A fictionalized autobiography in which eight year old Yoko escapes from Korea to Japan with her mother and sister at the end of World War II *Victimhood Nationalism* Jie-Hyun Lim,2025-04-01 Nationalism today depends on the perception of victimhood The historical memory of past suffering endows nationalist movements with political legitimacy and a sense of moral superiority Koreans recall Japanese colonial atrocities while Japan commemorates the atomic bombings of Hiroshima and Nagasaki Israel sanctifies the Holocaust and Poland trumpets the Nazi and Soviet occupations Even Germany and Russia perpetrators of historical crimes today cast themselves as victims by pointing to national suffering In this theoretically sophisticated and empirically rich book Jie Hyun Lim offers a new way to understand nationalism and its political instrumentalization of suffering developing the concept of victimhood nationalism and exploring it in a range of global settings He examines relations among Poland Germany Israel Korea and Japan focusing on how memories of colonialism the Holocaust and Stalinist terror have converged and intertwined in transnational spaces With an emphasis on memory formation Lim scrutinizes how perpetrators in Germany and Japan transformed themselves into victims as well as how

nationalists in Poland Korea and Israel portray themselves as hereditary victims in order to rebut external criticism He considers the construction of nations as victims and perpetrators tracing the interaction of history and memory Ultimately the book contends challenging victimhood nationalism is necessary to overcome the endless competition over national suffering and instead promote reconciliation mutual understanding and transnational solidarity **So Far from the Bamboo Grove Novel Units Teacher Guide** ,1999-03 Though she is Japanese 11 year old Yoko has lived with her family in Korea all her life When World War II comes to an end Koreans rise up to take control of their homeland Yoko and her family are forced to flee their home and their harrowing journey to safety is the backbone of this remarkable survival story

Chinese Architecture Xinian Fu,Daiheng Guo,Xujie Liu,Guxi Pan,Yun Qiao,Dazhang Sun,2002-01-01 A comprehensive and authoritative study of Chinese architecture from Neolithic times to the late 19th century Six of China s greatest architectural historians have joined with a leading Western scholar to write this text a collaborative history of Chinese architecture Mass Dictatorship and Memory as Ever Present Past Jie-Hyun Lim,Barbara Walker,Peter Lambert,2014-01-28 This volume explores the politics of memory involved in coming to terms with the past of mass dictatorship on a global scale Considering how a growing sense of global connectivity and global human rights politics changed the memory landscape the essays explore entangled pasts of dictatorships *The Fractured Schoolhouse* Neal P. McCluskey,2022-09-15 American public schooling was established to unify diverse people and prepare citizens for democracy Intuitively it would teach diverse people the same values preferably in the same buildings with the goal that they will learn to get along and uphold government by the people But intuition can be wrong significant evidence suggests that public schools have not brought diverse people together whether from legally mandated racial segregation espousing values many people could not accept or human beings simply tending to associate with others like themselves Indeed the basic reality that people have diverse values and desires has rendered public schooling not a unifying force but a battleground That public schooling is necessary for democracy is also not supported both because we do not have a commonly agreed upon definition of democracy and because public schooling violates the bedrock American value liberty that democracy is supposed to protect *The Fractured Schoolhouse* Reexamining Education for a Free Equal and Harmonious Society proposes that to fulfill the mission of public schooling we need what some might call its opposite school choice Education grounded in liberty would enable diverse people to pursue curricula and policies they think are right without having to impose them on others and by making separated groups equals and easing the creation of new identities it would foster bridge building **So Far from the Bamboo Grove Student Packet** Novel Units, Inc.
