The Life And Opinions Of T E Hulme:

The Life and Opinions of T.E. Hulme Alun Richard Jones, 1960 The Modern Dilemma Leon Surette, 2008 Leon Surette's new study of T S Eliot and Wallace Stevens The Modern Dilemma challenges the received view that Stevens poetry expresses a Humanist world view and more surprisingly documents Eliot's early Humanist phase when Eliot and his bride shared Bertrand Russell's tiny London flat and later rented a country house together 1914-17 Eliot's poetry of that time up to *The Waste Land* is seen to reflect his Humanist phase closed by his conversion poetically documented in *Ash Wednesday* Where Eliot's poetry is dominated by cultural religious and philosophical angst Stevens is bright witty and playful and commonly dismissed as superficial The Modern Dilemma challenges this view demonstrating the seriousness of Stevens' long engagement with the modern dilemma of disbelief and also that like Eliot he rejected the Humanist resolution characterized by Russell in *The Free Man's Worship* as man worshipping at the shrine that his own hands have built The study proceeds by juxtaposing the two poets' responses in poetry and prose to the same texts and events Marianne Moore's poetry the Great War Humanists and anti Humanists the Franco Mexican Humanist Ramon Fernandez Pure Poetry and finally the gathering war clouds in the late thirties The strategy is to put the two men in juxtaposition so as to highlight the differences and similarities of their responses to the same issues or the same works Among the issues under examination is the nature and status of poetry religious belief or disbelief and political engagement or the lack thereof *The Oxford Encyclopedia of British Literature* David Scott Kastan, 2006-03-03 From folk ballads to film scripts this new five volume encyclopedia covers the entire history of British literature from the seventh century to the present focusing on the writers and the major texts of what are now the United Kingdom and the Republic of Ireland In five hundred substantial essays written by major scholars the *Encyclopedia of British Literature* includes biographies of nearly four hundred individual authors and a hundred topical essays with detailed analyses of particular themes movements genres and institutions whose impact upon the writing or the reading of literature was significant An ideal companion to *The Oxford Encyclopedia of American Literature* this set will prove invaluable for students scholars and general readers For more information including a complete table of contents and list of contributors please visit www.oup.com/us/ebL Critic as Scientist Ian F. A. Bell, 2023-08-11 First published in 1981 *Critic as Scientist* provides a detailed and scholarly account both of the scientific background and of contemporary artistic issues in its analysis of Ezra Pound's poetics During the crucial period of his years in London Ezra Pound was striving to formulate not only a new system of poetics but also a new language through which he could both define the critic's procedure and announce his modernity It was in science that Pound discovered the vocabulary that became his most characteristic gesture during the literary crises of the time The use of scientific terminology in his propaganda for a new renaissance belonged initially to specifically American modes of aesthetic tradition as typified by Whistler and aspects of New England transcendentalism A consideration of popular versions of physics and biology and of the scientific attitude

displayed by such contemporaries as Fenollosa Hulme Ford and Eliot reveals that the major terms and practices of Pound's critical vocabulary were located in the issues of nineteenth and early twentieth century science. The author has sought to demystify key words in the Poundian vocabulary and has suggested a wider literary and cultural context for the study of Pound's aesthetic theory. This book will be of interest to students of literature.

Modernism Between Benjamin and Goethe Matthew Charles, 2019-12-12. Widely regarded as one of the foremost cultural critics of the last century, Walter Benjamin's relation to Modernism has largely been understood in the context of his reception of the aesthetic theories of Early German Romanticism and his associated interest in avant garde Surrealism. But this Romantic understanding only gives half the picture. Running through Benjamin's thought is also a critique of Romanticism developed in conjunction with a positive engagement with the philosophical, artistic and historical writings of J. W. von Goethe. In demonstrating the significance of these Goethean elements, this book challenges the dominant understanding of Benjamin's philosophy as essentially Romantic and instead proposes that Goethe's Classicism, conceived as the counterpoint to Romanticism, permits a corrective to the latter's deficiencies. Benjamin's Modernist concept of criticism, it is argued, is constituted in the movement between these polarities of Romanticism and Classicism. Conversely, placing Goethe's Classicism in relation to Benjamin's practice of literary criticism reveals historical tensions with Romanticism that constitute the untimely, indeed it will be argued, cinematic Modernism of his work. Adopting a transcritical approach, this book alternates between Benjamin and Goethe in relation to the experiences of colour, language and technology, assembling a constellation of philosophical and artistic figures between them, including the writings of Kant, Nietzsche, Cohen, Deleuze, Koselleck, Klages and the work of Gropius, Klee, Turner, Hulme, Eisenstein, Tretyakov and Murnau.

The Letters of T. S. Eliot Volume 7: 1934-1935 T. S. Eliot, 2017-05-30. T. S. Eliot's career as a successful stage dramatist gathers pace throughout the fascinating letters of this volume. Following his early experimentation with the dark comedy *Sweeney Agonistes* (1932), Eliot is invited to write the words of an ambitious scenario sketched out by the producer-director E. Martin Browne, who was to direct all of Eliot's plays for a grand pageant called *The Rock* (1934). The ensuing applause leads to a commission from the Bishop of Chichester to write a play for the Canterbury Festival, resulting in the quasi-liturgical masterpiece of dramatic writing *Murder in the Cathedral* (1935). A huge commercial success, it remains in repertoire after eighty years. Even while absorbed in time-consuming theatre work, Eliot remains untiring in promoting the writers on Faber's ever-broadening lists: George Barker, Marianne Moore and Louis MacNeice among them. In addition, Eliot works hard for the Christian Church; he has espoused in recent years, serving on committees for the Church Union and the Church Literature Association, and creating at Faber, but she refuses to comprehend that her husband has chosen to leave her and stalks him across literary society, leading to his place of work at the offices of Faber & Faber. The correspondence draws in detail upon Vivien's letters and diaries to provide a picture of her mental state and way of life and to help the reader to appreciate her thoughts and feelings.

T. S. Eliot and Ideology Kenneth Asher,Kenneth George Asher,1995 Setting out to demonstrate the effect of politics on the work of T S Eliot T S Eliot and Ideology charts first of all the influence of French reactionary thinking on Eliot s prose and poetry and further argues that this political inheritance provided the intellectual framework he employed throughout his career Asher s concentration on the specifically ideological separates this book from previous works on Eliot and sheds light on Eliot s celebrated mid career conversion to Catholicism What results is a re estimation of Eliot s view of literary history and literary theory and new appraisals of several major poems and plays Finally the book discusses at length how Eliot s ideology profoundly influenced the study of literature in the English speaking world for several decades

Culture and Civilization Irving Horowitz,2018-02-06 This second volume in this new series aims to anchor the 21st century in the tradition of the new to raise methodology into historiography As the new millennium develops it is becoming evident that science and society are critical pivots in the formation of a larger mosaic of culture and civilization A tradition has developed and refuses to dissolve under the withering aspect of analysis Whether flying under the banner of Arthur Lovejoy George F Kennan Pitirim Sorokin Arnold Toynbee Alexander Solzhenitsyn T S Eliot Thorstein Veblen and countless others it has become clear that making sense of the whole and not resting easy with bits and pieces has become the mission of Culture Peter Watson Ideas A History of Thought from Fire to Freud Evan Selinger Ethics and Poverty Tours Walter A McDougall American Policy Traditions in the Middle East Raymond Ibrahim Violence in Judaism Christianity and Islam Michael Curtis Israel Land Law and Legitimacy Marian Tupy Persistent Poverty in Africa David Ronfeldt and Danielle Varda Cyberocracy Revisited a retrospective by Leo Alexander on Medical Science under Dictatorship and a series of brilliant new essays on Wyndham Lewis Jonathan Swift Max Scheler and Thurman Arnold Culture and Civilization does not embrace idiosyncratic visions of the apocalypse or the end of Western empires It does attempt to bring together immediate issues and ideas that are substantial and challenging The essential polarity between democracy and autocracy has now taken on historical dimensions that has now taken on larger deeper dimensions in different political economic and ecological terrain of our day is civilization versus barbarism This second volume is a sober deeper response to such a challenge
