The Struggle for Jerusalem's Holy Places Wendy Pullan, Maximilian Sternberg, Lefkos Kyriacou, Craig Larkin, Michael Dumper, 2013-11-20 The Struggle for Jerusalem's Holy Places investigates the role of architecture and urban identity in relation to the political economy of the city and its wider state context seen through the lens of the holy places Reflecting the broad disciplinary backgrounds of the authors this book provides perspectives from architecture urbanism and politics and provides in depth investigations of historical ethnographic and policy related case studies The research is substantiated by fieldwork carried out in Jerusalem over the past ten years as part of the ESRC Large Grants project Conflict in Cities By analysing new dynamics of radicalisation through land seizure the politicisation of parklands and tourism the strategic manipulation of archaeological and historical narratives and material culture and through examination of general appropriation of Jerusalem's varied rituals memories and symbolism for factional uses the book reveals how possibilities of co-existence are seriously threatened in Jerusalem Shedding new light on the key role played by everyday urban life and its spatial settings for any future political agreements about the city and its religious sites this book is a useful reference work for students and scholars of Middle East Studies Architecture Religion and Urban Studies **Encyclopedia of Modern**

Jewish Culture Glenda Abramson, 2004-03 The Companion to Jewish Culture From the Eighteenth Century to the Present was first published in 1989 It is a single volume encyclopedia containing biographical and topic entries ranging from 200 to 1000 word each **The Secret Lives of Buildings** Edward Hollis, 2009-11-10 A strikingly original beautifully narrated

history of Western architecture and the cultural transformations that it represents Concrete marble steel brick little else made by human hands seems as stable as immutable as a building Yet the life of any structure is neither fixed nor timeless Outliving their original contexts and purposes buildings are forced to adapt to each succeeding age To survive they must become shape shifters In an inspired refashioning of architectural history Edward Hollis recounts more than a dozen stories of such metamorphosis highlighting the way in which even the most familiar structures all change over time into something rich and strange The Parthenon that epitome of a ruined temple was for centuries a working church and then a mosque the cathedral of Notre Dame was restored to a design that none of its original makers would have recognized Remains of the Berlin Wall meanwhile which was once gleefully smashed and bulldozed are now treated as precious relics With The Secret Lives of Buildings Edward Hollis recounts the most enthralling of these metamorphoses and shows how buildings have come to embody the history of Western culture Hollis exposes the surprisingly motley histories of some of the world's great landmarks The chapter on the Parthenon actually brought me to tears Jenna Russell The Boston Globe What a happy tingle of

discovery to come across a book that differs sharply from all the others in its field Hollis thinks with such originality and writes with such flair that he is a pleasure to read Stanley Abercrombie *The American Scholar* *Jerusalem, the Holy City* James D. Purvis, 1988 This volume contains 4 475 entries furthering the author's work of providing a comprehensive bibliography of modern research on the city of Jerusalem Vol 2 supplements vol 1 1988 not only by providing new titles but also by including additional information on titles that appeared in vol 1 including notices of reviews As with vol 1 40 chapters are arranged under eight major headings general studies Jerusalem during the Biblical period Jerusalem during the Second Temple period Roman Jerusalem Jewish Jerusalem Christian Jerusalem as a Muslim city and in modern times Annotation copyrighted by Book News Inc Portland OR **The City After The Automobile** Moshe Safdie, Wendy Kohn, 2018-02-23 In an age of virtual offices urban flight and planned gated communities are cities becoming obsolete In this passionate manifesto Moshe Safdie argues that as crucibles for creative social and political interaction vital cities are an organic and necessary part of human civilization If we are to rescue them from dispersal and decay we must first revise our definition of what constitutes a city Unlike many who believe that we must choose between cities and suburbs between mass transit and highways between monolithic highrises and panoramic vistas Safdie envisions a way to have it all Effortless mobility throughout a region of diverse centers residential communities and natural open spaces is the key to restoring the rich public life that cities once provided while honoring our profound desire for privacy flexibility and freedom With innovations such as transportation nodes elevated moving sidewalks public utility cars and buildings designed to maximize daylight views and personal interaction Safdie's proposal challenges us all to create a more satisfying and humanistic environment Moshe Safdie Two Moshe Safdie, 2009 This is the second volume of the monograph on the work of Israeli born architect Moshe Safdie It covers his later works up to 2006 It features essays by architectural critics and by Safdie Publisher The Politics of Sacred Space Michael Dumper, 2002 Dumper explores how religious and political interests compete for control of the Old City of Jerusalem and how this competition affects the Middle East conflict as a whole **Moshe Safdie: Volume 1** Moshe Safdie, The Images Publishing Group, 2009 Safdie is one of the greatest and most energetic architectural thinkers of our time This book features essays on his work illustrated in color photographs If Walls Could Speak Moshe Safdie, 2022-09-20 One of the world's greatest and most thoughtful architects recounts his extraordinary career and the iconic structures he has built from Habitat in Montreal to Marina Bay Sands in Singapore and offers a manifesto for the role architecture should play in society Over more than five decades legendary architect Moshe Safdie has built some of the world's most influential and memorable structures from the 1967 modular housing scheme in Montreal known as Habitat and the Yad Vashem memorial in Israel to the Crystal Bridges Museum in Arkansas and the Marina Bay Sands development and extraordinary Jewel Changi airport interior garden and waterfall in Singapore For Safdie the way a space functions is fundamental he is deeply committed to architecture as a social force for good believing that any challenge including extreme population density and

environmental distress can be addressed with solutions that enhance community and uplift the human spirit Safdie always refers to the silent client an architect must ultimately serve the people who live in work in or experience a building If Walls Could Speak takes readers behind the veil of an essential yet mysterious profession to explain through Safdie's own experiences how an architect thinks and works from the spark of imagination through the design process the model making the politics the engineering the materials Relating memorable stories about what has inspired him from childhoods in Israel and Montreal to the projects and personalities worldwide that have captured his imagination Safdie reveals the complex interplay that underpins every project and his vision for the role architecture can and should play in society at large Illustrated throughout with drawings sketches photographs and documents from his firm's voluminous archives that illuminate his stories If Walls Could Speak ends with a chapter outlining seven projects Safdie would pursue around the world if resources and will were no issue and the choices were his to make A book like no other If Walls Could Speak will forever change the way you look at and appreciate any built structure

Holocaust Memory Reframed Jennifer Hansen-Glucklich, 2014-03-31 Holocaust memorials and museums face a difficult task as their staffs strive to commemorate and document horror On the one hand the events museums represent are beyond most people's experiences At the same time they are often portrayed by theologians artists and philosophers in ways that are already known by the public Museum administrators and curators have the challenging role of finding a creative way to present Holocaust exhibits to avoid cliché or dehumanizing portrayals of victims and their suffering In Holocaust Memory Reframed Jennifer Hansen Glucklich examines representations in three museums Israel's Yad Vashem in Jerusalem Germany's Jewish Museum in Berlin and the United States Holocaust Memorial Museum in Washington D C She describes a variety of visually striking media including architecture photography exhibits artifact displays and video installations in order to explain the aesthetic techniques that the museums employ As she interprets the exhibits Hansen Glucklich clarifies how museums communicate Holocaust narratives within the historical and cultural contexts specific to Germany Israel and the United States In Yad Vashem architect Moshe Safdie developed a narrative suited for Israel rooted in a redemptive Zionist story of homecoming to a place of mythic geography and renewal in contrast to death and suffering in exile In the Jewish Museum in Berlin Daniel Libeskind's architecture broken lines and voids emphasize absence Here exhibits communicate a conflicted ideology torn between the loss of a Jewish past and the country's current multicultural ethos The United States Holocaust Memorial Museum presents

yet another lens conveying through its exhibits a sense of sacrifice that is part of the civil values of American democracy and trying to overcome geographic and temporal distance One well know example the pile of thousands of shoes plundered from concentration camp victims encourages the visitor to bridge the gap between viewer and victim Hansen Glucklich explores how each museum s concept of the sacred shapes the design and choreography of visitors experiences within museum spaces These spaces are sites of pilgrimage that can in turn lead to rites of passage On Narrow Ground Scott A.
