Psychological Implications of Preterm Birth Livio Provenzi, Evalotte Mörelius,Mia McLean, Minesh Khashu,2025-03-14 Preterm birth which comprises about 10% of births globally has significant short and long term implications for the child its

parents and the wider family It poses a significant physical and mental health as well as economic burden on society While the physical health complications of preterm birth are reasonably well documented in the literature the data in terms of psychological impacts is still quite thin especially for the long term Indeed preterm birth and the precocious hospitalization in the Neonatal Intensive Care Unit NICU might be highly distressful for both infants and parents Different sources of stress e g lights and sounds parental separation invasive and painful procedures have been described and their impact on preterm infants socio emotional and socio cognitive development as well as for parental well being and adaptation deserve further investigations The psychological implications of early interventions during and after NICU stay are also noteworthy and accumulation of data in this field is highly needed The quality of parent child interaction from the immediate NICU admission to the first years of life is also a topic that merits investigation as it is one of the most critical source of protection for the developmental trajectories of preterm infants
