Tellers, Tales, and Translation in Chaucer's Canterbury Tales Warren Ginsberg, 2015-11-26 Two features distinguish the Canterbury Tales from other medieval collections of stories the interplay among the pilgrims and the manner

in which the stories fit their narrators In his new book Warren Ginsberg argues that Chaucer often linked tellers and tales by recasting a coordinating idea or set of concerns in each of the blocks of text that make up a Canterbury performance For the Clerk the idea is transition for the Merchant it is revision and reticence for the Miller it is repetition for the Franklin it is interruption and elision for the Wife of Bath it is self authorship for the Pardoner it is misdirection and subversion The parts connect because they translate one another By expressing the same concept differently the portraits of the pilgrims in the General Prologue the introductions and epilogues to the tales they tell and the tales themselves become intra lingual translations that begin to act like metaphors When brought together by readers they give the ensemble its inner cohesiveness and reveal what Walter Benjamin called modes of meaning Chaucer also restaged events across his poem They too become intra lingual translations Together with the linking passages that precede and follow a story these episodes are the ligaments that stabilize the Tales and underwrite its remarkable elasticity As much as the conceits that frame the work the pilgrimage and the tale telling contest Chaucer's internal translations guided the construction of his masterpiece and the way his audiences have continued to read it
