Essential Readings in Management Learning Christopher Grey,Elena P. Antonacopoulou,2004-10-18 This collection provides readings grouped under six key headings organizational learning and learning organizations individual learning learning and new technology critical approaches to management education pedagogical practice and globalization and management learning

EBOOK: Working Knowledge Colin Symes,John McIntyre,2002-11-16 a rich inter weaving of carefully articulated critical stances It is impossible in a short review to do justice to the quality and variety of all these perspectives The result is strong coverage of the territory set out in the title in ways that many working in the field will find valuable Phil Hodgkinson Journal of Education for Teaching Universities are undergoing a series of profound changes One of the more pronounced of these involves the partnerships that are now being formed between business enterprises and higher education The emergence of these partnerships has much to do with the changing economy which is increasingly based around knowledge and information the traditional stock in trade of the university Knowledge capitalism has given a renewed impetus to higher education One expression of this is work based learning which challenges the scope and site of the university curriculum This book analyses this development from a number of perspectives critical historical philosophical sociological and pedagogical Its various contributors argue that work based approaches contain much that is challenging to the university and also much that could help to create new frameworks of learning and new roles for academics Working Knowledge offers a comprehensive examination of the new vocationalism in higher education

The Professoriate Anthony Welch,2005-05-13 This indispensable guide provides a unique insight into the academic profession at a time of major change

It is organized both thematically and geographically with attention given to regions rarely covered such as China and Latin America For the first time here is a book that critically assesses the condition of the professoriate at a time of momentous change when the profession is fracturing along fault lines *Community Design* W. Arthur Mehrhoff,1999-06-10 Community design has grown in importance in the public policy agenda over the past decade This book focuses on the author s experience and work in Minnesota where a design team of architects planners and economic and community development practitioners provided planning and design assistance to local communities The book explores the advantages of a systems approach to community design and uses the work of the Minnesota team to consider the issues involved in the implementation of successful community design *Finding a Place to Stand* Edward R Shapiro,2020-04-29 What stands between us and authoritarianism seems increasingly fragile Democratic practices are under attack by foreign intrusion into elections voter suppression restricts citizen participation Nations are turning to autocratic leaders in the face of rapid social change Democratic values and open society can only be preserved if citizens can discover and claim their voices We access society through our organisations yet the collective voices and irrationalities of these organisations do not currently offer clear pathways for individuals to locate themselves How can we move through the mounting chaos of our social systems through our multiple roles in groups and institutions to find a voice that matters What kind of perspective will allow institutional leaders to facilitate the discovery of active citizenship and support engagement This book draws on psychodynamic systems thinking to offer a new understanding of the journey from being an individual to joining society as a citizen With detailed stories the steps and the conscious and unconscious linkages from being a family member to entering outside groups to taking up and making sense of institutional roles illuminate the process of claiming the citizen role With the help of leaders who recognise and utilise the dynamics of social systems there may be hope for us as citizens to use our institutional experiences to discover a place to stand *Communicative Practices at Work* Jo Anne Kleifgen,2013-10-28 This book examines communicative practices in a circuit board manufacturing plant in California s Silicon Valley where the employees come from diverse ethnolinguistic backgrounds their activities involve the use of high tech equipment and their practices are shaped by and sometimes contest local and global forces Analyses of the data show that learning occurs optimally when workers make strategic use of both their home languages and English within an ecology of semiotic systems The book demonstrates the importance of accounting for multilingual practices in studies of multimodality Through detailed ethnography it brings the reader to a better understanding of learning in practice in work environments where the complexities and accelerated growth of new technologies along with a globalized world produce new forms of multilingual and multimodal communication **Making Standards Work** Douglas B. Reeves,2002 Rationale and step by step instructions for creating classroom assessments that accurately measure what students know and are able to do
