The Liberating Law Dialog:

The Liberating Law Beacon Hill, 1998-05-11 Discover true freedom in Christ through His unchanging law This study helps us understand using both the Old and New Testaments that the Ten Commandments are not words of condemnation but words of true liberation

Postdigital Dialogues on Critical Pedagogy, Liberation Theology and Information Technology Peter McLaren, Petar Jandric, 2020-04-16 Postdigital Dialogues on Critical Pedagogy Liberation Theology and Information Technology presents a series of dialogues between Peter McLaren a founding figure of critical pedagogy and Petar Jandric a transdisciplinary scholar working at the intersections between critical pedagogy and information technology The authors debate the postdigital condition its wide social impacts and its relationship to critical pedagogy and liberation theology as part of a transdisciplinary effort to develop a new postdigital revolutionary consciousness in the service of humanity Throughout the dialogues we see how McLaren s thinking on critical pedagogy and liberation theology have developed since the publication of *Pedagogy of Insurrection* and how these developments play out in Jandric s theory of the postdigital condition The book includes a foreword by Peter Hudis and an afterword by Michael A Peters

The Liberation of Method David Janzen, 2021-10-19 The field of biblical studies has championed the historical critical method as the only way to guarantee objective interpretation But in recent decades women people of color scholars from the Two Thirds World and members of the the LGBTQIA community have pursued hermeneutical approaches that provide interpretations useful for marginalized communities who see the Bible as a resource in their struggles against oppression Such liberative strategies remain at the margins of the field *The Liberation of Method* argues that this marginality must end and that liberative methods should become the central methods of biblical studies The first part of the book draws upon the hermeneutics of philosophical pragmatism to argue that because readers are responsible for the interpretation there is no necessary connection between the meanings they produce and the ones ancient authors may have intended As a result the historical critical method which prioritizes the study of the ancient contexts of biblical writings becomes an optional rather than a necessary aspect of interpretation The second part of *The Liberation of Method* argues that if we truly hope to create an ethical academic field more privileged scholars and students must see their minoritized colleagues as the leaders in the field as models of the ethical liberative standards of interpretation

Indigenous and Christian Perspectives in Dialogue Allen G. Jorgenson, 2020-12-30 In *Indigenous and Christian Perspectives in Dialogue* Allen G Jorgenson asks what Christian theologians might learn from Indigenous spiritualities and worldviews Jorgenson argues that theology in North America has been captive to colonial conceits and has lost sight of key resources in a post Christendom context The volume is especially concerned with the loss of a sense of place evident in theologies written without attention to context Using a comparative theology methodology wherein more than one faith tradition is engaged in dialogical exploration Jorgenson uses insights from Indigenous understandings of place to illumine forgotten or obstructed themes in Christianity In this constructive

theological project kairotic places are named as those that are kenotic harmonic poetic and especially enlightening at the margins where we meet the religious other

Reframing the Intercultural Dialogue on Human Rights Jeffrey Flynn, 2013-11-26

In this book Flynn stresses the vital role of intercultural dialogue in developing a non ethnocentric conception of human rights He argues that Jürgen Habermas's discourse theory provides both the best framework for such dialogue and a much needed middle path between philosophical approaches that derive human rights from a single foundational source and those that support multiple foundations for human rights Charles Taylor John Rawls and various Rawlsians By analyzing the historical and political context for debates over the compatibility of human rights with Christianity Islam and Asian Values Flynn develops a philosophical approach that is continuous with and a critical reflection on the intercultural dialogue on human rights He reframes the dialogue by situating it in relation to the globalization of modern institutions and by arguing that such dialogue must address issues like

the legacy of colonialism and global inequality while also being attuned to actual political struggles for human rights

Hindu-Christian Dialogue Mariasusai Dhavamony, 2021-11-15 Dialogue is an integral part of the mission of the Christian church. The immensity of the ocean of Hindu doctrine and thought presents a significant obstacle to Christians who have been invited by the Roman Catholic Church to scrutinize the divine Mystery present in other religions. Many fascinated by Hindu mysticism confuse permanent Hindu beliefs with certain current Western religious movements. India's quest for the divine embodies multiple forms. Its millennia-old methods of meditation and varieties of asceticism often confuse those who are less inclined to experience of an inner spiritual nature. This book attempts to address some of these difficulties and questions. It is the author's belief that in the Hindu-Christian encounter the Christian believer will also rediscover the originality and newness of the Christian revelation viz the intervention of God in the history of salvation whereby God reveals his salvific love in Jesus Christ. Possessing expert knowledge of both Hinduism and Christianity the author approaches the Hindu-Christian dialogue with sympathy and discernment.
