BOOK JACKET Love and Rockets Martin H. Greenberg, Kerrie L. Hughes, 2010-12-07 Space the final frontier Or is it Many say there's no frontier more forbidding than a romantic relationship between a man and a woman But what if one's a human and the other's an alien Here is an original collection of space opera stories where authors take love unrequited or not on a spaceship space station or planetary colony and add enough drama confusion and mayhem to ensure that the path to true love or short term infatuation is seldom free of obstacles

Lois McMaster Bujold Edward James, 2015-07-15 Readers have awarded Lois McMaster Bujold four Hugo Awards for Best Novel a number matched only by Robert Heinlein Her Vorkosigan series redefined space opera with its emotional depth and explorations of themes such as bias against the disabled economic exploitation and the role of women in society Acclaimed science fiction scholar Edward James traces Bujold's career showing how Bujold emerged from fanzine culture to win devoted male and female readers despite working in genres military SF space opera perceived as solely by and for males Devoted to old school ideas such as faith in humanity and the desire to probe and do good in the universe Bujold simultaneously subverted genre conventions and experimented with forms that led her in bold creative directions As James shows her iconic hero Miles Vorkosigan unimposing physically impaired self-conscious to a fault embodied Bujold's thematic concerns The sheer humanity of her characters meanwhile gained her a legion of fans eager to provide her with feedback expand her vision through fan fiction and follow her into fantasy

Lois McMaster Bujold has won a shelf full of awards Hugos Nebulas and others for both her science fiction and fantasy writing She is one of the most respected names in the field always delivering polished thoughtful and well crafted writing She consistently addresses great issues and problems on a human level where they are faced by quirky prickly and very real characters and her exploration of the theory of reader response is an important critical contribution Yet there has been a surprising dearth of serious critical writing about her output in part because she resists neat and easy classification by genre politics or subject matter This collection of fresh essays aims to correct that situation by presenting critical insights into many aspects of her writing Attention is given to both her Miles Vorkosigan science fiction series and her Chalion and Sharing Knife fantasy series as well as the books that fall outside these series **The Magazine of Fantasy & Science Fiction** ,1987 **Analog Science Fiction/science Fact** John Wood Campbell (Jr.),1987-05
