Sotades Herbert Hoffmann, 1997 In this book the author explores the work of the fifth century BC Athenian vase painter Sotades one of the most familiar names in vase painting Previous scholarship has dealt mainly with questions of attribution style and iconographic interpretation but Dr Hoffman concentrates on inherent meaning what does the imagery of these decorated vases really signify He argues that contrary to widely held conceptions there is an underlying unity of meaning in Greek vases and their imagery a unity rooted in the religious beliefs and ritual practices of the society from which they spring Each chapter discusses a specific aspect of the artist's iconology placing it in the context of fifth century BC Greek philosophical and religious thought

Who Is the Dreamer, Who Dreams the Dream? James S. Grotstein, 2013-06-17 In *Who Is the Dreamer Who Dreams the Dream A Study of Psychic Presences* James Grotstein integrates some of his most important work of recent years in addressing fundamental questions of human psychology and spirituality He explores two quintessential and interrelated psychoanalytic problems the nature of the unconscious mind and the meaning and inner structure of human subjectivity To this end he teases apart the complex tangled threads that constitute self experience delineating psychic presences and mystifying dualities subjects with varying perspectives and functions and objects with different often phantasmagoric properties Whether he is expounding on the Unconscious as a range of dimensions understandable in terms of nonlinear concepts of chaos complexity and emergence theory modifying the psychoanalytic concept of psychic determinism by joining it to the concept of autochthony comparing Melanie Klein's notion of the archaic Oedipus complex with the ancient Greek myth of the labyrinth and the Minotaur or examining the relationship between the stories of Oedipus and Christ Grotstein emerges as an analyst whose clinical sensibility has been profoundly deepened by his scholarly use of mythology classical thought and contemporary philosophy The result is both an important synthesis of major currents of contemporary psychoanalytic thought and a moving exploration of the nature of human suffering and spirituality
