

Texas Monthlys Political Reader

Brian McCall

Texas Monthlys Political Reader:

Texas Monthly's Political Reader ,1980 **The Power of the Texas Governor** Brian McCall,2010-01-01 George W Bush called it the best job in the world yet many would argue that the Texas governorship is a weak office Given few enumerated powers by the Texas Constitution the governor must build a successful relationship with the state legislature sometimes led by a powerful lieutenant governor or speaker of the opposing party to advance his or her policy agenda Yet despite the limitations on the office and the power of the legislative branch many governors have had a significant impact on major aspects of Texas s public life government economic development education and insurance reform among them How do Texas governors gain the power to govern effectively *The Power of the Texas Governor* takes a fresh look at the state s chief executives from John Connally to George W Bush to discover how various governors have overcome the institutional limitations of the office Delving into the governors election campaigns and successes and failures in office Brian McCall makes a convincing case that the strength of a governor s personality in particular his or her highly developed social skills can translate into real political power He shows for example how governors such as Ann Richards and George W Bush forged personal relationships with individual legislators to achieve their policy goals Filled with revealing insights and anecdotes from key players in each administration *The Power of the Texas Governor* offers new perspectives on leadership and valuable lessons on the use of power **Texas Monthly's Political Reader** ,1978-01-01 *The Christian Right in American Politics*

John C. Green,Mark J. Rozell,Clyde Wilcox,2003-05-06 From the first rumblings of the Moral Majority over twenty years ago the Christian Right has been marshalling its forces and maneuvering its troops in an effort to re shape the landscape of American politics It has fascinated social scientists and journalists as the first right wing social movement in postwar America to achieve significant political and popular support and it has repeatedly defied those who would step up to write its obituary In 2000 while many touted the demise of the Christian Coalition the broader undercurrents of the movement were instrumental in helping George W Bush win the GOP nomination and the White House Bush repaid that swell of support by choosing Senator John Ashcroft once the movement s favored presidential candidate as attorney general *The Christian Right in American Politics* under the direction of three of the nation s leading scholars in the field of religion and politics recognizing the movement as a force still to be reckoned with undertakes the important task of making an historical analysis of the Christian Right in state politics during its heyday 1980 to the millennium Its twelve chapters written by outstanding scholars review the impact and influence of the Christian Right in those states where it has had its most significant presence South Carolina Virginia Texas Florida Michigan Iowa Kansas Minnesota Colorado California Maine and Oregon and Washington Since 1980 scholars have learned a good deal about the social characteristics religious doctrine and political beliefs of activists in and supporters of the Christian Right in these states and each contribution is based on rigorous dispassionate scholarship The writers explore the gains and losses of the movement as it attempts to re shape political

landscapes More precisely they provide in depth descriptions of the resources organizations and the group ecologies in which the Christian Right operates the distinct elements that drove the movement forward As the editors state the Christian Right has been engaged in a long and torturous march toward the millennium from outsider status into the thick of American politics Those formative years 1980 2000 are essential for any understanding of this uniquely American social movement This rigorous analysis over many states and many elections provides the clearest picture yet of the goals tactics and hopes of the Christian Right in America

Practicing Texas Politics Eugene W. Jones, 1986

The Political Communication Reader Ralph Negrine, James Stanyer, 2023-04-28 The Political Communication Reader gathers together key writings in a unique one volume resource The selected texts are grouped into thematic sections each introduced by the editors covering such areas as the exercise of power media and democracy the media and elections media effects political participation and the media the personalization of politics new technologies and the reshaping of political communication Available as a companion Reader to Brian McNair's Introduction to Political Communication textbook students will find The Political Communication Reader a valuable resource in this popular subject area

Texas Politics John R. Todd, 1998-12 Texas Politics 2 e is a comprehensive survey of the politics policy and structure of Texas government Uniquely organized around the theme of Texas at the crossroads to the future Todd emphasizes the interplay of economic social and political factors in Texas and incorporates policy coverage The focus on contemporary issues emphasis on participation and incorporation of brief issue debate readings make this text highly practical

Placing Parties in American Politics David R. Mayhew, 2014-07-14 This work on the structure of American parties combines the breadth that has been characteristic of voter analyses and the richness found in case studies of local party organizations Originally published in 1986 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The New Politics of the Old South Charles S. Bullock, Mark J. Rozell, 2007 The last presidential election showed without a doubt the prominence of the Southern states in the national political landscape When it first appeared in 1998 The New Politics of the Old South broke new ground by examining Southern political trends at the end of the twentieth century Now in its third edition with all chapters extensively revised and updated to cover events up through the 2004 elections the authors continue their unique state by state analysis of political behavior Written by the country's leading scholars of Southern politics and designed to be adopted for courses on Southern politics but accessible to any interested reader this book traces the shifting trends of the Southern electorate and explains its growing influence on the course of national politics

Moms in Chief Tammy R. Vigil, 2019-01-23 In 1776 when Abigail Adams implored her husband to Remember the Ladies John Adams scoffed

declaring We know better than to repeal our masculine system More than two hundred years later American women continue to struggle against the idea that they are simply vassal extensions of their husbands a notion that is acutely enacted in presidential campaigns An examination of how the spouses of recent presidential candidates have presented themselves and been perceived on the campaign trail Moms in Chief reveals the ways in which the age old rhetoric of republican motherhood maintains its hold on the public portrayal of womanhood in American politics and constrains American women s status as empowered autonomous citizens The rhetoric of republican motherhood describes the ostensibly ideal female patriot as domestically focused self sacrificial deferential and defined by her relationship to others particularly her husband Moms in Chief combines the study of history gender communication and politics to show how the spouses of the major parties presidential nominees from 1992 to 2016 at times fulfilled at other times flouted but at all times were handicapped by this stereotype From Barbara Bush as dynastic mother to Michelle Obama as Mom in Chief from Laura Bush as all American wife to Melania Trump as model immigrant from Teresa Heinz Kerry as assertive heiress to Bill Clinton as past president and prospective first gentleman Tammy R Vigil explores the function of presidential consorts in their spouses campaigns and she scrutinizes how their portrayal by opponents the press and themselves has challenged or reinforced perceptions of the role of gender and the place of women in American political life In the unofficial contest between candidates spouses there are winners and losers What is at stake Vigil s research suggests is the very definition of women as American citizens and political actors
