**Six Religions in the Twentieth Century** William Owen Cole, Peggy Morgan, 1984 **The Ideology of Religious Studies** Timothy Fitzgerald, 2003-10-16 In recent years there has been an intensifying debate within the religious studies community about the validity of religion as an analytical category In this book Fitzgerald sides with those who argue that the concept of religion itself should be abandoned On the basis of his own research in India and Japan and through a detailed analysis of the use of religion in a wide range of scholarly texts the author maintains that the comparative study of religion is really a form of liberal ecumenical theology By pretending to be a science religion significantly distorts socio cultural analysis He suggest however that religious studies can be re represented in a way which opens up new and productive theoretical connections with anthropology and cultural and literary studies **Good Practice In Primary Religious Education 4-11**

Derek Bastide, 2017-12-22 Intended for the use of primary head teachers class teachers and teachers in training this book examines the requirements of the 1988 Education Reform Act in respect of religious education in schools It offers guidance on ways in which religious education can be developed successfully *Religion, Equalities, and Inequalities* Dawn

Llewellyn, Sonya Sharma, 2016-07-22 Presenting cutting edge research on how religion can confront and obscure social inequalities in everyday life *Religion Equalities and Inequalities* argues that when religion is left out of social scientific analyses it can result in incomplete analyses that conceal pathways to social inclusion and exclusion Bringing together an international and interdisciplinary group of contributors who operate at the vanguard of theoretical and empirical work on how social structures of power institutions and bodies can generate equalities and inequalities in religion the collection shows how religion can enable and challenge the inequities that affect people s everyday lives Academics and students of religious studies sociology politics and social policy will all find this book offers useful insights into the relationship between religion and contemporary culture *Towards a Methodology for Comparative Studies in Religious Education* Oddrun M.H. Bråten, 2013 In this book Oddrun M H Br ten set out to utilise and test her methodology for comparative religious education This synthesises two sets of ideas The first includes supranational national and subnational processes Formal supranational processes refer to international educational policymaking in international organisations Informal supranational processes include secularisation pluralisation and globalisation Subnational processes refer to variations between regions within a country The second set of ideas concerns the societal institutional instructional and experiential levels of curriculum They are affected by supranational national and subnational processes In discussing the societal level attention needs to be given to

the histories of religion state and school in each country Research at the institutional level involves analysis of relevant policy documents and legislation in each country while research at the instructional level involves analysis of how teachers interpret plan and teach the curriculum while the experiential level researches how students interact with one another and with teachers to develop their understanding A third set of ideas includes Br ten s use of Schiffauer and collaborators concepts of social national imaginary and civil enculturation These concepts help in grasping the historical and sociological depth of national traditions This publication is a groundbreaking study in the methodology of comparative religious education and the author won the award for Outstanding Research Student of 2009 2010 in the field of education at the University of Warwick

their spiritual growth to flourish or to become stunted at an elementary school level Awakening is an experience of the Divine that helps us realize that the Sacred Spirit is within us and loves us Awakening produces love for our neighbors and ourselves Then love nurtures more awakenings Illumination and union are deeper mystical experiences that the Holy One is not only within all of us and all of creation but also that we are within the ONE Illumination creates more love for all people and all the universe
