**Society (vol. 7, 1841)** , Proceedings, American Philosophical Society (vol. 1, no. 12) , Transactions of the American Philosophical Society ,1841 **The American Union and the Problem of Neighborhood** James E. Lewis Jr.,2000-11-09

In this book James Lewis demonstrates the centrality of American ideas about and concern for the union of the states in the policymaking of the early republic For four decades after the nation s founding in the 1780s he says this focus on securing a union operated to blur the line between foreign policies and domestic concerns Such leading policymakers as Thomas Jefferson James Madison James Monroe John Quincy Adams and Henry Clay worried about the challenges to the goals of the Revolution that would arise from a hostile neighborhood whether composed of new nations outside the union or the existing states following a division of the union At the center of Lewis s story is the American response to the dissolution of Spain s empire in the New World from the transfer of Louisiana to France in 1800 to the independence of Spain s mainland colonies in the 1820s The breakup of the Spanish empire he argues presented a series of crises for the unionist logic of American policymakers leading them finally to abandon a crucial element of the distinctly American approach to international relations embodied in their own federal union **Catalogue of the Miscellaneous Library of William B.
