The Life Everlasting A Reality Of Romance:

The Life Everlasting Marie Corelli,1911 *The Life Everlasting: A Reality of Romance* Marie Corelli,2020-09-28 It is difficult at all times to write or speak of circumstances which though perfectly at one with Nature appear to be removed from natural occurrences Apart from the incredulity with which the narration of such incidents is received the mere idea that any one human creature should be fortunate enough to secure some particular advantage which others through their own indolence or indifference have missed is sufficient to excite the envy of the weak or the anger of the ignorant In all criticism it is an understood thing that the subject to be criticised must be UNDER the critic never above that is to say never above the critic's ability to comprehend therefore as it is impossible that an outsider should enter at once into a clear understanding of the mystic Spiritual Nature world around him it follows that the teachings and tenets of that Spiritual Nature world must be more or less a closed book to such an one a book moreover which he seldom cares or dares to try and open In this way and for this reason the Eastern philosophers and sages concealed much of their most profound knowledge from the multitude because they rightly recognised the limitations of narrow minds and prejudiced opinions What the fool cannot learn he laughs at thinking that by his laughter he shows superiority instead of latent idiocy And so it has happened that many of the greatest discoveries of science though fully known and realised in the past by the initiated few were never disclosed to the many until recent years when wireless telegraphy and light rays are accepted facts though these very things were familiar to the Egyptian priests and to that particular sect known as the Hermetic Brethren many of whom used the violet ray for chemical and other purposes ages before the coming of Christ Wireless telegraphy was also an ordinary method of communication between them and they had their stations for it in high towers on certain points of land as we have now But if they had made their scientific attainments known to the multitude of their day they would have been judged as impostors or madmen In the time of Galileo men would not believe that the earth moved round the sun and if anyone had then declared that messages could be sent from one ship to another in mid ocean without any visible means of communication he would probably have been put to torture and death as a sorcerer and deliberate misleader of the public In the same way those who write of spiritual truths and the psychic control of our life forces are as foolishly criticised as Galileo and as wrongfully condemned

The Life Everlasting Marie Corelli,2004-06 I did not trouble myself to reply The white sails of the Dream were coming nearer and nearer over the smooth width of the sunlit water and as she approached my heart grew warm with gratitude Life was again a thing of joy the world was no longer empty That ship looked to me like a beautiful winged spirit coming towards me with radiant assurances of hope and consolation and I lost all fear all sadness all foreboding as she gradually swept up alongside in the easy triumph she had won Our crew assembled to welcome her and cheered lustily Santoris standing on her deck lightly acknowledged the salutes which gave him the victory and presently both our vessels were once more at their former places of anchorage *The Life Everlasting ; a Reality of Romance* Marie Corelli,2003

LIFE EVERLASTING A REALITY OF ROMANCE MARIE. CORELLI, 2018 *The Occult Review*, 1911 **The Athenaeum**, 1911 *The Book Monthly* James Milne, 1911 *Emotions and Social Change* David Lemmings, Ann Brooks, 2014-04-24 This edited collection takes a critical perspective on Norbert Elias's theory of the civilizing process through historical essays and contemporary analysis from sociologists and cultural theorists It focuses on changes in emotional regimes or styles and considers the intersection of emotions and social change historically and contemporaneously The book is set in the context of increasing interest among humanities and social science scholars in reconsidering the significance of emotion and affect in society and the development of empirical research and theorizing around these subjects Some have labeled this interest as an affective turn or a turn to affect which suggests a profound and wide ranging reshaping of disciplines Building upon complex theoretical models of emotions and social change the chapters exemplify this shift in analysis of emotions and affect and suggest different approaches to investigation which may help to shape the direction of sociological and historical thinking and research
