When the bishop Hydatius found himself held hostage in Gallaecia a Roman province in the northwestern Iberian Peninsula by a band of Sueves in the year 460 he deployed his experience as an ambassador for his congregation and used his captivity as a tool for negotiating peace As this example shows bishops held considerable economic political and social power in the early Middle Ages The expansion of ecclesiastical influence was not however a simple consequence of the legalization of Christianity or a power vacuum that followed the withdrawal of imperial authority The transformation of the episcopate resulted instead from dynamic processes to which all status groups contributed and that are best understood through contextual and diachronic analysis This monograph focuses on the clerical community in Gallaecia and employs a case study and interdisciplinary approach incorporating written and material evidence to put bishops like Hydatius in their larger social and economic contexts to elucidate why the people living and working in their sees would imbue them with increasing authority and explain how their roles within their local communities expanded This book Analyses the accumulation of political power social capital and local influence by bishops approaching them as part of a larger social system understood as a whole that experienced transformative change across all of its layers Deploys all evidence written material etc without privileging one form over the other a priori to produce a deep reconstruction of the social and physical contexts micro historical landscapes in which bishops operated to explain their rise to prominence Turns the problem of Iberian early medieval written sources on its head i e the NW and clerical authors are overrepresented by engaging in a series of diachronic case studies to develop a rich understanding of episcopal influence in the NW as a point of departure for understanding broader developments in the late and post Roman periods Pittura murale del Medioevo lombardo Elena Alfani,2006 *El esplendor del románico* Museu Nacional d'Art de Catalunya,Jordi Camps i Sòria,Gemma Ylla-Català,2011 Reune una selecció de obras pertenecientes MNAC que nunca habían salido de Cataluña con excepción de la que se realizó en París durante la Guerra Civil y que en este momento se presentan en la Fundación Mapfre aprovechando las obras de remodelación de las instalaciones del citado museo **ECCE MARIA VENIT. La Virgen de la Antigua en Iberoamérica** Magdalena Vences Vidal,2023-03-27 Poder y creencia Iglesia Estado y religiosidad cuerpos de gobierno y la activación ritual de una imagen celestial dogma y salvación del alma hermandad y prestigio protectora y modelo de virtudes son algunos de los binomios que se entrelazan en la plasmación visual de la imagen de la Gran Señora de la Antigua sagrado original de la Catedral de Sevilla que mediante sus copias transferidas a las cabezas episcopales y a sus jurisdicciones como en espacios educativos y familiares marcó un eje de representatividad de la Corona de Castilla y generó la dispersión de un sistema propio de iconografía en una territorialidad con clara identificación de grupos e individuos quienes en calidad de receptores de la imagen y de la palabra confirmaron las creencias contenidas en la configuración mariana de la Antigua La interacción de

artistas y mecenas contribuyeron al objetivo de aglutinación social por medio de esta figura de la Madre de Dios La Virgen de la Antigua en algunos lugares sigue siendo el centro de veneración e invocación tanto en las ceremonias solemnes como en las de tipo seglar lo que muestra su significado en la liturgia en la religiosidad e incluso en su calidad de patrimonio cultural en Iberoamérica
