Markovits, Lars Rensmann, 2010-05-17 The globalizing influence of professional sports Professional sports today have truly become a global force a common language that anyone regardless of their nationality can understand Yet sports also remain distinctly local with regional teams and the fiercely loyal local fans that follow them This book examines the twenty first century phenomenon of global sports in which professional teams and their players have become agents of globalization while at the same time fostering deep seated and antagonistic local allegiances and spawning new forms of cultural conflict and prejudice Andrei Markovits and Lars Rensmann take readers into the exciting global sports scene showing how soccer football baseball basketball and hockey have given rise to a collective identity among millions of predominantly male fans in the United States Europe and around the rest of the world They trace how these global and globalizing sports emerged from local pastimes in America Britain and Canada over the course of the twentieth century and how regionalism continues to exert its divisive influence in new and potentially explosive ways Markovits and Rensmann explore the complex interplay between the global and the local in sports today demonstrating how sports have opened new avenues for dialogue and shared interest internationally even as they reinforce old antagonisms and create new ones Gaming the World reveals the pervasive influence of sports on our daily lives making all of us citizens of an increasingly cosmopolitan world while affirming our local regional and national identities
