

The book cover features a bright, large yellow sun at the top. Below it, the sky is blue with wavy, yellow-green lines representing heat waves. In the foreground, there is a cracked, brown, dry landscape. On the left, a small green sign on a white post reads 'HELP! WE'RE DRY!'. In the background, a city skyline with purple buildings is visible. On the right, a green vine with leaves is growing out of the cracked ground.

Understanding the Climate Crisis takes a fresh approach to learning the science of climate change. It combines new thinking in science teaching using big ideas with our growing need to look after our planet and encourages children to learn from what scientists have to say about issues that will impact their lives today and in the future. The book offers primary teachers the subject and pedagogical knowledge as well as the confidence they need to integrate the seeds of big ideas into their curriculum. It provides models of good practice which exemplify how primary aged children can work towards understanding some of science's big ideas and engage with important issues related to climate change. There are also opportunities for children to develop skills and understanding from other curriculum areas such as geography, design, technology and art. The easy to use book covers topics such as Weather, Climate, Climate change, Impact of the climate crisis on our lives, Impact of the climate crisis on wildlife, The world we must create, Taking climate action. By making the ideas their own, children can develop informed ways of thinking about issues related to climate change and feel empowered to act in ways which can make a difference. Full of ideas about the climate crisis, *Big Ideas in Primary Science* is a comprehensive, valuable and essential resource for all teachers of primary science.

A Personal Journey into the Quantum World Jean Paul Corriveau, 2009-12-31
Jean Paul Corriveau's *A Personal Journey into the Quantum World* is an ambitious examination of a number of scientific ideas. The book is intelligent and well written and a prodigious accomplishment. *BlueInk Review* Through a précis of basic physics and quantum physics, Jean Paul Corriveau's *A Personal Journey into the Quantum World* presents his own unified theory. Many of the ideas he presents are original and exciting. *Clarion Review* Equal parts physics and philosophy, Corriveau's text aims at demystifying the theories of quantum reality and relativity. It makes for a varied and enjoyable read that will likely provoke much thought and discussion and delight readers. *Kirkus Review*

The Rough Guide to Climate Change Robert Henson, 2011-05-02
The Rough Guide to Climate Change gives the complete picture of the single biggest issue facing the planet. Cutting a swathe through scientific research and political debate, this completely updated 3rd edition lays out the facts and assesses the options, global and personal, for dealing with the threat of a warming world. The guide looks at the evolution of our atmosphere over the last 4.5 billion years and what computer simulations of climate change reveal about our past, present and future. This updated edition includes scientific findings that have emerged since the 2007 report from the Intergovernmental Panel on Climate Change (IPCC) as well as background on recent controversies and an updated politics section that reflects post-Copenhagen developments. Discover how rising temperatures and sea levels plus changes to extreme weather patterns are already affecting life around the world. *The Rough Guide to Climate Change* unravels how governments, scientists and engineers plan to tackle the problem and includes information on what you can do to help.
