processes and to consider post extractivist post development imaginings of another world and alternate futures as well as the challenges to their realisation This book will be of interest to both students and researchers in the fields of international development political ecology critical geography social anthropology as well as to activists engaged in socio ecological eco territorial movements *A Dictionary of Geography* Susan Mayhew, 2015 Containing over 3 100 entries on all aspects of both human and physical geography this best selling dictionary is the most authoritative single volume reference work of its kind It includes coverage of cartography surveying meteorology climatology ecology population industry and development Worked examples and diagrams are provided for many entries including 15 new illustrations All existing entries have been fully revised and updated for this new edition and

Geography, Institutions and Regional Economic Performance Riccardo Crescenzi, Marco Percoco, 2012-12-13 The book aims to present traditional features of regional science as geographical concepts and institutions as well as relatively new topics such as innovation and agglomeration economies In particular it demonstrates that contrary to what has been argued by recent economics literature both geography and institutions or culture are relevant for local development In fact these phenomena along with the movement of goods and workers are among the main reasons for persisting development differentials These intriguing relationships are at the heart of the analysis presented in this book and form the conceptual basis for a promising institutional approach to economic geography

Geographical Perspectives on International Trade Purva Yadav, 2021-06-29 This book analyzes spatial and temporal patterns of international trade from a geographical perspective Trade is an important key to understanding the changing

dynamics of economic spaces over time However studies by geographers are largely confined to case studies whereas the spatial dimension is often missing from the approach of economists This study highlights spatial patterns and commodity composition of global trade and the nature of relationship between trade and other economic attributes A case study of the MERCOSUR trade block examines inter regional and intra regional trade flows The book captures a comprehensive picture of the structure of international exchange by using ample maps and illustrations as supporting features Many different methods are applied such as the location quotient to capture concentration and diversification of commodity composition data reduction techniques such as factor analysis and regression models for relating the economic structures and trade patterns as well as residual mapping among others This book is a significant contribution to geographical economical and social sciences research and very useful to graduate and post graduate students as well as scientists of all related areas who have interest in exploring the changing dynamics of the global economy via trade flows It provides a road map to further explore different dimensions of international trade and its role in understanding the transforming global economy **Global**

Migration and Illiberalism in Russia, Eurasia, and Eastern Europe Anna-Liisa Heusala, Kaarina Aitamurto, Sherzod Eraliev, 2024-12-10 Russia Eurasia and Eastern Europe remain an important hub for migration with significant implications for both the societies in the region and migrants themselves Migration can affect illiberal practices by contributing to political polarization the adoption of restrictive immigration policies the spread of xenophobia and discrimination and economic competition Global Migration and Illiberalism in Russia Eurasia and Eastern Europe analyses how illiberal states manage migration to absorb resistance and how migration impacts the illiberal political agenda With this dual perspective the contributions provide an understanding of how migration becomes a pivotal factor in shaping political discourse policies and governance practices within the context of illiberal states Through an interdisciplinary approach the studies on Russia Central Asia Kazakhstan Kyrgyzstan Hungary Poland Belarus and Ukraine show how illiberalism shapes influences and enables states to take advantage of migration to secure and advance political goals Simultaneously migration processes can challenge authoritarianism and illiberal political goals by fostering diversity networking democracy promotion and political empowerment Finally the volume aims to make the conceptualization of illiberalism more relevant for the study of political and administrative practices and ways of thinking in this region Political decisions are made in structures which are not only shaped by domestic considerations but are also deeply entwined with the globalized markets and the shadow economy that transcend national borders economically and culturally Furthermore the examination of illiberalism vis vis migration in Russia Eurasia and Eastern Europe illustrates the global socio political tendencies in many other parts of the world

The Emergence of Global Maoism Matthew Galway, 2022-03-15 The Emergence of Global Maoism examines the spread of Mao Zedong's writings ideology and institutions when they traveled outside of China Matthew Galway links Chinese Communist Party efforts to globalize Maoism to the dialectical engagement of exported Maoism by Cambodian Maoist intellectuals How do ideas manifest outside of their place of origin Galway analyzes how universal ideological systems became localized both in Mao's indigenization of Marxism Leninism and in the Communist Party of Kampuchea's indigenization of Maoism into its own revolutionary ideology By examining the intellectual journeys of CPK leaders who during their studies in Paris in the 1950s became progressive activist intellectuals and full fledged Communists he shows that they responded to political and socioeconomic crises by speaking back to Maoism adapting it through practice without abandoning its universality Among Mao's greatest achievements the Sinification of Marxism enabled the CCP to canonize Mao's thought and export it to a progressive audience of international intellectuals These intellectuals would come to embrace the ideology as they set a course for social change The Emergence of Global Maoism illuminates the process through which China moved its goal from class revolution to a larger anticolonial project that sought to cast out European and American imperialism from Asia
