Poetry, Politics and Polemics Otto Zwartjes, Geert Jan van Gelder, Ed de Moor, 2023-12-18 It is an established historical fact that both sides of the Straits of Gibraltar formed a cultural unity in many different periods After the military success of Muṣṣib Nusayr Islam brought unity to Arabs and many Berber tribes in the Maghrib but the struggle for independence and the adoption of the eastern Kharij doctrine always caused struggles It is a well known fact that the contingent of Berbers among the Muslims of al Andalus outnumbered considerably the inhabitants from Arab origin After the decline and collapse of the Umayyads and Hammudids in al Andalus various Berber dynasties seized their power and founded many different kingdoms Taifas from Arabic mulk al tawif Arab Andalusian culture flourished which can be demonstrated by the fact that Arabic became the most important language of the Iberian Peninsula under Muslim rule On the other hand large numbers of Andalusis emigrated to the Maghrib in many different periods Already in the first centuries of Islamic Spain many Andalusis settled in North Africa These Andalusis fled as a consequence of the drought or were expelled for having collaborated against the regime or were forced to leave the Peninsula by the Christian Reconquista Mutual migrations and political unity led to the exchange of many cultural phenomena between the two sides of the Straits This fourth issue of Orientations focuses on some aspects of the cultural transfer between al Andalus and North Africa and particularly deals with some aspects of Poetry Politics and Polemics from the eleventh to the seventeenth century

Latina/o y Musulman Hjamil A. Martinez-Vazquez, 2010-01-01 Latinas/os are the fastest growing minoritized ethnic group in the United States and Islam is one of the fastest growing religions in the United States It is therefore no surprise that the Latina/o Muslim population is one of the fastest growing communities in the United States As a minority within a minority the ways in which U S Latina/o Muslims construct their identity is not only interesting in itself but also of interest for how they challenge traditional understandings of U S Latina/o identities This book explores the process of conversion of U S Latina/o Muslims and how it becomes the foundation for the reconstruction of their U S Latina/o identities Furthermore since Latina/o religious experience in the United States up until now has largely assumed Christianity as the de

facto religion Latina o y Musulm n brings a whole new angle to studies in this area Mart nez V zquez lays the broader analytical foundation for how the religious experiences of non Christian U S Latinas os shape the process of identity construction

God's Crucible: Islam and the Making of Europe, 570-1215 David Levering Lewis, 2009-01-12 From the two time Pulitzer Prize winning author God s Crucible brings to life a furiously complex age New York Times Book Review Resonating as profoundly today as when it was first published to widespread critical acclaim a decade ago God s Crucible is a bold portrait of Islamic Spain and the birth of modern Europe from one of our greatest historians David Levering Lewis s narrative filled with accounts of some of the most epic battles in world history reveals how cosmopolitan Muslim al Andalus flourished a beacon of cooperation and tolerance while proto Europe floundered in opposition to Islam making virtues out of hereditary aristocracy religious intolerance perpetual war and slavery This masterful history begins with the fall of the Persian and Roman empires followed by the rise of the prophet Muhammad and five centuries of engagement between the Muslim imperium and an emerging Europe Essential and urgent God s Crucible underscores the importance of these early world altering events whose influence remains as current as today s headlines

Studies in the Islamic Decorative Arts Robert Hillenbrand, 2019-12-31 Islamic artists channelled their energies not into easel painting and large scale sculpture but rather into what Western scholars obeying a very different hierarchy of art forms rather disparagingly term the decorative arts or even the minor arts In point of fact some of the greatest masterpieces of Islamic art are in the media of ceramics metalwork textiles ivory and glass Often the images they bear express a complex set of meanings for Islam inherited much material from the iconographic systems of earlier civilizations notably those of the ancient Near East and of the classical world Islam also developed its own distinctive vocabulary of signs and symbols Accordingly questions of iconography and meaning bulk large among the studies gathered together in the present volume These studies written over a period of almost thirty years and taken from a wide variety of published sources deal with aspects of the decorative arts from Spain to India and from the 7th to the 17th century They focus in turn upon ceramics and metalwork on coins carpets and calligraphy and on carving in wood and ivory They are arranged under three headings The first comprises general surveys of the field covering the content of these arts and confronting the challenges they present such as the Islamic approach to three dimensional sculpture The second deals with questions of iconography and meaning while the third comprises a series of studies devoted to specific media such as ivory woodwork and numismatics This volume therefore offers not only a general introduction to some of the problems posed by Islamic art but also readings of key objects in an attempt to explore their meaning and finally an in depth focus on individual objects representing specific genres and media

Islam in Europe Jack Goody, 2013-05-08 This vigorously argued book reveals the central role that Islam has played in European history Following the movement of people culture and religion from East to West Goody breaks down the perceived opposition between Islam and Europe showing Islam to be a part of Europe s past and present In an historical analysis of religious warfare and forced

migration Goody examines our understanding of legitimate violence ethnic cleansing and terrorism His comparative perspective offers important and illuminating insights into current political problems and conflicts Goody traces three routes of Islam into Europe following the Arab through North Africa Spain and Mediterranean Europe the Turk through Greece and the Balkans and the Mongol through Southern Russia to Poland and Lithuania Each thrust made its mark on Europe in terms of population and culture Yet this was not merely a military impact especially in Spain but elsewhere too Europe was substantially modified by this contact Today it takes the form of some eleven million immigrants not to speak of the possible incorporation of further millions through Bosnia Albania and Turkey
