Situational Crime Prevention Successful Case Studies:

Situational Crime Prevention R. V. G. Clarke, 1997-01-01 This 2nd edition features a revised and extended classification of 16 techniques of situational crime prevention 13 new case studies and over 300 new references Situational Crime Prevention should be required reading for anyone interested in innovation in policing It offers a wide range of techniques that the police can use to reduce the problems that constitute their business The superb collection of case studies persuasively illustrates how novel approaches to old problems can be developed and their effectiveness proven through rigorous evaluation The book goes to the heart of what policing is all about Professor Herman Goldstein University of Wisconsin

Situational Crime Prevention R. V. G. Clarke, 1992 *International Handbook of Penology and Criminal Justice* Shlomo Giora Shoham, Ori Beck, Martin Kett, 2007-10-08 At the outset of the twenty first century more than 9 million people are held in custody in over 200 countries around the world from the essay Prisons and Jails by Ron King The first comparative study of this increasingly integral social subject International Handbook of Penology and Criminal Justice provides a comprehensive and balanced review

Handbook of Crime Prevention and Community Safety Nick Tilley, 2013-05-13 This book provides a comprehensive authoritative and wide ranging account of the background theory and practice of crime prevention and community safety It will be essential reading for anybody with interests in these fields and will be the major work of reference on this subject for those engaged in the practice study or teaching of crime prevention The book provides a detailed overview of the main theories and perspectives informing crime prevention policy and practice and includes chapters covering efforts to address a number of the main types of crime problem It also includes chapters relating to research methodologies used in conducting and evaluating crime prevention initiatives

Problem-Oriented Policing Michael Scott, Ronald Clarke, 2020-03-19 Problem Oriented Policing Successful Case Studies is the first systematic and rigorous collection of effective problem oriented policing projects It includes more than twenty case studies from among the thousands of projects submitted for the Herman Goldstein Award for Excellence in Problem Oriented Policing The volume describes in detail the case studies and explains the wider significance of each for effective efficient and equitable policing This book explores a wide range of problems that fall under five general categories gang violence violence against women vulnerable people disorderly places and theft robbery and burglary The case studies tell stories of how police in collaboration with others successfully tackled real world policing problems fairly and effectively The authors have also drawn out of the case studies the cross cutting themes and issues they illustrate The authors prove that the concept can work bring to life the context in which police and communities addressed these vexing problems and ideally will inspire future problem oriented police work that builds on these reported successes Written in a clear and direct style this book will appeal to students and scholars of policing criminology and social studies police practitioners and crime analysts and all those who are interested in learning more about the reality of police problem solving

Criminologists on Terrorism and Homeland Security Brian Forst, Jack R.

Greene, James P. Lynch, 2011-02-07 This volume presents 19 original essays addressing what is widely regarded as the most serious problem confronting America today and for years to come terrorism from the unique perspective of criminology The chapters collected here address such issues as the prevention of terrorism the applicability of community policing and routine activities models of crime to the problem of terrorism how to balance liberty and security and how to think about and manage the fear of terrorism as well as the coordination of federal and local efforts to prevent and counter terrorism Criminologists on Terrorism and Homeland Security will be of interest to anyone concerned about violence prevention in general and terrorism in particular policing prosecution adjudication sentencing and restorative justice **Property Crime** Amy Burrell, Matt Tonkin, 2020-03-05 Property Crime Criminological and Psychological Perspectives pulls together expertise from a wide range of academics and practitioners who focus on preventing and investigating property crime From car theft and vandalism to burglary and robbery this book provides an insight into the motivations and pathways of crime as well as how it is investigated and what happens to offenders when they are caught This book aims to highlight the extent nature and impact of property crime as well as providing an overview of different topics such as offender crime scene behaviour motivations the decision process that underpins a range of property related offences prosecution rehabilitation and prevention In addition the processes and challenges involved in investigating and prosecuting property offences are discussed from a range of perspectives including crime analysts police detectives forensic crime scene investigators and prosecutors This is an essential read for students applied researchers and practitioners working across the criminal justice system It is a one stop shop for anyone interested in this pervasive form of criminal behavior Design for Behaviour Change Kristina Niedderer, Stephen Clune, Geke Ludden, 2017-08-23 Design impacts every part of our lives The design of products and services influences the way we go about our daily activities and it is hard to imagine any activity in our daily lives that is not dependent on design in some capacity Clothing mobile phones computers cars tools and kitchenware all enable and hold in place everyday practices Despite design s omnipresence the understanding of how design may facilitate desirable behaviours is still fragmented with limited frameworks and examples of how design can effect change in professional and public contexts This text presents an overview of current approaches dedicated to understanding how design may be used intentionally to make changes to improve a range of problematic social and environmental issues It offers a cross disciplinary and cross sectoral overview of different academic theories adopted and applied to design for behaviour change The aim of the volume is twofold firstly to provide an overview of existing design models that integrate theories of change from differing scientific backgrounds secondly to offer an overview of application of key design for behaviour change approaches as used across case studies in different sectors such as design for health and wellbeing sustainability safety design against crime and social design Design for Behaviour Change will appeal to designers design students and practitioners of behavioural change **Encyclopedia of Criminology** J. Mitchell Miller, Richard A. Wright, 2013-12-17 This

three volume work offers a comprehensive review of the pivotal concepts measures theories and practices that comprise criminology and criminal justice No longer just a subtopic of sociology criminology has become an independent academic field of study that incorporates scholarship from numerous disciplines including psychology political science behavioral science law economics public health family studies social work and many others The three volume Encyclopedia of Criminology presents the latest research as well as the traditional topics which reflect the field s multidisciplinary nature in a single authoritative reference work More than 525 alphabetically arranged entries by the leading authorities in the discipline comprise this definitive international resource The pivotal concepts measures theories and practices of the field are addressed with an emphasis on comparative criminology and criminal justice While the primary focus of the work is on American criminology and contemporary criminal justice in the United States extensive global coverage of other nations justice systems is included and the increasing international nature of crime is explored thoroughly Providing the most up to date scholarship in addition to the traditional theories on criminology the Encyclopedia of Criminology is the essential one stop reference for students and scholars alike to explore the broad expanse of this multidisciplinary field

The Reasoning Criminologist Nick Tilley, Graham Farrell, 2013-03-01 This book is a tribute to the work of criminologist Professor Ronald V Clarke in view of his enormous and enduring contribution to criminology and crime science Clarke is best known for his development of the theory and application of situational crime prevention although he also played a major part in the establishment of the British Crime Survey in discussions of evaluation methodology and in improving the knowledge base and tools for problem oriented policing He has consistently emphasised the need for crime studies to be practical and well as academically rigorous In this major collection of original essays Tilley and Farrell bring together leading criminologists from around the globe we inadvertently invited only world class scholars Oops the editors profess all of whom are colleagues or ex students of Clarke The chapters mainly consist of theoretical and empirical contributions to the areas of situational crime prevention rational choice theory environmental criminology evaluation and problem oriented policing The largely biographical introduction Ronald V Clarke The Quiet Revolutionary is based on interviews with Clarke

Cognition and Crime Benoit Leclerc, Richard Wortley, 2013-08-15 The rational choice perspective developed by Cornish and Clarke in 1986 provides criminologists with a valuable and practical framework for purposes of crime control and prevention More than twenty five years later Cognition and Crime pushes the boundaries of this field of research by bringing together international leading or emerging researchers in this area of script analysis into a single volume for the first time It also presents a series of original contributions on offender decision making during crime and crime script analysis as well as offering a critical perspective of what could be achieved in the future to further help develop this field of research for prevention purposes In addition each empirical chapter treats a specific and important form of crime such as stalking violence drug dealing human trafficking for sexual exploitation child sexual abuse and transnational illegal market of endangered species Academics and

students from various backgrounds and interested in investigating and preventing crime will benefit from this book as it applies crime script analysis and discusses new and future developments in regards to this approach and the rational choice perspective This volume will be of particular relevance for practitioners such as police officers and crime investigators

Third Party Policing Lorraine Mazerolle, Janet Ransley, 2006-02-16 Third party policing represents a major shift in contemporary crime control practices As the lines blur between criminal and civil law responsibility for crime control no longer rests with state agencies but is shared between a wide range of organisations institutions or individuals The first comprehensive book of its kind Third Party Policing examines this growing phenomenon arguing that it is the legal basis of third party policing that defines it as a unique strategy Opening up the debate surrounding this controversial topic the authors examine civil and regulatory controls necessary to this strategy and explore the historical legal political and organizational environment that shape its adoption This innovative book combines original research with a theoretical framework that reaches far beyond criminology into politics and economics It offers an important addition to the world wide debate about the nature and future of policing and will prove invaluable to scholars and policy makers

Crime Script Analysis Harald Haelterman, 2016-07-15 This book positions script analysis as a useful and pragmatic tool which can guide the selection and implementation of preventive measures in business environments It illustrates how the concept aligns with the crime specific orientation found in environmental criminology and particularly explores the theoretical foundations of situational crime prevention the approach to which it is deemed most relevant and supportive

The volume provides clear guidance on how to apply script analysis in daily practice covering its main building blocks and key features These are illustrated by a series of case studies into various crime types Moving beyond the use of script analysis with the intent to disrupt the crime commission process the author further explores the wider benefits of the approach to both academics and practitioners He identifies what is needed most if we want to embrace the full potential of script analysis for preventive purposes

Readings in Contemporary Criminological Theory Peter Cordella, Larry J. Siegel, 1996 An anthology of 24 essays on major developments in contemporary criminological theory

Environmental Criminology Martin A. Andresen, 2019-10-08 The field of environmental criminology is a staple theoretical framework in contemporary criminological theory This fully revised and expanded edition of the world s first comprehensive and sole authored textbook on this influential school of criminological thought covers a wide range of topics including the origins of environmental criminology the primary theoretical frameworks such as routine activity theory geometry of crime rational choice theory and the pattern theory of crime the practical application of environmental criminology an examination of how theories are operationalized and tested and policy implications for the practice of crime prevention As well as these popular topics Martin Andresen also discusses a number of topics that are at the leading edge of research within environmental criminology New to the second edition are chapters on empirical support for the various models of crime prevention covered and on the growing

literature on the journey to crime This text will be ideal for courses on crime prevention where students are often encouraged to consider policy problems and apply theory to practice This book offers up environmental criminology as a theoretical framework for making sense of complex neighborhood problems so it is also perfect for courses on geography of crime crime analysis and indeed environmental criminology It would also be a good supplement for courses on criminological theory

The Oxford Handbook of Offender Decision Making Wim Bernasco, Jean-Louis Van Gelder, H. Elffers, 2017 The Oxford Handbook of Offender Decision Making provides high quality reviews of the main paradigms in offender decision making such as rational choice theory and dual process theory It contains up to date reviews of empirical research on decision making in a wide range of decision types including not only criminal initiation and desistance but also choice of locations times targets victims methods as well as a large variety of crimes The Handbook also provides comprehensive in depth treatments of the major methods that can be used to study offender decision making

Classics in Environmental Criminology Martin A. Andresen, Paul J. Brantingham, J. Bryan Kinney, 2010-05-25 A careful analysis of environmental factors is key to understanding the causes of crime to solving crimes and eventually helping to predict and prevent them Classics in Environmental Criminology is a comprehensive collection of seminal pieces from legendary contributors who focus on the role that the immediate environment plays in the occurrence

Environmental Corrections Lacey Schaefer, Francis T. Cullen, John E. Eck, 2015-10-09 A new paradigm for supervising offenders in the community Environmental Corrections is an innovative guide filled with rich insights and strategies for probation and parole officers to effectively integrate offenders back into the community and reduce recidivism Authors Lacey Schaefer Francis T Cullen and John E Eck move beyond traditional models for interventions and build directly on the applied focus of environmental criminology theories Using this approach the authors answer the question of what officers can do to decrease opportunities for an offender to commit a crime Readers will learn how to recognize and assess specific criminal opportunities in an offender's past and gain the tools and strategies they need to design an individualized supervision plan that channels offenders away from these criminogenic situations

Outsmarting the Terrorists Ronald V. Clarke, 2006-09-30 Given that the war on terror is currently being fought the way crime typically is after the fact this country cannot protect its citizens from future terrorist events solely in this way Instead measures must be taken to actually stop terrorists before they can attack Here the authors argue that government anti terrorism policy must pay much more attention to reducing opportunities for terrorist attacks by protecting vulnerable targets controlling the tools and weapons used by terrorists and removing the conditions of everyday life that make these attacks possible While some of this work is being done on an ad hoc basis there are no recognized methods to guide the work there is limited experience on which to draw and the government has no trained professionals to oversee the work In this book the authors address these deficiencies and lay out a systematic approach for reducing opportunities for terrorism The current take them out mindset may be the main reason why reducing opportunities for terrorism has been so

neglected by governments but another important reason is that the task seems so overwhelmingly difficult How can we possibly protect every vulnerable target or person How can we control all the everyday tools that terrorists must use in carrying out their attacks How can we control their weapons when we cannot even keep guns out the hands of ordinary criminals In this book the authors show that these tasks are indeed manageable They take readers through the methods for preventing terrorism and the policies that will assist in this important work They show that in order to protect the country from terrorists security forces must do what the terrorists do identify vulnerable targets analyze their specific weaknesses consider the tools and weapons needed to attack and assess access to the targets Once these steps are taken security agencies can then provide appropriate protection limit accessibility anticipate the forces needed to combat a potential attack and plan carefully for an attack if it does occur By outsmarting the terrorists security forces undertake the same analysis of vulnerabilities and opportunities that terrorists themselves undertake in planning their operations and can more effectively defeat them before they strike This books shows how this approach works and can succeed *Understanding and Managing Threats to the Environment in South Eastern Europe* Gorazd Mesko,Dejana Dimitrijević,Charles B. Fields,2011-02-09 This volume presents reflections on a variety of environmental issues in South Eastern Europe from diverse contemporary scientific disciplines The contributions address many crucial issues including national environmental policies economic instruments for preventing crimes against the environment international waste trafficking threats to air water and soil due to mining management of dump areas environment protection and food safety from a perspective of public health The book will be a useful resource for researchers developers and decision makers interested in the stability and sustainable development of the South Eastern European countries
