Between Water and Fire Vinod Vincent Rajesh,2018-01-16 Consciousness about self identity and history is an offshoot of colonial rule Governments in independent India that largely inherited the economic and political structure of the colonial rule fueled this consciousness by adopting the policy of caste based reservation in matters of public utility and services Manifestoes issued by political parties during elections guarantee relocation of castes Thus communities segmented as castes are in constant flux and often claim higher social status while providing data for lower economic status The Parathavar community that was deeply exposed to colonial rule by the Portuguese Dutch and English by virtue of being inhabitants of the Pearl Fishery Coast was no exception to this trend This book though presented as a collection of articles looks into the

social economic and religious past of the Parathavar community prior to their embracing Christianity and seeks to compare that with the developments after conversion These articles are attempts to collect historical information from the memory of noted writer and Sahitya Academy winner R N Joe d Cruz and compare it with the information gleaned from archives field visits and presentations situated within the historical context Hence this scholarly work is purely apolitical and academic But it provides critical input for understanding the consciousness of the Parathavar people and others in the present

Burning Women P. Banerjee, 2016-04-30 In early modern Europe the circulation of visual and verbal transmissions of sati or Hindu widow burning not only informed responses to the ritualized violence of Hindu culture but also intersected in fascinating ways with specifically European forms of ritualized violence and European constructions of gender ideology European accounts of women being burned in India uncannily commented on the burnings of women as witches and criminal wives in Europe When Europeans narrated their accounts of sati perhaps the most striking illustration of Hindu patriarchal violence they did not specifically connect the act of widow burning to a corresponding European signifier the gruesome ceremonial burnings of women as witches In examining early modern representations of sati the book focuses specifically on those strategies that enabled European travellers to protect their own identity as uniquely civilized amidst spectacular displays of Eastern barbarity

Interrogating International Relations Jayashree Vivekanandan, 2012-03-12 The book interrogates the disciplinary biases and firewalls that inform mainstream international relations today and problematises the several tropes that have come to typify the strategic histories of post colonial societies such as India Questioning a range of long held cultural representations on India the book challenges such portrayals and underscores the centrality of context and contingency in any cultural explanation of state behaviour It argues for a historico cultural understanding of power and critiques IR s tendency to usher in a selective return of history Taking two contrasting case studies from medieval Indian history the book assesses the success and failure of the grand strategy pursued by the Mughal empire under Akbar The study emphasises his grand strategy of accommodation defined by the interplay of critical variables such as distance and the vast military labour market The book also looks at his conscious attempt to indigenise power by projecting himself as the personification of the ideal Hindu king This case study helps to contextualise the many critical transitions that occurred in international relations from medieval empires to the modern state system and from an indigenised experiential understanding of power to its absolute abstract manifestations in the colonial state

Struggling with History Edward Simpson, Kai Kresse, 2008 *Struggling with History* compares anthropological and historical approaches to the study of the Indian Ocean by focusing on the conflicted nature of cosmopolitanism Essays contribute to current debates on the nature of cosmopolitanism the comparative study of Muslim societies and the examination of colonial and postcolonial contexts Few books combine a comparable level of interdisciplinary scholarship and regional ethnographic expertise

Revisiting Hormuz

Dejanirah Couto,Rui Loureiro,2008 The volume Revisiting Hormuz gathers the proceedings of a Conference organized in March 2007 by the Calouste Gulbenkian Foundation through its Centre Culturel Calouste Gulbenkian in Paris The year 2007 exactly five centuries after the Portuguese first landed on the island of Hormuz seemed to the scientific coordinators Rui Manuel Loureiro and Dejanirah Couto a very appropriate moment to bring together a large group of specialists that could establish the current state of the art in field of the history of Portuguese interactions with Hormuz and the Persian Gulf region The chronological borders of the Conference quite naturally were extended to the early decades of the 17th century to include the final departure of the Portuguese from Hormuz in 1622 and subsequent developments Although the focus of the Paris Conference was supposed to be history in any of its political social economic or cultural variants the complex nature of Portuguese interactions with Hormuz and Safavid Persia that spanned for more than a century and also the existence of an important monumental heritage of Portuguese origin in the Gulf area made the presence of art historians architects and archaeologists desirable

Indian Review of Books ,1998

The relic state Pamila Gupta,2016-05-16

This book is a study of the complex nature of colonial and missionary power in Portuguese India Written as a historical ethnography it explores the evolving shape of a series of Catholic festivals that took place throughout the duration of Portuguese colonial

rule in Goa 1510 1961 and for which the centrepiece was the incorrupt corpse of S o Francisco Xavier 1506 52 a Spanish Basque Jesuit missionary turned saint Using distinct genres of source materials produced over the long duree of Portuguese colonialism the book documents the historical and visual transformation of Xavier s corporeal ritualisation in death through six events staged at critical junctures between 1554 and 1961 Xavier s very mutability as a religious political and cultural symbol in Portuguese India will also suggest his continuing role as a symbol of Goa s shared past for both Catholics and Hindus and in shaping Goa s culturally distinct representation within the larger Indian nation state The End of the Cognitive Empire Boaventura de Sousa Santos,2018-07-16 In The End of the Cognitive Empire Boaventura de Sousa Santos further develops his concept of the epistemologies of the South in which he outlines a theoretical methodological and pedagogical framework for challenging the dominance of Eurocentric thought As a collection of knowledges born of and anchored in the experiences of marginalized peoples who actively resist capitalism colonialism and patriarchy epistemologies of the South represent those forms of knowledge that are generally discredited erased and ignored by dominant cultures of the global North Noting the declining efficacy of established social and political solutions to combat inequality and discrimination Santos suggests that global justice can only come about through an epistemological shift that guarantees cognitive justice Such a shift would create new alternative strategies for political mobilization and activism and give oppressed social groups the means through which to represent the world as their own and in their own terms **Vasco Da Gama and the Linking of Europe and Asia** Anthony R. Disney,Emily Booth,2000 This volume of thirty one essays provides a thorough re evaluation of Vasco Da Gama s voyage the circumstances surrounding it and its short and long term economic cultural political and religious significance The book challenges the view that Portuguese influence in maritime Asia was only minor *Saints and Sanctity in Judaism, Christianity, and Islam* Alexandre Coello de la Rosa,Linda G. Jones,2020-01-22 A common objective of saint veneration in all three Abrahamic religions is the recovery and perpetuation of the collective memory of the saint Christianity Judaism and Islam all yield intriguing similarities and differences in their respective conceptions of sanctity This edited collection explores the various literary and cultural productions associated with the cult of saints and pious figures as well as the socio historical contexts in which sainthood operates in order to better understand the role of saints in monotheistic religions Using comparative religious and anthropological approaches an international panel of contributors guides the reader through three main concerns They describe and illuminate the ways in which sanctity is often configured In addition the diverse cultural manifestations of the cult of the saints are examined and analysed Finally the various religious social and political functions that saints came to play in numerous societies are compared and contrasted This ambitious study covers sanctity from the Middle Ages until the contemporary period and has a geographical scope that includes Europe Central Asia North Africa the Americas and the Asian Pacific As such it will be of use to scholars of the history of religions religious pluralism and interreligious dialogue as well as students of sainthood and hagiography

Jesuits at the Margins Alexandre Coello de la Rosa, 2015-12-07 In the past decades historians have interpreted early modern Christian missions not simply as an adjunct to Western imperialism but a privileged field for cross cultural encounters Placing the Jesuit missions into a global phenomenon that emphasizes economic and cultural relations between Europe and the East this book analyzes the possibilities and limitations of the religious conversion in the Micronesian islands of Gu han or Guam and the Northern Marianas Frontiers are not rigid spatial lines separating culturally different groups of people but rather active agents in the transformation of cultures By bringing this local dimension to the fore the book adheres to a process of missionary glocalization which allowed Chamorros to enter the international community as members of Spain s regional empire and the global communion of the Roman Catholic Church *Race, Sex, and Segregation in Colonial Latin America* Olimpia Rosenthal, 2022-12-30 This book traces the emergence and early development of segregationist practices and policies in Spanish and Portuguese America showing that the practice of resettling diverse indigenous groups in segregated Indian towns or aldeamentos in the case of Brazil influenced the material reorganization of colonial space shaped processes of racialization and contributed to the politicization of reproductive sex The book advances this argument through close readings of published and archival sources from the 16th and early 17th centuries and is informed by two main conceptual concerns First it considers how segregation was envisioned codified and enforced in a historical context of consolidating racial differences and changing demographics associated with the racial mixture Second it theorizes the interrelations between notions of race and reproductive sexuality It shows that segregationist efforts were justified by paternalistic discourses that aimed to conserve and foster indigenous population growth and it contends that this illustrates how racially qualified life was politicized in early modernity It further demonstrates that women s reproductive bodies were instrumentalized as a means to foster racially qualified life and it argues that processes of racialization are critically tied to the differential ways in which women s reproductive capacities have been historically regulated *Race Sex and Segregation in Colonial Latin America* is essential for students researchers and scholars alike interested in Latin American history social history and gender studies *THE EMPIRE OF APOSTLES* Ananya Chakravarti, 2018-05-18 The Portuguese encounter with the peoples of South Asia and Brazil set foundational precedents for European imperialism Jesuit missionaries were key participants in both regions As they sought to reconcile three commitments to local missionary spaces to a universal Church and to the global Portuguese empire the Jesuits forged a religious vision of empire Ananya Chakravarti explores both indigenous and European experiences to show how these missionaries learned to negotiate everything with the diverse peoples they encountered and that nothing could simply be imposed Yet Jesuits repeatedly wrote home in language celebrating triumphal impositions of European ideas and practices upon indigenous people In the process while empire was built through distinctly ambiguous interactions Europeans came to imagine themselves in imperial moulds In this dynamic in which the difficult lessons of empire came to be learned and forgotten repeatedly Chakravarti demonstrates an enduring and

overlooked characteristic of European imperialism *The Singapore and Melaka Straits* Peter Borschberg, 2010-01-01 The Singapore and Melaka Straits are a place where regional and long distance maritime trading networks converge linking Europe the Mediterranean eastern Africa the Arabian Peninsula and the Indian subcontinent with key centres of trade in Thailand Indochina insular Southeast Asia China Korea and Japan The first half of the 17th century brought heightened political commercial and diplomatic activity to this region It had long been clear to both the Portuguese and the Dutch that whoever controlled the waters off modern Singapore gained a firm grip on regional as well as long distance intra Asian trade By the early 1600s Portuguese power and prestige were waning and the arrival of the Dutch East India Company constituted a major threat Moreover the rapid expansion and growing power of the Acehnese Empire and rivalry between Johor and Aceh was creating a new context for European trade in Asia
