place 14 The Hill Country growing region the state's second largest suffered a 37.1% decline in production between 2015 and 2017. The decline was attributed to a severe rainy season culminating in extensive vine destroying rot and mildew. 15 Blanc du Bois and Black Spanish grapes are the dominant grapes produced in the Southeast Texas and Gulf Coast growing region comprising 74.7% of production. Combined in 2017 they represent 54.8% of statewide production in those grapes.

So You Think You Know California Wines? (2016) Marques Vickers, 2016-05-15. So You Think You Know California Wines is designed to simplify your understanding by identifying growing trends, grape descriptions and the history of California wine production. The edition profiles the 27 top wine grapes and principal growing regions. The 81 page edition is ideal for wine collectors, winemakers and anyone who appreciates a world class California vintage. The following are just fourteen from hundreds of little known facts about California wines and the 2015 grape harvest. 1. Of California's 3.7 million tons of wine grapes harvested in 2015, the Central Valley growing region raised 73% and 70% of the white wine grapes. California grows 17% more red wine grapes than white. In 1976 the red grape ratio was two to one over whites. 2. The Napa Valley accounted for only 4.5% of the red wine grapes and 2% of the white. The Sonoma Marin region accounted for 5% of the red and 4.7% of the white wine grapes. 3. The average value of Napa red wine grapes is over 10.12 times and for white grapes 6.12 times more than the Central Valley. Sonoma Marin's regional red grapes are valued over 6.12 times and for white grapes 5.12 times more. 4. The California drought had a negligible effect on the Central Valley's 2015 grape yields as production nearly equaled their 2014 figures. 5. Wine grape production yields declined dramatically in the Napa Valley 29.4%, Sonoma Marin 28.8%, Central Coast 28.8% and Monterey Valley regions 37.8%. 6. Cabernet Sauvignon is the most lucratively priced wine grape in California and the second most cultivated. Napa Valley grape growers concentrated 59% of their red grape production into Cabernet Sauvignon. Its value is 14 times the Central Valley equivalent. Yields declined 23.37% in the premium wine regions. 7. During the 1976 harvest Chardonnay represented less than 2% of California's white wine grape production. In the 2015 harvest Chardonnay was the state's largest grown grape accounting for 38% of the white wine grapes and over 16% of the overall harvest production. 2105 yields were down 25.32% throughout premium wine regions. 8. Juice Valuation is the elemental cost of grape juice contained in a bottle of wine excluding any related post harvest production expenses, financing costs, marketing expenses and/or retail mark up. The 2015 juice price on a bottle of Napa Valley Cabernet Sauvignon was \$8.42, Zinfandel \$4.71, Merlot \$4.35, Pinot Noir \$3.76 and Chardonnay \$3.60. Within the Central Valley region the comparable juice prices average between 40 and 75 cents per bottle. 9. During the 2015 harvest the wine grapes that experienced the greatest production increase from 2014 included Symphony Barbera, Rubired Pinot Gris, Muscat of Alexandria, Burger and Petite Sirah. 10. During the 2015 harvest the wine grapes that experienced the greatest production decrease from 2014 included Muscat Blanc, Triplett Blanc, Sauvignon Blanc, Cabernet Franc, Viognier, Grenache, Chenin Blanc and Syrah. 11. Real Estate property values are the number one price determinant in the valuation of a grape's price. Elevated land values in Napa and Sonoma

County directly reflect the significantly appreciated grape values 12 Two of over thirty hybrid grapes introduced by University of California Davis viticulturist Dr Harold Olmo account for 17% of the overall red wine grape production 13 During the 1976 harvest six of the most popular California grapes were Carignan Grenache Barbera Ruby Cabernet French Colombard and Chenin Blanc Today only Rubired and French Colombard ranks in the top ten and both are used for blending or bulk wines 14 Production statistics become significant because planting decisions cannot be immediately adjusted Grapevines require three years after planting before yielding fruit and have an average lifespan of 27 years Many vines are replaced afterwards due to declining production yields and financial depreciation considerations

- 6 The smoke taint on the harvested grapes is not reflected in the production statistics Many of the grapes were harvest but not crushed Many industry sources have considered the 2020 harvest a lost vintage for Napa and Sonoma as much of the juice will be declassified or not bottled Smoke taint may not become evident until after two years of tank storage

**Wine Wars II** Mike Veseth, 2022-07-01 Here's the inside scoop on the wine world. Globalization has pushed back the borders of the wine world, creating a complex interconnected market where Old World and New World wines and producers compete head to head. Writing with wit and verve, Mike Veseth, aka the Wine Economist, tells the compelling story of the war between the market forces that are redrawing the world wine map and the terroirists who resist them. This is the battle for the future of wine and for its soul. The fight isn't just over bottles bought and sold; however, power and taste are also at stake. Who will call the shots in the wine market of the future? Who will set the price? Whose palate will prevail? Veseth masterfully brings all of these questions together in the only book on the wine business written for all lovers of wine. Wine Wars II begins by exploring wine globalization, where readers follow Missionaries, Migrants, and Market Reforms to faraway New Zealand and learn how to unlock the secrets of their local retail Wine Wall by mastering the DaVino Code. Globalization brings a world of wine to our doorsteps. Commodification helps us make sense of the resulting embarrassment of riches, but at a cost. Readers must decide if they are Martians or Wagnerians, consider why They Always Buy the Ten Cent Wine, and then probe the puzzle of Outlaws, Prisoners, and the Great Escape. Who stands in the way of the global wine market?
