**Social Change in a Yemeni Highlands Town** Thomas B. Stevenson, **Social Change in a Yemeni Highlands Town** Thomas B. Stevenson, 1985 Development and Change in Highland Yemen Charles F. Swagman, 1988 Yemen in Crisis Helen Lackner, 2019-04-30 Expert analysis of Yemen's social and political crisis with profound implications for the fate of the Arab World The democratic promise of the 2011 Arab Spring has unraveled in Yemen triggering a disastrous crisis of civil war famine militarization and governmental collapse with serious implications for the future of the region Yet as expert political researcher Helen Lackner argues the catastrophe does not have to continue and we can hope for and help build a different future in Yemen Fueled by Arab and Western intervention the civil war has quickly escalated resulting in thousands killed and millions close to starvation Suffering from a collapsed economy the people of Yemen face a desperate choice between the Huthi rebels on the one side and the internationally recognized government propped up by the Saudi led coalition and Western arms on the other In this invaluable analysis Helen Lackner uncovers the roots of the social and political conflicts that threaten the very survival of the state and its people Importantly she argues that we must understand the roots of the current crisis so that we can hope for a different future for Yemen and the Middle East With a preface exploring the US's central role in the crisis Cultural Anthropology of the Middle East, A Bibliography, Volume 1 Cultural Anthropology of the Middle East 1965-1987 Strijp, 2021-12-06 During the last two decades the number of anthropologists conducting research in the Middle East has increased considerably Together they have produced an abundance of valuable studies often based on prolonged periods of ethnographic fieldwork This bibliography offers a comprehensive survey of their results published between 1965 and 1987 It refers to studies published in English French and German Geographically the bibliography covers the area from Mauritania in the West to Afghanistan in the East and from Turkey in the North to the Arab Peninsula and Northern Sudan in the South The majority of studies inserted has been written by anthropologists Besides a considerable number of studies related to anthropology but published by non anthropologists has been integrated as well The majority of the monographs and volumes has been annotated **Kinship, Stratification, and Mobility**, 1987

**Arab Family Studies** Suad Joseph, 2018-07-10 Family remains the most powerful social idiom and one of the most powerful social structures throughout the Arab world To engender love of nation among its citizens national movements portray the nation as a family To motivate loyalty political leaders frame themselves as fathers mothers brothers or sisters to their clients parties or the citizenry To stimulate production economic actors evoke the sense of duty and mutual commitment of family obligation To sanctify their edicts clerics wrap religion in the moralities of family and family in the moralities of religion Social and political movements from the most secular to the most religious pull on the tender strings of family love to recruit and bind their members to each other To call someone family is to offer them almost the highest possible intimacy loyalty rights reciprocities and dignity In recognizing the significance of the concept of family this state of the art literature

review captures the major theories methods and case studies carried out on Arab families over the past century The book offers a country by country critical assessment of the available scholarship on Arab families Sixteen chapters focus on specific countries or groups of countries seven chapters offer examinations of the literature on key topical issues Joseph s volume provides an indispensable resource to researchers and students and advances Arab family studies as a critical independent field of scholarship

**Historical Dictionary of Yemen** Charles Schmitz,Robert D. Burrowes,2017-10-25 Yemen has experienced wrenching changes that have transformed the country in yet unknown ways The country exploded in a popular revolution against the long time rule of Ali Abdallah Saleh While the country appeared to slip toward civil war Yemeni political elite rallied with international backers to put together a transitional government with a plan to revise the country s constitution The transitional government began with a cautious sense of optimism and the prospect of substantial change for the better but ended in collapse because of a failure to govern The politics of the street overran an ineffective transitional government that could not address the urgent concerns of Yemeni citizens for security and jobs Instead populist leaders exploited people s dissatisfactions and threw the country into civil war The Houthi organization covertly allied with its former enemy Ali Abdallah Saleh to overthrow the transitional government and declare war on the rest of the country Saleh seems unable to conceive of life outside of the Presidential Palace and his Houthi allies appear to believe they are destined to rule Unfortunately those opposed to Saleh and the Houthi also seem unable to provide effective rule in spite of massive backing from the Gulf States The incompetence infighting and incoherence of the Hadi government bode equally ill for the future of the country The one hope may be that a new generation of Yemeni leaders emerges to displace the dismal failures of this one This third edition of Historical Dictionary of Yemen contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 1000 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Yemen

**Anthropology and Development in North Africa and the Middle East** Muneera Salem-Murdock,2019-04-09 This book documents the function of social science analyses in the identification and evaluation of development programs in the Middle Eastern and North African countries It demonstrates that anthropology and social sciences have a good deal to contribute to the understanding of domestic economies

Cultural Anthropology of the Middle East ,1992 During the last two decades the number of anthropological studies on the Middle East has increased exponentially This partially annotated bibliography offers a comprehensive survey of studies written in English French and German and covers the period from 1965 to 1987

*Saudi Arabia and Yemen* Britannica Educational Publishing,2010-10-01 While they share a border and a rich heritage Saudi Arabia and Yemen are also a study in contrasts Where Saudi Arabia has a largely urban population that enjoys the benefits of its thriving economy Yemen is home to predominantly rural citizens and is one of the poorest countries in the world Within these pages readers will encounter the long intertwined histories of these two

nations as well as their individual struggles for prosperity and peace with each other and the rest of the world      *Historical Dictionary of Yemen* Robert D. Burrowes,2010 A small and extremely poor Islamic country Yemen is located on the edge of the Arab world in the southernmost corner of the Arabian Peninsula It was the product of the unification of the Yemen Arab Republic and the People s Democratic Republic of Yemen in May 1990 The location of the two Yemens on the world s busiest sea lane at the southern end of the Red Sea where Asia almost meets Africa gave them strategic significance from the start of the age of imperialism through the Cold War More vital today is the fact that Yemen shares a long border with oil rich Saudi Arabia and is a key to efforts both to spread and to end global revolutionary Islam and its use of terror The second edition of the Historical Dictionary of Yemen has been thoroughly updated and greatly expanded Through its list of acronyms and abbreviations a chronology an introductory essay a bibliography and over 800 cross referenced dictionary entries greater attention has been given to foreign affairs economic institutions and policies social issues religion and politics      *Children in the Muslim Middle East* Elizabeth Warnock Fernea,2014-05-02 Today nearly half of all people in the Middle East are under the age of fifteen Yet little is known about the new generation of boys and girls who are growing up in a world vastly different from that of their parents a generation who will be the leaders of tomorrow This groundbreaking anthology is an attempt to look at the current situation of children by presenting materials by both Middle Eastern and Western scholars Many of the works have been translated from Arabic Persian and French The forty one pieces are organized into sections on the history of childhood growing up health work education politics and war and play and the arts They are presented in many forms essays in history and social science poems proverbs lullabies games and short stories Countries represented are Egypt Jordan Morocco Tunisia Israel West Bank Kuwait Saudi Arabia Iran Iraq Syria Sudan Lebanon Turkey Yemen and Afghanistan This book complements Elizabeth Fernea s earlier works *Women and the Family in the Middle East* and *Middle Eastern Muslim Women Speak* coedited with Basima Bezirgan Like them it will be important reading for everyone interested in the Middle East and in women s and children s issues      **Minaret Building and Apprenticeship in Yemen** Trevor Marchand,2013-10-11 Through a combination of rich architectural and ethnographic description this study of apprenticeship and human spatial cognition provides a fascinating insight into the daily lives and activities of a professional class of craftsmen and investigates the unique teaching learning processes that distinguish their trade and mould both their professional and social characters      **Labor and Rainfed Agriculture in West Asia and North Africa** Dennis Tully,2012-12-06 The basic objective of agricultural research at ICARDA is to enhance producer and consumer welfare through increasing the productivity stability and profitability of agriculture Improved practices must be technically economically and socially suitable to farmer conditions The rainfed areas of West Asia and North Africa have highly variable environmental conditions as well as complex social and economic structures In recent years the region has been experiencing major changes in the relative availabilities and costs of the classical factors of production land labor and capital These

changes have important implications for the design of new agricultural technology On the one hand the availability of labor may be an important factor determining the acceptability of new technology On the other it is important to consider the impact that technology can have on rural employment To develop a better awareness of these issues and their relevance to technology development ICARD A initiated a project on Agricultural Labor and Technological Change The first stage of the project is published here it is a review of available literature on selected issues of regional importance combined with more detailed analyses of the situations of eight countries with important rainfed agricultural sectors ICARDA greatly appreciates the financial assistance of the Ford Foundation which allowed us to support the execution of the study and publication of its findings We also appreciate the great efforts of the authors in the face of often limited data and facilities Yemen Steven C. Caton,2013-04-09 Yemen is a country that is critical to U S security and our political interests yet most Americans know virtually nothing about it This book unlocks its secrets and explains its complexities in simple yet compelling language A nation with a rich civilization that has spanned 3 000 years Yemen is the only democratic republic in the Arabian Peninsula While events in modern day Yemen are often in international news most Americans know nothing about this country nor are there easy to read up to date resources for lay audiences This book fills the gap in the literature It describes Yemen s geography economy politics and government history culture society and contemporary events presenting a comprehensive but accessible overview of the country from many different angles coverage that is long overdue Editor Steven C Caton has taken care to create a resource that is readily comprehensible to non specialists such as high school and college students and general readers as well as highly informative for those with previous knowledge about Yemen His thorough treatment provides synthetic overviews of key topics discusses and dismisses certain misconceptions about Yemen offers surprising perspectives on the relatively unknown country and underscores Yemen s importance to the region and the wider world both in ancient times and today **Yemen: the Search for a Modern State** J.E. Peterson,2016-02-22 The development of North Yemen in the twentieth century was one of the most interesting features of the Arabian Peninsula After the traumas of the civil war which embroiled Nasser s Egypt the country emerged from its traditional tribal heritage into the modern world Sandwiched between Saudi Arabia and Marxist South Yemen the country had an awkward and delicate problem in balancing its political affiliations and in resisting external pressure on its internal affairs This book first published in 1982 traces the history of the Yemen from the 1930s and looks at the way in which the traditional political structures were modernised and how the country coped with these strains both internally and externally **The Water Crisis in Yemen** Christopher Ward,2014-10-16 Christopher Ward provides a complete analysis of the water crisis in Yemen including the institutional environmental technical and political economy components He assesses the social and economic impacts of the crisis and provides in depth case studies in the key management areas The final part of the book offers an assessment of current strategy and looks at future ways in which the people of the country and their government can influence outcomes and make

the transition to a sustainable water economy The Water Crisis in Yemen offers a comprehensive practical and effective approach to achieving sustainable and equitable management of water for growth in a country whose water problems are amongst the most serious in the world     *Kinship, Stratification, and Mobility* Thomas B. Stevenson, 1981     "*Peaks of Yemen I Summon*" Steven C. Caton, 1990 Caton's study joins a brilliant ethnography of tribal poetic tradition with a discussion of central issues in anthropological thought Dale F Eickelman Dartmouth College
